TABLE OF CONTENTS.

ALPHABETICAL LIST OF HOSPITALS, with addresses and telephone numbers.

MEDICAL COLLEGES, giving a brief historical sketch, equipment, entrance and graduation requirements, scholarship, curriculum, faculty.

MEDICAL LIBRARIES, number of volumes.

MEDICAL LABORATORIES, giving all Culture and Anti-toxin Stations in Boston.

STATE BOARDS AND COMMISSIONS, giving their powers, officers, etc., laws relating to practice of medicine and registration of physicians.

BOARDS OF HEALTH of Greater Boston.

MEDICAL SCHOOL INSPECTORS of Greater Boston.

TOWN AND CITY PHYSICIANS of Greater Boston.

MEDICAL OFFICERS of the Massachusetts Volunteer Militia.

HOSPITALS (Public and Private), State Hospitals, Asylums, Sanitoria, Homes, Dispensaries, Convalescent Homes, giving location, rules of admissions, visiting hours, consulting and visiting staff, telephone, etc.

SOCIETIES—National, Interstate, State and Local, giving object, qualifications, dates of meetings and officers.

MISCELLANEOUS INFORMATION.

PHYSICIANS OF GREATER BOSTON, giving alma mater, year of graduation, hospital training, college position, hospital appointments, medical examiner, membership in medical societies, specialty, medical literary contributions, office hours and location, alphabetically arranged.

MEDICAL STREET DIRECTORY.

LIST OF CITIES AND TOWNS THE DIRECTORY COMPRISES. p.5

TABLE OF CONTENTS — Concluded.

SUPPLEMENTARY INFORMATION—giving Wassermann Laboratory; early diagnosis of pulmonary tuberculosis; physicians registered in July, 1915; graduates of College of Physicians and Surgeons; new Boston Board of Health.

OBSTETRICAL CHART—giving the approximate date of quickening (known as the Israelus Chart.)

MEMORANDA for obstetric cases, infectious diseases, dates of medical society meetings and lectures.

DIET LISTS FOR DIABETICS.

PHARMACEUTICAL SYNONYMS.

NECROLOGY.

SPECIAL INDEX.

GENERAL INDEX.

INDEX TO ADVERTISEMENTS.

PREFACE

IN presenting the Fifth Edition of the Medical Directory of Greater Boston, the Editor desires to direct the attention of the medical profession to the numerous changes noted: The reorganization of the State Board of Health, and the enactment of new health laws; the new medical registration law; the Federal narcotic law; the reorganization of the Boston Board of Health, and to the numerous changes in the data of individual physicians and institutions. The necrology list is the largest in the history of the Medical Directory of Greater Boston.

Much has transpired since our last publication, and Greater Boston is again found as a contributor to a good cause. Medical units, medical supplies and financial aid have been freely given to all combatants in the present European war, by the medical profession of Greater Boston.

Our sympathy goes out to the medical profession of Europe in this greatest of human slaughters of modern times. We sympathize with them because we know that the war did not have the sanction of the medical profession in any of the belligerent countries. Our profession stands for the alleviation of pain and suffering and preservation of human life, and hence it always stands for peace, no matter where it is located. The present conflict will check medical progress in the warring countries, and America will come in for a great share of the future medical education of the world. Greater Boston, with its large institutions and enthusiastic workers, has a great deal to offer to medical men in the line of medical education. The future European student will come here for new ideas, as Americans were wont to go to Europe for supplementary work. We are certainly fully equipped for the part we are to take in the near future.

The Editor notes with pleasure the increased laboratory facilities offered to the public by the State Board of Health. The City institutions can easily afford the public more laboratory facilities in X-ray work, and let us hope it will not be long in coming.

The Editor wishes to express his gratitude to the medical profession; to the superintendents of the different medical institutions and to secretaries of the various medical societies, and to all those who furnished the information and aided in this publication.

THE EDITOR.

September 20, 1915.

*HYMN

BY OLIVER WENDELL HOLMES, M. D.

Angel of love, for every grief
    Its soothing balm thy mercy brings,
For every pang its healing leaf,
    For homeless want, thine outspread wings.

Enough for thee the pleading eye,
    The knitted brow of silent pain;
The portals open to a sigh
    Without the clank of bolt or chain.

Who is our brother? He that lies
    Left at the wayside, bruised and sore;
His need our open hand supplies,
    His welcome waits him at our door.

Not ours to ask in freezing tones
    His race, his calling, or his creed;
Each heart the tie of kinship owns,
    When those are human veins that bleed.

Here stand the champions to defend
    From every wound that flesh can feel;
Here science, patience, skill shall blend
    To save, to calm, to help, to heal.

Father of mercies! Weak and frail,
    Thy guiding hand Thy children ask;
Let not the Great Physician fail
    To aid us in our holy task.

Source of all truth, and love, and light,
    That warm and cheer our earthly days,
Be ours to serve Thy will aright,
    Be Thine the glory and the praise!

---

MEDICAL COLLEGES.

BOSTON UNIVERSITY MEDICAL SCHOOL.

Boston University School of Medicine was founded in 1873.

From its inception its doors have been open to students of both sexes on uniform terms and conditions.

It was the first medical school in this country to demand entrance examinations of all applicants for admission who were not college graduates.

It was also the first to offer a graded course of three years (1873).

It was one of the first to make the three years' course compulsory (1877).

It was the first medical school in this country to offer a four years' course (1878).

It was the first to make the four years' course compulsory (1890).

In 1878 it offered courses leading to the degrees of Bachelor of Medicine and Bachelor of Surgery, and in the same year it lengthened its annual sessions to eight months each.

It was the first medical school in this country to institute an optional five years graded course (1907).

In 1908 it offered in conjunction with the College of Liberal Arts of Boston University a six years' combination course, whereby the two degrees, S. B. and M. D., may be acquired.

In 1912 its graduates became eligible, under specified conditions, to the degree Ph. D. from the Graduate School of Boston University.

It is the only medical school which possesses three medals, won (in 1904, 1905 and 1908) on the merits of its exhibits in open competition at national and international expositions and congresses.

Within its brief history its buildings have been more than doubled in size, its course more than doubled in length, its Faculty and the subjects included in its curriculum more than doubled in number, and its clinical facilities have been increased more than fourfold.

Boston University School of Medicine from its inception has been closely affiliated with the Homoeopathic Medical Dispensary, and with the Massachusetts Homoeopathic Hospital which moved into its new building adjoining the School in 1874; was greatly enlarged in 1884 and again in 1891. In 1897 it opened a Maternity Department which has furnished exceptional opportunities for obstetrical experience to the students of the School. In 1908 a Children's Department was added to the Hospital facilities, and in 1908 these facilities were further increased by the opening of the John C. Haynes Memorial Hospital for Contagious Diseases, with accommodations for one hundred and twenty or more patients. In 1912 another addition was made by the dedication of the newly erected Robert Dawson Evans Department of Clinical Research and Preventive Medicine. These combined facilities give the Massachusetts Homoeopathic Hospital a capacity of about four hundred beds and make it one of the largest general hospitals under homoeopathic management in the world.

To the clinical opportunities of the School there was added in 1886 the Westborough Insane Hospital, where in the course of twenty-five years nearly ten thousand patients were treated. In 1913 the Westborough Insane Hospital had accommodations for about twelve hundred patients, thereby offering special clinics of exceptional value and size.

ADMISSION.

Candidates possessing either:—

- (a) A diploma for the first degree in Arts, Philosophy or Science,
- (b) Certificates of sucessful completion of one year's collegiate work at any recognized institution of higher learning,
- (c) A "Medical Student's" certificate from the Regents of the University of the State of New York,

will be admitted without condition on the presentation of their credentials, provided the certification includes work of collegiate rank in Biology, Chemistry, Physics and Modern Languages, as herein later specified.

All other candidates must meet the following requirement:—

They shall offer adequate evidence of competency to gain admission to the second collegiate year at a recognized institution of higher learning. This can be done by presentation of acceptable certificates, or by passing such examinations as are required for promotion to the Second Year by institutions of accepted standing. Further, the work of the collegiate year shall include courses in the subjects below specified.

1. **General Biology.** An introductory course giving a survey of the plant and animal kingdoms, with some consideration of theoretical biology. Four periods a week throughout the year divided between didactic and laboratory instruction.

II. **General Chemistry.** An introductory study of the important elements and their compounds, together with the elements of theoretical chemistry. Four periods a week, divided between lecture and laboratory exercises. A brief course in Qualitative Analysis may be included with advantage to the student.

III. **General Physics.** An elementary study of all the major fields of Physical Science. Four periods a week of laboratory and didactic instruction throughout the year.

IV. **English Composition.** A general course in English to include two periods a week.

V. **French or German.** Elementary or advanced courses in grammar and reading, the character of the work depending upon the preparation of the student. Three exercises a week throughout the year.

For the benefit of students taking their preparatory year at the College of Liberal Arts of Boston University, the following courses are designated as meeting the requirement:—II, 1, 2, 4. III, 1, 2, (3). XVI, 1, 2. VI, 1, 2, and either VII, 1, 2 or XVIII, 1. 2 unless an equivalent course was presented for admission, in which event work of a more advanced grade in the same department shall be substituted.

Applicants for advanced standing who have taken courses in other medical schools must satisfy the Faculty that their qualifications are equivalent in every respect to those of the students of this School at the same grade.

Applicants with college diplomas or certificates must present their credentials at the office of the Medical School, 80 East Concord Street.

The Matriculation fee ($5.00) must be paid at the time of registration.

CURRICULUM.

A thorough and comprehensive curriculum—one sufficient to impart to the student a complete scientific as well as practical medical education—has been arranged. To each term and each year certain studies are assigned, in which the student is required to become proficient before entering upon more advanced studies.

Four Years' Course.

First Year—Anatomy (elementary); Anatomy (advanced); Dissections (two parts); Physiology (elementary); Chemistry, General and Analytical; Microscopy and Histological Technique; Histology and Embryology; Minor Surgery; Pharmaceutics; Homoeopathy (Principles of); Elementary Materia Medica.

Second Year—Dissections (one part); Physiology (advanced, didactic); Physiology (laboratory, experimental); Medical and Physiological Chemistry; Toxicology; Elements of Medicine; Theory and Practice; Materia Medica; Diseases of the Skin; Obstetrics; General Pathology; Surgical Pathology; Pathological Histology; Sanitary Science; Bacteriological Technique.

Third Year—Materia Medica; Theory and Practice; Clinical Medicine; Surgery; General, Operative, Regional and Genito-Urinary; Clinical Microscopy; Clinical and Operative Obstetrics; Gynaecology (clinical); Diseases of the Chest; Diseases of the Throat and Nose; Diseases of Children; Applied Anatomy; The "Organon" and "Chronic Diseases"; Clinics; Dispensary practice (Spring term).

Fourth Year—Materia Medica; Theory and Practice; Clinical Medicine; Clinical Surgery; Orthopedic Surgery; Gynaecology (surgical); Diseases of the Eye; Diseases of the Ear; Anatomy, Histology and Diseases of the Nervous System; Electro-Therapeutics; Insanity; Diseases of the Rectum; Venereal Diseases; Medical Jurisprudence; Physical Economics; Dispensary Practice; Clinics and Clinical Reports.

FIVE YEARS' COURSE.

In announcing the establishment of an optional five-years' course of study, Boston University School of Medicine again demonstrates its claim to stand in the vanguard of medical education. This course meets the demand of the time for increasingly thorough preparation for a medical career, and is altogether in accord with the high traditions of progress and leadership of which the School is justly proud.

The five-years' course is offered under the following conditions:

I. That the first four years be essentially as at present arranged.

II. That the fifth year be spent in special laboratory or clinical work under the direction of the Executive Committee and include at least five hundred hours elected from various courses specified.

III. That a thesis embodying the results of original work be presented to the Registrar thirty days prior to the date of graduation, the acceptability of this thesis to be decided by the professor to whom it may be referred by the Executive Committee.

IV. That at the discretion of the Executive Committee eight months' service as interne in a hospital of at least fifty beds be accepted in lieu of three hundred hours' work; or twelve months' service in lieu of four hundred hours.

V. That the degree of M. B. or Ch.B. be awarded to those students following the five-years' course who complete the first four years with a sufficient degree of credit, and that the degree M. D. "cum laude" be conferred upon those who satisfactorily fulfil the final requirements.

VI. Those who already possess the degree of M. D. and who present evidence of competency in the full curriculum of this School may be admitted to the work of the fifth year and upon its satisfactory completion will receive the degree M. D. "cum laude."

COMBINATION COURSE.

The Faculty of Boston University School of Medicine feel that very great significance attaches to the announcement of a new combined course.

In this course, by the co-operation of the College of Liberal Arts and the School of Medicine, a student may obtain the academic degree of Bachelor of Science and the professional degree, Doctor of Medicine, by six years' work in Boston University. The incalculable advantages of such a combination course must commend themselves, at a glance, alike to would-be medical students who realize the value of an academic degree to the physician, and to candidates for an academic degree who contemplate a medical career and hesitate before the length of time demanded by its preparatory work. The first two years of this course are spent in the College of Liberal Arts, pursuing a curriculum especially designed to meet the requirements of the course; the remaining four years are spent in the Medical School. At the end of the second year in the Medical School, during which time the fundamental medical sciences have formed the chief studies, students may come up for the degree of S. B. Two years more of study, completing the medical curriculum, will fulfill the four-years' requirement for the degree of M. D.

Applicants for admission to this combination course will be required to take the examination in Latin I at the College of Liberal Arts. The details of the combination course as pursued in the College of Liberal Arts are given in the Year Book of Boston University, a copy of which can be obtained by applying to Dean W. M. Warren, 688 Boylston Street, Boston, Mass.

POST-GRADUATE COURSES.

Graduates in Medicine, who are approved by the Executive Committee, will be admitted to the School, and allowed to attend such courses as may be arranged for by the Registrar. Those who wish to review any of their past studies, or to investigate new subjects, will have excellent opportunities in the laboratories of the School, as well as in the daily clinics of the Hospital and Dispensary. In order to obtain the diploma of the School, they must attend, and pass satisfactory examinations in, the entire work of the senior year, and present evidence of competency in the full curriculum of the School.

Alumni of this School will be cordially welcomed to all lecture courses, and special concessions will be made to those wishing to pursue laboratory or clinical investigations.

Summer post-graduate courses for several years have been offered in the specialties, but in June, 1910, following "clinical week," in response to numerous demands there was instituted a six-weeks' Summer Term which included clinical, didactic and laboratory exercises in seventeen different departments. Similar courses will be offered for the summer of 1915 to those graduates whose inclination is to utilize clinical opportunities and seek the latest advances in the diagnosis and treatment of disease. For information concerning these courses apply to Prof. David W. Wells.

SPECIAL COURSES.

Persons approved by the Executive Committee may be admitted to special courses, which, however, shall not count as any part of the regular four-years' course.

TUITION FEES.

Matriculation (paid but once)	$ 5.00
Tickets including three lecture terms, each year	125.00
Tickets for graduates of other medical colleges, one year..	125.00
Graduation as Bachelor of Medicine or Surgery (M. B. or C. B.)	10.00
Graduation as Doctor of Medicine	30.00
For the fifth year of the five years' course	50.00

SCHOLARSHIPS, ETC.

Lucius Clapp Scholarship Fund offers material assistance annually to four needy students of advanced standing whose industry and ability justify the Faculty in awarding scholarship aid.

Wade Scholarship.—A limited number of scholarships, resulting from the income of the Wade Fund, bequeathed for the benefit of poor and worthy young women, are at the disposal of the officers of the School, and will be available to such as require assistance.

Bailey-Crane Scholarship Fund offers material assistance annually to a few women.

Clara A. Thacher Scholarship is now available.

Alumni Scholarship Fund.—The income from this fund is now available for the assistance of needy students of advanced grade and satisfactory attainments. Two scholarships of fifty dollars each will be granted during the ensuing year to students recommended by the Executive Committee of the School to the Executive Committee of the Association.

The Robert Dawson Evans Scholarship Fund will be available for the benefit of needy students whose record in the School gives evidence of special proficiency.

Garfield Scholarship.—A fund has been contributed, the income of which will be used to aid such young men as the Faculty may deem most worthy.

Fenno Tudor Loan Fund.—This fund, left by the late Mrs. Fenno Tudor, to aid women in the Medical School, will be loaned in sums not exceeding fifty dollars, to meritorious women students, upon suitably endorsed notes, bearing interest at six per cent.

George Russell Loan Fund.—This fund, left by the late Dr. George Russell, will be loaned, in sums not exceeding fifty dollars, to meritorious men students upon suitably endorsed notes, bearing interest at six per cent.

The Massachusetts Society for the University Education of Women has been able, as a part of its work, generously to assist medical students in Boston University.

Special Scholarships for College Graduates.

Recognizing the desirability of securing as additions to the medical profession those whose general education and training have been broad, thorough and comprehensive, and recognizing too the fact that many college graduates in obtaining their education have found it necessary to be wholly or in part selfsupporting and to defray their expenses by their own diligent and persistent efforts, the Faculty of Boston University School of Medicine has established fifty limited and special scholarships with a miximum value of fifty dollars ($50) annually. These scholarships will be awarded to college graduates in need of aid during the first or any subsequent year of their attendance at the Medical School. Awards for the first year will be based in part upon credentials showing the scholarship and general standing of the applicant in his own college. Subsequent awards will be based upon the record made by the student in the School.

THE FACULTY.

Lemuel H. Murlin, LL.D., President.
Walter Wesselhoeft, M. D., Emeritus Professor of Clinical Medicine.
J. Williamson Clapp, M. D., Emeritus Professor of Pharmaceutics.
John H. Payne, M. D., Emeritus Professor of Ophthalmology.
Nathaniel W. Emerson, M. D., Emeritus Professor of Gynaecology.
John P. Sutherland, M. D., Dean, Professor of Theory and Practice.
Herbert C. Clapp, M. D., Professor of Diseases of the Chest.
Howard P. Bellows, M. D., Professor of Otology.
Edward E. Allen, M. D., Registrar and Secretary, Professor of Anatomy.
Frederick B. Percy, M. D., Professor of Clinical Medicine.
Edward P. Colby, M. D., Professor of Nervous Diseases.
John L. Coffin, M. D., Professor of Diseases of the Skin.
Horace Packard, M. D., Professor of Surgery.
N. Emmons Paine, M. D., Professor of Mental Diseases.
Frank C. Richardson, M. D., Professor of Neurology and Electro-Therapeutics.
George B. Rice, M. D., Professor of Diseases of the Nose and Throat.
George R. Southwick, M. D., Professor of Gynaecology.
Frederick P. Batchelder, M. D., Professor of Physiology.
George H. Earl, M. D., Professor of Obstetrics.
Winfield Smith, M. D., Professor of Operative Surgery.
Arthur W. Weysse, Ph.D., M. D., Professor of Experimental Physiology.
William H. Watters, M. D., Professor of Pathology and Curator of the Museum.
J. Herbert Moore, M. D., Professor of Diseases of Children.
J. Emmons Briggs, M. D., Professor of Clinical Surgery.

Allan Winter Rowe, M. S., Ph.D., Professor of Chemistry.
Frank W. Patch, M. D., Professor of Materia Medica.
David W. Wells, M. D., Professor of Ophthalmology.
William F. Wesselhoeft, M. D., Professor of Clinical Surgery.
Dewitt G. Wilcox, M. D., Professor of Clinical Gynaecology.
Alonzo G. Howard, M. D., Associate Professor of Orthopaedic Surgery.
Charles H. Thomas, M. D., Associate Professor of Clinical Medicine.
Edwin P. Ruggles, M. D., Associate Professor of Obstetrics.
Nelson M. Wood, M. D., Associate Professor of Clinical Medicine.
Edward S. Calderwood, M. D., Associate Professor of Anatomy.
Percy G. Browne, M. D., Associate Professor of Diseases of the Chest.
Neidhard H. Houghton, M. D., Associate Professor of Diseases of Nose and Throat.
Howard W. Nowell, M. D., Associate Professor of Pathology.
Charles T. Howard, M. D., Associate Professor of Clinical Surgery.
William A. Ham, M. D., Demonstrator of Anatomy.
Frederick W. Halsey, M. D., Lecturer on Diseases of the Rectum.
Everett W. Burdett, LL.B., Lecturer on Medical Jurisprudence.
A. Howard Powers, M. D., Lecturer on Clinical Surgery.
Frank E. Allard, M. D., Lecturer on Physical Economics.
Wesley T. Lee, M. D., Lecturer on Theory and Practice.
J. Arnold Rockwell, Jr., M. D., Lecturer on Diseases of Stomach and Intestines.
A. W. Weysse, Ph.D., M. D., Lecturer on Venereal Diseases.
Clarence Crane, M. D., Lecturer on Surgery.
Fred S. Piper, M. D., Lecturer on Theory and Practice.
John P. Rand, M. D., Lecturer on The History of Medicine.
Thomas E. Chandler, M. D., Lecturer on Surgical Pathology.
Albert S. Briggs, M. D., Lecturer on Theory and Practice.
Frederick W. Colburn, M. D., Lecturer on Otology.
Solomon C. Fuller, M. D., Lecturer on Neuro-Pathology.
Lowell T. Clapp, Ph.C., Lecturer on Pharmaceutics.
Mary A. Leavitt, M. D., Lecturer on Surgical Anaesthesia.
Harry J. Lee, M. D., Lecturer on Surgical Anatomy.
Ernest M. Jordan, M. D., Lecturer on Nervous Diseases.
Leroy M. S. Miner, M. D., Lecturer on Odontology.
Conrad Smith, M. D., Lecturer on Diseases of Nose and Throat.
Arthur H. Ring, M. D., Lecturer on Elementary Neuro-Pathology.
Albert W. Horr, M. D., Lecturer on Ophthalmology.
W. K. S. Thomas, M. D., Lecturer on Minor Surgery.
George N. Lapham, M. D., Lecturer on Pulmonary Tuberculosis.

Harry O. Spalding, M. D., Clinical Instructor in Mental Diseases.
Alice S. Woodman, M. D., Instructor in Histology and Embryology.
J. Walter Schirmer, M. D., Instructor in Sanitary Science.
Alice H. Bassett, M. D., Instructor in Materia Medica.
Fredrika Moore, M. D., Instructor in Materia Medica.
Frederick L. Emerson, M. D., Instructor in Obstetrics.
Wilson F. Phillips, M. D., Instructor in Theory and Practice.
Elizabeth Ross, M. D., Instructor in Pathology.
Helmuth Ulrich, M. D., Instructor in Pathology.
Howard Moore, M. D., Instructor in Orthopaedics.
Willard A. Paul, M. D., Assistant in Diseases of Women.
Marion R. Horton, M. D., Assistant in Obstetrics.
Edwin W. Smith, M. D., Assistant in Obstetrics.

COLLEGE OF PHYSICIANS AND SURGEONS.

Organized 1880. 571 Shawmut Avenue, Boston.

By unanimous vote of the House and Senate of the Commonwealth of Massachusetts, this College was granted authority to confer the degree of Doctor of Medicine.

It was one of the first colleges to demonstrate the practicability of co-education in medical science, by extending full benefits and privileges equally to men and women. By thirty-five years of steady growth, it is shown that liberality and justice in medical education are widely appreciated.

Students receive thoroughly practical lectures and laboratory work at this College, and particular attention is given to clinical teaching both at the Dispensary and at the bedside in the homes of the poor.

This is a great factor in fitting students to successfully follow out the practice of their profession.

GENERAL OUTLINE OF THE CURRICULUM.

First Year.

Anatomy (Otseology), Physiology, General Chemistry, Materia Medica, Histology, Embryology, Chemical, Histological, Anatomical, Embryological and Physiological Laboratories.

Second Year.

Anatomy, Histology, Physiology, Physical Diagnosis, Medical Chemistry, Materia Medica and Therapeutics, Pathology, Bacteriology, Hygiene, Physiological Chemistry; Bacteriological, Physiological, Chemical, Pathological and Anatomical Laboratories.

Third Year.

Medicine, Surgery. Obstetrics, Pathology and Pathological Laboratory, Clinical Medicine, Surgical Anatomy, Dermatology, Operative Surgery, Clinical Diagnosis; Practical Clinical Work in Medicine, Obstetrics and Surgery; Genito-Urinary Diseases.

Fourth Year.

Medicine, Surgery, Obstetrics, Gynecology, Laryngology; Medical Jurisprudence; Clinical and Practical Work in Medicine, Surgery, Obstetrics, Gynecology, Nervous and Mental Diseases, Diseases of Eye and Ear, Pediatrics, Electro-Therapeutics, Genito-Urinary Diseases, Special Medical Pathology and Therapy.

Fifth Year.

Consists of hospital, clinical and such other work as the Board of Censors may require.

EXAMINATIONS.

All examinations are held in College buildings, are conducted in writing, and are arranged as follows:

At end of first year: Anatomy, Physiology, General Chemistry and on such other studies or branches as may be required for the first year course.

At end of second year: Materia Medica and Therapeutics, Pathology, and other studies or branches that may be required for the second year course.

At end of third year: Obstetrics, Practice, Surgery and other studies or branches that may be required for the third year course.

At end of fourth year: Surgery, Gynecology, Practice of Medicine, and such subjects as have been required to be pursued in the fourth year course.

ADMISSION REQUIREMENTS.

Creditable certificates of good moral character, signed by two physicians of good standing in the State, Territory, or District in which the applicant last resided.

The Association of American Medical Colleges has prescribed the following minimum requirement for admission to the medical course:

(a) A bachelor's degree from an approved college or university.

(b) A diploma from an accredited high school, normal school, or academy requiring for admission evidence of the completion of an eight-year course in primary and intermediate grades, and for graduation not less than four years of study, embracing not less than two years (4 points) of foreign language, of which one must be Latin, two years (4 points) of mathematics, two years (4 points) of English, one year (2 points) of history, two years (4 points) of laboratory science, and six years (12 points) of further credit in language, literature, history or science.

(c) An examination in the following branches:

A. Required 18 points; Mathematics 4 points; English 4 points; History 2 points; Language, two must be Latin, 4 points; Science taken from physics, chemistry, botany, zoology, 4 points.

B. Optional (to 12 points); English 2 points; History 6 points; Language, 6 points; Manual Training, 2 points; Mechanical Drawing, 1 point; Natural Science (botany, biology, zoology) 2 points; Physical Science (chemistry, physics) 2 points; Trigonometry, 1 point; Astronomy (1), Civics (1), Geology (1), Physical Geography (1), Physiology, and Hygiene (1), Political Economy (1).

(One point in any subject in a high school or academic course demands not less than five periods per week of forty-five minutes each for eighteen weeks.)

(d) Certificates from reputable instructors recognized by the State board of medical examiners duly authorized by law or by the superintendent of public instruction in States having no examining board may be accepted in lieu of any part of this examination.

Sec. 2. This examination must be conducted by or under the authority of the Board of Examiners or the superintendent of public instruction of the city or State in which the college is located. In no case shall it be conducted by any person connected with the faculty, medical or otherwise, of the institution to which the student is seeking admission.

Sec. 3. A student may be allowed to enter on his medical work conditioned in not more than six points, and these conditions must be removed by satisfactory examinations before he is allowed to enter on the second year of his medical course.

GRADUATION REQUIREMENTS.

Candidates must be at least 21 years of age. They must have attended four annual courses of lectures of not less than six months' duration each at this College; or, have attended three such courses at some other recognized medical college or colleges, and one at this; or, have attended two such courses at some other recognized medical college or colleges, and two at this; or, have attended one such course at some other recognized medical college, and three at this; or, having been admitted to advanced standing in this College, shall be required to have attended at this College such courses of lectures as shall be necessary to complete the curriculum of four annual courses of lectures in medical colleges, and to have pursued, including the attendance on lectures, the study of medicine for four calendar years. Candidates must have dissected all parts of the cadaver.

Each student is required before graduating to furnish satisfactory written reports of forty medical, ten surgical and six obstetrical cases personally attended and a like certificate of having seen five cases in each of the clinical departments.

The presentation of a satisfactory thesis is a requirement for graduation. If of conspicuous merit it will receive honorable mention; if also of a suitable character, it may be read at the College commencement exercises. Theses must be completed and delivered to the Dean on or before the 15th of May. The thesis which a candidate presents must be written by himself or herself, and must be on some subject connected with medicine.

Evidence of good moral character must be presented (this must include unexceptionable conduct during attendance at the College).

The enforcement of the requirements heretofore announced concerning the fifth year of study in this College is no longer a necessity, thanks to the liberal policy of the City of Boston as manifested by recent acts of the Mayor, Board of Aldermen and Board of Trustees of the Boston City Hospitals, whereby the clinical advantages in the city institutions are henceforth to be opened alike to medical students of all medical colleges; therefore, this College will hereafter grant its regular diploma to duly qualified students who have pursued their medical studies for the four full years.

Each student who has completed the fifth year of study to the satisfaction of the Board of Censors will receive an additional certificate under seal of said Board testifying to that fact.

EXPENSES.

Matriculation (yearly)	$ 5.00
Full Course of Lectures, for 1st year	75.00
Full Course of Lectures for 2d year	100.00

Full Course of Lectures for 3d year	100.00
Full Course of Lectures for 4th year	100.00
Four Courses of Lectures (in advance)	300.00
Graduation Fee (payable but once)	30.00
Each Laboratory	5.00
Dissecting Material	at cost
Laboratory Material and Apparatus	at cost
Operative Surgery Laboratory	2.50

PRIZES.

Degrees with Honor. Desiring to show its appreciation of distinguished merit, as well as to stimulate laudable emulation, the College may confer the degree of Doctor of Medicine "magna cum laude" upon those students whose examinations show superior attainments.

To the member of the graduating class who secures the highest rank in the examinations of the course will be presented a pocket case of surgical instruments.

No prize will be awarded to any student who at the time is deficient in any study of a course which he has pursued, nor to any whose conduct and deportment has been objectionable at any time during the course.

North End Dispensary and Hospital appointments of undergraduates, as clinical assistants, are made at intervals throughout the year. Undergraduates serving as clinical assistants may receive certificates of service when they graduate from the College.

BENEFICIARY.

By a provision of the Shurtleff Fund, established by will of Rev. David Shurtleff, a number of acceptable persons who can give satisfactory evidence of their inability to pay the regular college fees, may be enrolled as students. Income from the above source is influenced by the earnings of stock investments, therefore the number of students who can be received will vary accordingly. Applicants should consult the Registrar.

There will be opportunity offered for a limited number of nurses and special assistants to earn a part of their expenses while in college.

Applicants must have written recommendations of character, satisfactory to the faculty, and must be able to pass all entrance examinations.

It is hoped that as many friends of the College as are able will personally provide special funds to aid deserving students. There is no object more worthy of bequest than medical education.

FACULTY.

Hon. Joseph Bennett, President.
Thomas Davison Crothers, A. M., M. D., Dean.
Arthur Sherman Kneil, A. B., Registrar.

PROFESSORS.

Anatomy—Edward Charles Thompson, M. D.
Chemistry, Medical, and Toxicology—Everett Dennison Hooper, M. D.
Clinical Medicine—Arthur Bennett Morong, A. B., M. D.; Katherine Agnes Fenelon, M. D.
Clinical Morphology and Applied Medicine—Ephraim Cutter, A. M., M. D., LL D. (Emeritus).
Hygiene and Public Health—Marshall James Mosher, M. D.
Histology—Frank Carr Carlton, B. S., M. D.
Laryngology, Ophthalmology and Otology—Carolus Melville Cobb, M. D.
Materia Medica and Therapeutics—Maurice Gerstein, M. D.; Roy John Boynton, M. D.
Medical Jurisprudence—Henry Fenno Parker, LL.B.
Medicine, Theory and Practice—Edward Everett Hawes, M. D.; Charles Francis Berry, M. D.
Obstetrics—Eugene Wason, A. M., M. D.
Otology, Rhinology and Laryngology—William Jordan Maybury, M. D.
Pathology and Bacteriology—Edward Lincoln Dwight Turner, Ph.D., M. D.; Frank Carr Carlton, B. S., M. D.
Pediatrics—Edward James Fitzgibbon, M. D.
Physical Diagnosis—Rudolph Ernest Trenholm Rhames, M. D.
Physiology—Arthur Bennett Morong, A. B., M. D.
Psychology and Spirit and Drug Neuroses—Thomas Davison Crothers, A. M., M. D.
Surgery—Frank Leslie Burt, Ph.B. M. D.; James Blenkhorn, M. D.; Edward Charles Thompson, M. D.

LECTURERS ON SPECIAL SUBJECTS.

Anatomy—Elliott Daniel Robbins, M. D.; Oliver Van Dyne, M. D.; Hozanna Grace Maligian, M. D.
Bacteriology—Charles Fisher Mills, M. D.; Francis A. Richardson, B. S., M. D.
Chemistry, General—Eugene Schreiber, Ph.G., M. D.; Anna Mack, M. D.
Clinical Medicine—Dr. Lars Porsenna Solsness.
Dental Chemistry and Metallurgy—George Wakefield Soule, D. D. S.

Dental Pathology and Therapeutics—Alonzo Benson Aldrich, D. D. S.; Edward James Hayes, M. D., D. D. S.

Dermatology—William Corbett McLean, M. D.; George W. Katsainos, M. D.

Electro-Therapeutics—Benn E. Nicola, B. S., M. D.

Genito-Urinary Diseases—James Francis Quest, M. D.

Gynecology—Fred Eugene Ladd, M. D.

Histology—Edward James Hayes, M. D., D. D. S.

Life Insurance Examinations—Edward Everett Hawes, M. D.

Materia Medica and Therapeutics—Frederick Harrison Nutting, M. D.

Military Surgery—Walter Anson Smith, M. D.

Nervous Diseases—John Leo Flynn, M. D.; Florence Bailey, M. D.

Obstetrics—Aaron William Reibstein, M. D.

Operative Dentistry—William Pray Swasey, D. D. S.; Abner Toothacker Wing, D. M. D.; Dr. Gilbert A. Cummings.

Ophthalmology—Howard Nelson Nason, M. D.

Oral Surgery, Extracting, Anaesthetics and Orthodontia—Joseph Andrew Smith, M. D., D. D. S.; Myron Barlow, M. D., D. D. S.

Pathology—Parnag Adam Adamian, A. B., M. D.

Physiology—George Ernest Poor, M. D.

Practical Dentistry, Demonstrators—George Wakefield Soule, D. D. S.; Joseph Andrew Smith, M. D., D. D. S.; Alonzo Benson Aldrich, D. D. S.; William Pray Swasey, D. D. S.

Practical Pharmacy—Francis Joseph Connolly, Ph.G.

Prosthetic Dentistry and Special Technics—George Wakefield Soule, D. D. S.; Melville Bryant Buckley, D. D. S.

Surgery—Ernest Bradford Schallenbach, M. D.

Technics, Crown and Bridge Work—Fred Eugene Ladd, M. D.

BOARD OF CENSORS.

The Dean, President and Registrar of the college will appoint annually, in June or thereafter, a President, Secretary and not less than five other persons, who together shall constitute the Board of Censors, who shall serve for one year or until their successors are appointed; but no person shall be eligible to membership on this Board except a practising physician in good standing and who is not otherwise connected with the College.

HARVARD MEDICAL SCHOOL.

Longwood Ave., Boston.

Three professorships of Medicine were established at the University in the years 1782 and 1783. The first degrees in Medicine were conferred in 1788. Before 1811, the degree conferred upon graduates of the School was that of Bachelor of Medicine; beginning with 1811, the degree has been Doctor of Medicine. In 1810, the lectures given in Medicine were transferred from Cambridge to Boston, where the first Medical College was built in 1815.

The course of study required in this School for the degree of M. D. is of four years' duration. This requirement was established at the beginning of the year 1892-93.

The academic year begins on the Thursday following the last Wednesday in September, and ends on the last Wednesday in June. In order that the time of study shall count as a full year, students of all classes must present themselves on the first day of the school year and register their names with the Secretary.

There is a Christmas recess from December 23 to January 2 inclusive, and a recess of one week's duration in April.

ADMISSION OF STUDENTS.

As candidates for the Degree of Doctor of Medicine the School receives the following:

I. Graduates in arts or science or approved colleges or scientific schools who can furnish evidence

(a) That they have such knowledge of physics, of biology, of general chemistry, and of organic chemistry, as may be obtained from one year's course in each of these subjects as given in approved colleges and scientific schools.

(b) That they have a reading knowledge of French or German.

II. Students who have completed two years of work in a college or scientific school of high rank, provided they present certificates (1) that they have stood in the upper third of their class, (2) that one year's course has been taken in physics, in biology, and in general chemistry and in organic chemistry, and (3) that they have a reading knowledge of German or French.

These requirements are to be satisfied in full before matriculation.

Partial deficiencies in single subjects may be made up prior to admission by courses in the Harvard Summer School.

Students are requested to apply for admission before July 1st on registration blanks to be furnished by the Secretary.

The Administrative Board reserves the right in its discretion to refuse applicants if the number admitted is as large as can be effectively taught.

ADMISSION TO ADVANCED STANDING.

Students who began their professional studies in other approved medical schools may be admitted to advanced standing and become candidates for the degree of M. D. under the following conditions:—

They must have fulfilled the requirements for admission enumerated under I or II.

They must furnish a satisfactory certificate of time spent in medical study, successfully completed, at least equal to that spent by the class to which they seek admission.

They must furnish satisfactory certificates that they have done satisfactory laboratory and practical work in the subjects already pursued by the class to which they seek admission.

They must pass all examinations required to have been passed by the class which they seek to enter.

Before they can be admitted to the third or fourth class they must pass the first general examination.

Graduates of other medical schools of recognized standing may be admitted to advanced standing in accordance with the above regulations.

The minimum time of residence at this School for candidates for the degree of M. D. shall be one year; all candidates for the degree of M. D. must perform in full the work of the fourth year of the regular curriculum.

DEGREES.

Degree of Doctor of Medicine.

Every candidate for the degree of Doctor of Medicine at this University must be at least twenty-one years of age, and of good moral character. He must fulfil all the requirements for admission to this Medical School; must give evidence of having studied in a recognized Medical School at least four full years, of which one year must be spent at this School; must pass all the required examinations, and fulfil satisfactorily the special requirements enumerated above.

Candidates for the degree must make application for it in writing, on blanks furnished at the Dean's office, on or before May 1 of the year in which they propose to graduate.

Degree of Doctor of Public Health.

The degree of Doctor of Public Health is open to holders of the degree of Doctor of Medicine from the Harvard Medical School or other recognized Medical Schools, and to other properly qualified persons. Candidates for the degree of D.P.H. must spend not less than one year in work upon a special subject, approved by the Committee on the Degree of D.P.H., and present a thesis containing some original research acceptable to the Faculty of Medicine. Candidates for this degree may be given credit for any course offered in any department of the University, provided it has the approval of the Faculty of Medicine, and candidates from other institutions may be admitted to advanced standing. A minimum of one year in residence shall be required of all candidates for the degree of D.P.H. Information in regard to this degree may be had from Professor M. J. Rosenau, Chairman of the Committee on the Degree of D.P.H.

FEES AND EXPENSES.

The fees are:—For matriculation, five dollars; for instruction (including laboratory charges except breakage, damage and loss of apparatus), two hundred and twenty five dollars for each year (if in two payments, at the first, one hundred and thirty-five dollars; at the second, ninety dollars); for a half-year alone, one hundred and thirty-five dollars. The matriculation fee and the instruction fee (if in two payments, the first instalment thereof) are to be paid to the Bursar punctually at the beginning of the academic year, without the presentation of a bill; and the second instalment is to be paid on or before January 31. All charges for breakage, damage and loss of apparatus are payable to the School in accordance with the requirements established by the several departments in which they occur. A student may rent a microscope from the School upon application to the Committee on Microscopes. A deposit of one dollar with the Dean will entitle the student to the use of a locker in the School buildings.

Degree of D.P.H.

A fee of $150 is charged for tuition, and $5 for matriculation. Of this amount, $95 must be paid to the Bursar at the beginning of the academic year without the presentation of a bill; the remaining $60 must be paid on or before January 31. No degree can be conferred until all dues to the University have been discharged.

Degree of A.M. and Ph.D.

For these degrees, a fee of $150 is charged for tuition, and a graduation fee of $20. Of this amount, $90 must be paid to the Bursar at the beginning of the academic year without the presentation of a bill; the remaining $60 must be paid on or before January 31st. The graduation fee of $20 must be paid before Commencement. No degree can be conferred until all dues to the University have been discharged.

FELLOWSHIPS AND SCHOLARSHIPS.

Fellowships.

Bullard Fellowships. In 1891, William Story Bullard, of Boston, gave the sum of fifteen thousand dollars for the establishment of three fellowships of five thousand dollars each "in memory of three physicians who were distinguished for their honorable personal character and for their professional services in this community." Accordingly the three following fellowships were established:—

The George Cheyne Shattuck Memorial Fellowship; The John Ware Memorial Fellowship; The Charles Eliot Ware Memorial Fellowship. The income of the first two is two hundred and twenty-five dollars each, and of the last, two hundred and fifty dollars.

The income from any one or all of these fellowships may be paid to any student or member of the medical profession who shall be selected by the Administrative Board of the Medical School to make such original investigations in Medical Science as in their opinion will be most useful to the profession and to the community. The results of such investigations shall not, however, be published as a research performed under the grant of a Bullard Fellowship, unless the work shall have received the approval of the Committee. If published with the approval of the Committee, mention shall be made of the fact that the work was done under a Bullard Fellowship.

Holders of Bullard Fellowships are required to do an amount of work equivalent to not less than ten hours a week throughout the academic year and to present to the Committee at the end of the academic year a report on the amount and result of the work performed.

Applications for the Bullard Fellowships must be handed to the Dean on or before October 1.

The James Jackson Cabot Fellowship; with an income of three hundred and fifty dollars. In 1906, Arthur T. Cabot, Samuel Cabot, and Guy C. Cabot gave six thousand dollars to establish the James Jackson Cabot Fund in the Medical School. In 1912 Guy C. Cabot added four thousand dollars to this fund. The income remaining after adding a certain percentage to the principal each year is preferably, but not necessarily, to be used for a fellowship "to aid and encourage practical work in scientific medicine."

Charles Follen Folsom Teaching Fellowship. In 1908 eleven thousand eight hundred and forty-three dollars and sixty-four cents was given by more than sixty persons in memory of Charles Follen Folsom, A.B. 1862, M.D. 1870, Lecturer on Hygiene, 1877-79, on Hygiene and Mental Diseases, 1879-80, on Mental Diseases, 1880-82; Assistant Professor of Mental Diseases, 1882-85, and Overseer, 1891-1903. It was the desire of the givers that there be established in the Medical School a Charles Follen Folsom Teaching Fellowship in Hygiene or in Mental and Nervous Diseases, and that the incumbent receive the annual income of the fund, or such part of it as may be consistent with the standing rules of the Corporation in such cases. This fellowship, with an income of five hundred and twenty-five dollars, has been assigned to the Department of Hygiene until the further order of the President and Fellows.

Henry P. Wolcott Fellowship in Clinical Medicine; with a stipend of one thousand dollars. Founded in 1910 by Frederick Cheever Shattuck, A. M., M. D., LL.D. "The income to provide for the support of a Fellow in Clinical Medicine, who shall receive his appointment from the Corporation on nomination by the Jackson Professor of Clinical Medicine, who, while the holder of the Fellowship, shall not engage in private practice, but devote his time to teaching and clinical research work."

William O. Moseley, Jr., Travelling Fellowships; two, with a stipend of one thousand seven hundred and fifty dollars each, for the purpose of studying medicine in Europe. In January, 1912, Mrs. William O. Moseley left a bequest of seventy-four thousand dollars to establish two travelling Fellowships, to be granted annually to two men who have attended the Harvard Medical School for three or four years, and who have given evidence of their diligence and ability, the election of such men to be made by the President and proper officers connected with the Medical School. Applications for these Fellowships must be handed to the Dean on or before May 1st.

Arthur Tracy Cabot Fellowship. In 1913, Dr. and Mrs. Frederick C. Shattuck gave twenty-five thousand dollars for the establishment of a Fellowship in Surgery in memory of Arthur Tracy Cabot, M. D., of the Class of 1872, Fellow of the Corporation. The holder of the Fellowship is not ordinarily to engage in active private practice while holding it but to devote himself to the advancement of Surgery whether in the United States or elsewhere. The nomination of this Fellowship is by preference to be in the hands of the Moseley Professor of Surgery.

Austin Fellowships. Six teaching fellowships, of five hundred dollars each, have been established from the income of the Austin Fund and assigned to the Medical School.

Proctor Fund. A bequest of fifty thousand dollars by Ellen Osborne Proctor for the purpose of promoting the study of chronic diseases. The income of this fund is to be devoted to the care in hospital of persons afflicted with chronic disease, and to investigations into the nature and treatment of the same. The special disposition of the income of this fund is under the control of the heads of the departments of Theory and Practice of Physic, Clinical Medicine, and Pathology.

Scholarships.

The Cheever Scholarship is awarded to a student of the first-year class. The Hayden Scholarship may be so awarded. All the other Scholarships are awarded to members of the three upper classes.

Edward M. Barringer Scholarships. From the estate of Edward M. Barringer, of Schenectady, N. Y., thirty thousand two hundred and thirteen dollars and forty-nine cents has been received as his residuary bequest establishing the "Edward M. Barringer fund." "And I direct that the said 'President and Fellows' forever maintain from the income of said rest and residue (if the same shall be sufficient) two scholarships for students in said Medical School, the annual amount or value of such scholarships to be fixed from time to time by the said President and Fellows in their best discretion, but at not less than $300 and $200 respectively; and with such conditions as to them shall seem best, to be called respectively 'Edward M. Barringer Scholarship No. 1,' and 'Edward M. Barringer Scholarship No. 2.'" These scholarships, with the incomes named above are awarded to deserving students, preferably those of the fourth class.

Lucius F. Billings Scholarship, with an income of two hundred and twenty-five dollars, was founded in 1900 from a bequest under the will of Lucius F. Billings. The income may be divided between two or more students.

David Williams Cheever Scholarship, with an income of two hundred and fifty dollars, was founded in 1889 by David Williams Cheever, M.D., LL.D., of Boston, of the Class of 1852. It is to be awarded to a poor and meritorious student of the first year, after three months' probation in the Medical School.

Orlando W. Doe Scholarship. The bequest of Orlando Witherspoon Doe (A.B. 1865, M.D. 1869) was five thousand dollars. One-half of the income derived therefrom, amounting to one hundred dollars, "is to be given annually as a scholarship to a deserving student in the Medical department."

Joseph Eveleth Scholarships. Three Scholarships with an annual income of two hundred dollars each. Founded from the residuary bequest of thirty-seven thousand eight hundred and ninety-seven dollars and fourteen cents, made by Joseph Eveleth, of Boston, "for aiding deserving and indigent young men in obtaining an education in said College or any of the schools connected therewith." Three Scholarships on this foundation have been assigned to the Harvard Medical School.

George Haven Scholarships, with an income of eleven hundred dollars, were founded in 1913 from a bequest under the will of George Haven, the income to be used annually for scholarships to deserving students of the first year in the Medical School, the amount of such scholarships to be at the discretion of the Scholarship Committee.

The Lewis and Harriet Hayden Scholarship for colored students was founded in 1894 from a bequest of Mrs. Harriet Hayden. The income, two hundred and fifty dollars, may be divided between two or more students.

Hilton Scholarships. Two scholarships with an income of two hundred and twenty-five dollars each were founded in 1897 from a bequest of William Hilton.

William Otis Johnson Scholarship, with an income of one hundred and seventy-five dollars, was founded in 1912 from a bequest under the will of Mrs. William O. Johnson, in memory of her husband, William Otis Johnson, M. D., of the Class of 1845.

Claudius M. Jones Scholarship, with an income of two hundred and fifty dollars, is from a bequest of six thousand dollars by Claudius Marcellus Jones, of the Class of 1866, M.D. 1875.

Alfred Hosmer Linder Scholarship, with an income of two hundred and fifty dollars, was founded in 1895 by Mrs. George Linder. It is to be awarded to a needy student who shall have proven himself to be of sound principles and marked ability.

The Joseph Pearson Oliver Scholarship, with an income of four hundred dollars, was founded in 1904 by patients of the late Joseph Pearson Oliver, M. D., 1871, to be awarded "to such needy and deserving student of the Medical School as the Administrative Board shall annually recommend."

Charles B. Porter Scholarship, with an income of two hundred and fifty dollars, was founded in 1897 from a bequest of five thousand dollars by William L. Chase.

Charles Pratt Strong Scholarship, with an income of two hundred and twenty-five dollars, was founded in 1894 by friends and patients of the late Charles Pratt Strong, of the Class of 1876, M.D. 1881.

Isaac Sweetser Scholarship, with an income of two hundred and fifty dollars at present, was founded in 1892 by Mrs. Anne M. Sweetser. The income is to be "devoted to the aid of poor students of ability who would not otherwise be able to continue the studies necessary for their profession."

The John Thomson Taylor Scholarship, with an income of two hundred and fifty dollars, was founded in 1899 by Mrs. Frederic D. Philips in memory of her brother, John Thomson Taylor, who died in 1889. He was a student of the Medical School from 1887 to 1889.

Edward Wigglesworth Scholarship, with an income of two hundred and fifty dollars, was founded in 1897 by the family of the late Edward Wigglesworth, of the Class of 1861, M.D. 1865, the yearly income of the fund to be paid to a needy and deserving student of the Medical School whom the Administrative Board shall recommend.

Francis Skinner Fund. A fund of five thousand dollars was established in 1905, the income of which shall be placed at the disposal of the Dean of the Medical School to be used by him in small sums to meet the urgent needs of meritorious students in the payment of term-bills or other expenses. Two hundred dollars is available annually.

This fund remained as an anonymous gift until 1908, when by vote of the President and Fellows of Harvard College it was named the Francis Skinner Fund in honor of the late Francis Skinner, Esq., the donor.

Cotting Gift. The income of a fund received from the late Dr. Benjamin E. Cotting will be given to such medical student or students as the Administrative Board may select, having regard to the pecuniary needs, intellectual capacity, faithfulness and earnest endeavor, rather than to highest scholarship merely. The amount to be awarded annually will be one hundred and twenty-five dollars.

John Foster Fund. The income of the John Foster Fund, amounting to about one hundred and fifty dollars, is available in alternate years in the Law School and in the Medical School, for one or more meritorious students needing assistance.

James Ewing Mears Scholarship in Medicine. Dr. J. Ewing Mears has entered into an agreement with the President and Fellows whereby he has provided for the payment of $225 a year during his life-time for the maintenance of a scholarship in the Medical School; and the permanence of this scholarship has been secured by a bequest of $5000. The scholarship is to be awarded to a young man whose financial resources are such that he cannot, unaided, acquire a medical education, and whose scholarship is good. This scholarship is to be held for the full course of four years in the Medical School, subject to the standing the recipient shall maintain in scholarship and to his good conduct as a student of the School.

The Loan Fund of the Medical Class of 1879. The Medical Class of 1879 has given the sum of $436.79 to be used as a loan fund to aid any student or students in the Medical School in accordance with the request of the Class, or, in the absence of such request, under the direction of the Faculty of Medicine.

Information with regard to all forms of pecuniary aid may be obtained from the Director of Scholarships. The Director will aid deserving students in obtaining work. Certain loan funds not enumerated above are at his disposal. Students requiring aid should visit the Director as soon as possible to discuss with him their financial needs. The Director will also act in advisory capacity with the students in any matters not intimately associated with the curriculum.

Third-year students may apply for scholarships in January; second-year students, in February; first-year students, in March. All applications must be made before May 1.

Applications for the Cheever, Hayden, and Haven Scholarships must be handed to the Director of Scholarships on or before December 10th. These scholarships are open only to students who are members of the School at the time of application.

Blank forms, on which all applications for pecuniary aid must be made, may be obtained of the Director of Scholarships.

BOYLSTON MEDICAL PRIZES.

These prizes, which are open to public competition, are offered for the best dissertation on questions in medical science proposed by the Boylston Medical Committee.

For 1915 there is offered a prize of three hundred dollars and the Boylston Prize Medal, for the best dissertation on the results of original research in medicine, the subject to be chosen by the writer.

Dissertations entered for this prize must be in the hands of the Secretary, H. C. Ernst, M. D., Harvard Medical School, Boston, Mass., on or before December 31, 1915.

In awarding these prizes, preference will be given to dissertations which exhibit original work, but if no dissertation is considered worthy of a prize, the award may be withheld.

Each dissertation must bear, in place of the author's name, some sentence or device, and must be accompanied by a sealed packet, bearing the same sentence or device, and containing within the author's name and residence.

Any clew by which the authorship of a dissertation is made known to the Committee will debar such dissertation from competition.

Dissertations must be printed or typewritten and their pages must be bound in book form.

All unsuccessful dissertations are deposited with the Secretary, from whom they may be obtained, with the sealed packet unopened, if called for within one year after they have been received.

By an order adopted in 1826, the Secretary was directed to publish annually the following votes:—

1. That the Board does not consider itself as approving the doctrines contained in any of the dissertations to which premiums may be adjudged.
2. That, in case of publication of a successful dissertation, the author be considered as bound to print the above vote in connection therewith.

The Boylston Medical Committee is appointed by the President and Fellows of Harvard College, and consists of the following physicians: William F. Whitney, M. D., Chairman; Harold C. Ernst, M. D., Secretary; Theobald Smith, M. D., William T. Porter, M. D., Henry A. Christian, M. D., Edward H. Nichols, M. D., John Warren, M. D.

The address of the Secretary of the Boylston Medical Committee is Harold C. Ernst, M. D., Harvard Medical School, Boston, Mass.

Otological Prize.—For the best preparation illustrating the osseous anatomy of the ear or for the best thesis showing original work on an otological subject, a prize of twenty-five dollars is offered, open to fourth-year students.

Other Prizes.—The Bowdoin, Dante, Sumner and Toppan Prizes, offered by the Faculty of Arts and Sciences, are open to students in all departments of the University. Full particulars in regard to these prizes may be found on pages 536-541, and 589-592, of the University Catalogue.

GRADUATE SCHOOL OF MEDICINE.

On October 1, 1912, graduate instruction in medicine was organized as a Department of the Faculty of Medicine of Harvard University, with a separate Dean and Administrative Board.

The object is, by better organization and the development of teaching facilities,—both clinical and laboratory,—to offer graduates in medicine opportunities to continue their studies in as thorough and scientific a manner as in the Medical School proper.

Adequate opportunities for study will be offered for those graduates who wish to review past studies and for those who wish to keep abreast of recent advances in medicine. Other courses will be offered for those who are interested in special subjects, and the excellent opportunities for advanced study and for research in all departments of medical science will be made available for those who are qualified by previous training to undertake such work. Thus graduates in medicine, both of remote and of recent date, whether desiring fundamental reviews or in quest of the attainment of higher standards, are provided for. Graduates of recognized medical schools will be accepted as students.

While all courses are intended primarily for those who hold degrees from recognized medical schools, certain courses in the scientific subjects are adapted to the needs of advanced students and teachers of science. Such persons may be admitted to courses on the approval of the Administrative Board.

Undergraduate students of medicine may be admitted by vote of the Administrative Board to such courses as they are qualified to take. Special consideration for the needs of such students will be given in the plans for summer courses.

FACULTY OF THE MEDICAL SCHOOL.

Abbott Lawrence Lowell, LL.B., LL.D., Ph.D., President.
Edward H. Bradford, M. D., Dean.
Abner Post, M. D., Professor of Syphilis.
William F. Whitney, M. D., John Barnard Swett Jackson Curator of the Warren Anatomical Museum.
Charles M. Green, M. D., Professor of Obstetrics and Gynaecology.
William T. Councilman, M. D., A. M., LL.D., Shattuck Professor of Pathological Anatomy.
Harold C. Ernst, M. D., A. M., Professor of Bacteriology.
George G. Sears, M. D., Clinical Professor of Medicine.
Algernon Coolidge, M. D., Professor of Laryngology.
Robert W. Lovett, M. D., Professor of Orthopedic Surgery.
Theobald Smith, M. D., LL.D., S. D., George Fabyan Professor of Comparative Pathology.
William T. Porter, M. D., LL.D., Professor of Comparative Physiology.
Paul Thorndike, M. D., Assistant Professor of Genito-Urinary Surgery.
Milton J. Rosenau, M. D., A. M., Professor of Preventive Medicine and Hygiene.
Frank B. Mallory, M. D., Associate Professor of Pathology.
Edward H. Nichols, M. D., Associate Professor of Surgery.
J. Bapst Blake, M. D., Assistant Professor of Surgery.
Eugene A Crockett, M. D., Assistant Professor of Otology.
Howard A. Lothrop, M. D., Assistant Professor of Surgery.
John L. Morse, M. D., Associate Professor of Pediatrics.
Charles A. Porter, M. D., Associate Professor of Surgery.
Edward W. Taylor, M. D., Assistant Professor of Neurology.
Richard C. Cabot, M. D., Assistant Professor of Medicine.
James S. Stone, M. D., Instructor in Surgery.
David L. Edsall, M. D., S. D., Jackson Professor of Clinical Medicine.
Elliott P. Joslin, M. D., A. M., Assistant Professor of Medicine.
C. Morton Smith, M. D., Instructor in Syphilis.
Charles J. White, M. D., Assistant Professor of Dermatology.
James H. Wright, M. D., S. D., Asst. Professor of Pathology.
Harvey Cushing, M. D., F. R. C. S., Moseley Professor of Surgery.

William P. Graves, M. D., Professor of Gynaecology.
Reid Hunt, M. D., Professor of Pharmacology.
Otto Folin, Ph.D., Hamilton Kuhn Professor of Biological Chemistry.
Robert B. Greenough, M. D., Assistant Professor of Surgery.
Harris P. Mosher, M. D., Assistant Professor of Laryngology.
Franklin S. Newell, M. D., Assistant Professor of Obstetrics and Gynaecology.
William H. Smith, M. D., Instructor in Medicine.
Richard P. Strong, M. D., S. D., Professor of Tropical Medicine.
Hugh Cabot, M. D., Assistant Professor of Genito-Urinary Surgery.
Henry A. Christian, M. D., Hersey Professor of the Theory and Practice of Physic.
John L. Bremer, M. D., Assistant Professor of Histology.
Walter B. Cannon, M. D., George Higginson Professor of Physiology.
John Warren, M. D., Assistant Professor of Anatomy.
Herman M. Adler, M. D., Assistant Professor of Psychiatry.
David Cheever, M. D., Assistant Professor of Surgical Anatomy.
Frederick T. Lewis, M. D., Assistant Professor of Embryology.
Ernest G. Martin, Ph. D., Assistant Professor of Physiology.
Elmer E. Southard, M. D., A. M., Bullard Professor of Neuropathology.
Percy G. Stiles, Ph. D., Instructor in Physiology.
Ernest E. Tyzzer, M. D., Assistant Professor of Pathology.
Lawrence J. Henderson, M. D., Assistant Professor of Biological Chemistry.
S. Burt Wolbach, M. D., Associate Professor of Bacteriology.
Marshal Fabyan, M. D., Instructor in Comparative Pathology.
Worth Hale, M. D., Assistant Professor of Pharmacology.
Thomas Ordway, M. D., Instructor in Medicine.
Edwin H. Place, M. D., Assistant Professor of Pediatrics.
Walter R. Bloor, Ph.D., Assistant Professor of Biological Chemistry.
Channing Frothingham, Jr., M. D., Instructor in Medicine.
Alexander S. Begg, M. D., Instructor in Comparative Anatomy.
Alexander Forbes, M. D., Instructor in Physiology.
Francis W. Palfrey, M. D., Secretary of the Faculty of Medicine, and Assistant in Medicine.

OTHER INSTRUCTORS.

Samuel J. Mixter, M. D., Lecturer on Surgery.
William F. Knowles, M. D., Instructor in Otology.
J. Payson Clark, M. D., Instructor in Laryngology.

Francis P. Emerson, M. D., Assistant in Otology.
Charles L. Scudder, M. D., Associate in Surgery.
Elliott G. Brackett, M. D., Associate in Orthopedic Surgery.
William N. Souter, M. D., Fellow in Ophthalmology.
Augustus Thorndike, M. D., Associate in Orthopedic Surgery.
Malcolm Storer, M. D., Instructor in Gynaecology.
William E. Faulkner, M. D., Associate in Surgery.
Alexander Quackenboss, M. D., Instructor in Ophthalmology.
Fred B. Lund, M. D., Lecturer on Surgery.
Rockwell A. Coffin, M. D., Instructor in Laryngology.
Joseph L. Goodale, M. D., Instructor in Laryngology.
Farrar Cobb, M. D., Associate in Surgery.
Frederick J. Cotton, M. D., Lecturer on Surgery.
Philip Hammond, M. D., Associate in Otology.
Henry H. Haskell, M. D., Instructor in Ophthalmology.
Henry F. Hewes, M. D., Instructor in Medicine.
Franklin W. White, M. D., Instructor in Medicine.
Calvin G. Page, M. D., Instructor in Bacteriology.
Ernest A. Codman, M. D., Lecturer on Surgery.
William H. Robey, Jr., M. D., Instructor in Medicine.
Harry A. Barnes, M. D., Instructor in Laryngology.
Joshua C. Hubbard, M. D., Associate in Surgery.
Daniel F. Jones, M. D., Associate in Surgery.
Harris P. Mosher, M. D., Instructor in Anatomy.
Henry J. Perry, M. D., Assistant in Bacteriology.
Ernest B. Young, M. D., Instructor in Gynaecology.
Freeman Allen, M. D., Lecturer on Anaesthesia.
John H. Blodgett, M. D., Assistant in Laryngology.
Samuel W. Ellsworth, M. D., Assistant in Roentgenology.
Ralph C. Larrabee, M. D., Assistant in Medicine.
Fred M. Spalding, M. D., Instructor in Ophthalmology.
Howard T. Swain, M. D., Instructor in Obstetrics.
Frederick S. Burns, M. D., Instructor in Dermatology.
Le Roi G. Crandon, M. D., Assistant in Surgery.
Walter C. Howe, M. D., Assistant in Surgery, and Secretary of The Graduate School of Medicine.
Maynard Ladd, M. D., Instructor in Pediatrics.
George B. Magrath, M. D., Instructor in Legal Medicine.
Joseph H. Pratt, M. D., Instructor in Medicine.
Robert Soutter, M. D., Instructor in Orthopedic Surgery.
David H. Walker, M. D., Instructor in Otology.
D. Crosby Greene, M. D., Fellow in Laryngology.
Harry F. Hartwell, M. D., Fellow in Surgery.
Robert B. Osgood, M. D., Instructor in Orthopedic Surgery.

Channing C. Simmons, M. D., Assistant in Surgery.
James R. Torbert, M. D., Assistant in Obstetrics.
Frederick H. Verhoeff, M. D., Instructor in Ophthalmic Pathology.
George A. Waterman, M. D., Instructor in Neurology.
Percy Brown, M. D., Assistant in Roentgenology.
George S. Derby, M. D., Instructor in Ophthalmology.
Charles H. Dunn, M. D., Instructor in Pediatrics.
William W. Howell, M. D., Fellow in Pediatrics.
Edwin A. Locke, M. D., Instructor in Medicine.
Albert E. Steele, M. D., Instructor in Bacteriology.
Richard G. Wadsworth, M. D., Fellow in Gynaecology.
Horace Binney, M. D., Assistant in Genito-Urinary Surgery.
David Cheever, M. D., Associate in Surgery.
Frederick T. Lord, M. D., Instructor in Medicine.
Nathaniel R. Mason, M. D., Assistant in Obstetrics and Gynaecology.
Henry I. Bowditch, M. D., Clinical Instructor in Pediatrics.
Robert L. DeNormandie, M. D., Assistant in Obstetrics.
Harold A. Gale, M. D., Fellow in Pediatrics.
George H. Powers, Jr., M. D., Assistant in Otology.
Beth Vincent, M. D., Assistant in Surgery.
Zabdiel B. Adams, M. D., Fellow in Anatomy.
Cleaveland Floyd, M. D., Instructor in Bacteriology.
John Homans, M. D., Associate in Surgery.
Henry T. Hutchins, M. D., Assistant in Gynaecology.
Frank L. Richardson, M. D., Lecturer on Anaesthesia.
William B. Robbins, M. D., Assistant in Medicine.
George L. Tobey, Jr., M. D., Assistant in Otology.
J. Dellinger Barney, M. D., Assistant in Genito-Urinary Surgery.
Horace K. Boutwell, M. D., Assistant in Bacteriology.
Calvin B. Faunce, Jr., M. D., Instructor in Otology.
Conrad Jacobson, M. D., Assistant in Surgery.
E. Lawrence Oliver, M. D., Assistant in Dermatology.
Fritz B. Talbot, M. D., Clinical Instructor in Pediatrics.
John T. Williams, M. D., Fellow in Gynaecology.
George H. Wright, D. M. D., Assistant in Laryngology.
James E. Ash, M. D., Instructor in Pathology.
Gerald Blake, M. D., Assistant in Medicine.
Henry Lyman, M. D., Fellow in Biological Chemistry.
Charles L. Overlander, M. D., Assistant in Medicine.
Mark H. Wentworth, M. D., Fellow in Surgery.
Wyman Whittemore, M. D., Assistant in Surgery.
Walter M. Boothby, M. D., A. M., Lecturer on Anaesthesia and Instructor in Anatomy.

Robert M. Green, M. D., Instructor in Anatomy and Assistant in Obstetrics and Gynaecology.
George W. Holmes, M. D., Assistant in Roentgenology.
James L. Huntington, M. D., Fellow in Gynaecology.
James R. Martin, Ph.B., Teaching Fellow in Physiology.
Walter L. Mendenhall, M. D., Teaching Fellow in Physiology.
Edward P. Richardson, M. D., Assistant in Surgery.
Edward H. Risley, M. D., Assistant in Anatomy.
Philip H. Sylvester, M. D., Assistant in Pediatrics.
James B. Ayer, M. D., Assistant in Neurology and Neuropathology.
Edward G. Birge, M. D., Instructor in Preventive Medicine and Hygiene.
William J. Brickley, M. D., Fellow in Surgery.
John Bryant, M. D., Assistant in Anatomy.
Henry J. Fitzsimmons, M. D., Fellow in Orthopedic Surgery.
Archibald McK. Fraser, M. D., Assistant in Anatomy.
Emil Goetsch, M. D., Assistant in Surgery.
Torr W. Harmer, M. D., Assistant in Anatomy.
Richard M. Smith, M. D., Assistant in Pediatrics.
Lesley H. Spooner, M. D., Assistant in Bacteriology.
James H. Young, M. D., Assistant in Pediatrics.
Walter J. Dodd, M. D., Instructor in Roentgenology.
Albert A. W. Ghoreyeb, M. D., Assistant in Pathology.
James A. Honeij, M. D., Fellow in Bacteriology.
Charles H. Lawrence, Jr., M. D., Assistant in Medicine.
Eugene L. Porter, Ph.D., Research Fellow in Physiology.
Irving J. Walker, M. D., Assistant in Surgery.
George Clymer, M. D., Assistant in Neurology.
Theodore W. Ely, M. D., Fellow in Pediatrics.
Arthur A. Howard, M. D., Clinical Instructor in Pediatrics.
Henry F. Keever, M. D., Assistant in Pediatrics.
Halsey B. Loder, M. D., Assistant in Surgery.
Richard H. Miller, M. D., Assistant in Anatomy.
George W. Morse, Jr., M. D., Assistant in Anatomy.
Louis H. Newburgh, M. D., Alumni Assistant in Medicine.
John E. Overlander, M. D., Fellow in Medicine.
Walter W. Palmer, M. D., Fellow in Medicine.
J. Howard Brown, S. M., Assistant in Comparative Pathology.
Ernest G. Crabtree, M. D., Fellow in Surgery.
Reginald Fitz, M. D., Fellow in Physiology.
Alfred Luger, M. D., Assistant in Roentgenology and Assistant in Medicine.
Willard S. Parker, M. D., Assistant in Medicine.

Frank A. Pemberton, M. D., Fellow in Gynaecology.
Warren R. Sisson, M. D., Instructor in Pathology.
Harry P. Cahill, M. D., Research Fellow in Otology.
John E. Dwyer, Jr., M. D., Assistant in Pathology.
John W. Hammond, Jr., M. D., Fellow in Bacteriology.
Albert A. Hornor, M. D., Assistant in Medicine.
George A. Leland, Jr., M. D., Alumni Assistant in Surgery.
Andrew R. MacAusland, M. D., Assistant in Anatomy.
James H. Means, M. D., Henry P. Walcott Fellow in Clinical Medicine.
Richard D. Bell, M. D., Fellow in Biological Chemistry.
Frederick S. Hammett, S. M., A. M., Assistant in Comparative Anatomy and Teaching Fellow in Biological Chemistry.
James P. O'Hare, M. D., Fellow in Medicine.
Raymond B. Parker, M. D., Alumni Assistant in Obstetrics.
Carlon Tenbroeck, M D., Assistant in Comparative Pathology.
Kurt H. Thoma, D. M. D., Assistant in Dental Anatomy.
Paul D. White, M. D., Fellow in Medicine.
Edward A. Boyden, A. M., Teaching Fellow in Histology and Embryology.
Harold I. Gosline, M. D., Assistant in Neuropathology.
Francis B. Grinnell, M. D., Instructor in Preventive Medicine and Hygiene and Charles Follen Folsom Teaching Fellow in Hygiene.
Gilbert Horrax, M. D., Arthur Tracy Cabot Fellow in charge of the Laboratory of Surgical Research.
Cyrus H. Fiske, M. D., Assistant in Biological Chemistry.
Harry C. Solomon, M. D., Assistant in Neuropathology.
Max M. Miller, A. M., Teaching Fellow in Histology and Embryology.
Edward P. Phelps, S. M., Assistant in Biological Chemistry.
Theodore F. Zucker, S. M., Assistant in Biological Chemistry.
McKeen Cattell, S. B., Teaching Fellow in Physiology.

AUSTIN TEACHING FELLOWS.

Frank A. Hartman, Ph.D., in Physiology.
MacIver Woody, M. D., in Surgery.
Richard S. Austin, M. D., in Bacteriology.
Paul E. Lineback, M. D., in Histology and Embryology.
Goodwin LeB. Foster, A. B., in Biological Chemistry.

TUFTS COLLEGE MEDICAL SCHOOL.

416 Huntington Avenue, Boston, Mass.

Tufts College Medical School was established in Boston in 1893. It is co-educational, women being admitted upon the same terms as men. The school was first located in rooms at 188 Boylston Street, where it remained three years, when an enrollment of one hundred and seventy-four students made larger quarters necessary. Temporary accommodations were procured for the session 1896-97 in the building formerly occupied by the Chauncy Hall School, while a building was in process of construction on Shawmut Avenue. This building was occupied in the session 1897-98, and it was believed that it would meet the School's needs for a number of years. At the end of three years this building was found to be inadequate to the constantly increasing number of students, and to the constantly increasing requirements of medical education. A new building was erected on Huntington Avenue, and was occupied in the session 1901-02. Increasing requirements having necessitated more commodious quarters, the building has been enlarged and remodeled at an expense of $50,000. A fourth story has been added, and the building is now completely equipped with every facility for teaching Medicine in accordance with present requirements.

REQUIREMENTS FOR ADMISSION.

The following requirements for admission are in accordance with the rules made by the Association of American Medical Colleges, which control admission to medical schools of "Class A."

Admission to the first-year class may be obtained in two ways as follows:

1. For Those Having Collegiate Degrees.

The candidate for admission must present satisfactory evidence that he is a graduate of an accredited college or university and has received the bachelor's degree.

A student entering Tufts College as a freshman may combine his collegiate and medical school courses so that in seven years he can take both his bachelor's and his doctor's degree.

Work for the first three years is pursued in the School of Liberal Arts, and for the remaining four in the Medical School. At the end of the fourth year the bachelor's degree may be conferred, and at the end of the seventh year the degree of Doctor of Medicine. An outline of this course may be found in the general catalogue.

2. For Those Without Collegiate Degrees.

The candidate for admission must present evidence that he has completed a Pre-Medical Course of at least one year's work in an accredited college or university, including courses in Physics, Chemistry, Biology, and German or French.

SESSIONS OF THE SCHOOL.

The annual course of lectures begins on the last Wednesday in September of each year, and continues thirty-six weeks until the second Wednesday in June.

OUTLINE OF THE COURSE.

The course of study is a graded one, covering four annual sessions. In general the first two years consist of didactic and laboratory work; the last two years are chiefly clinical. During the latter part of the fourth year a certain latitude is allowed in the choice of elective subjects, but the course is otherwise uniform and the required subjects cover thoroughly the general ground of medicine, surgery, and the important special subjects.

For the first three years the school session is divided into two semesters of seventeen weeks each.

First Year.—First Semester.

Anatomy—Lectures, recitations, demonstrations, and dissecting. Thirty-five hours a week.

Histology—Lectures, recitations, demonstrations, and laboratory work. Twelve hours a week.

First Year.—Second Semester.

Applied Anatomy—Lectures and demonstrations. Two hours a week.

Physiology—Lectures, recitations, demonstrations, conferences, and laboratory work. Twenty hours a week.

Second Year.—First Semester.

Pathology—Lectures, recitations, demonstrations, and laboratory work. Twenty-five hours a week.

Bacteriology—Lectures, recitations, demonstrations, and laboratory work. Five hours a week.

Embryology—Lectures, recitations, and laboratory work. Three hours a week.

Second Year.—Second Semester.

Biological Chemistry—Lectures, recitations, demonstrations, and laboratory work. Seventeen hours a week.

Materia Medica and Therapeutics—Lectures, recitations, and laboratory work in Pharmacology. Twelve hours a week.

Toxicology—Lectures, recitations, demonstrations, and laboratory work. Three hours a week.

Bandaging and Surgical Technique—Lectures, demonstrations, and section exercises. Twenty-four hours in all.

The following subject is given throughout the school year:

Physical Diagnosis—Lectures, demonstrations, recitations and section exercises. Forty-eight hours in all.

Third Year.

The following subjects are given throughout the school year:

Theory and Practice—Lectures, and recitations. Three hours a week.

Surgery—Lectures and recitations (three hours), and two clinical lectures. Five hours a week.

Obstetrics—Lectures, recitations, and demonstrations. (Attendance upon at least six cases of labor is required). Three hours a week.

Diseases of Children—One lecture at the school and one clinical lecture. Two hours a week.

*Medical Diagnosis—Clinical lecture. One hour a week.

Ophthalmology—Twenty-four lectures.

Laryngology—Twenty-four lectures.

Third Year.—First Semester.

Hygiene and Sanitation—Lectures. Two hours a week.

Neurology—One *clinical lecture a week.

*Neuropathology—Sixteen lectures and eight hours of laboratory work.

Third Year.—Second Semester.

Hematology—Sixteen lectures and twenty-four hours of laboratory work.

Pulmonary Diseases and Climatology—One clinical lecture* a week.

Gynecology—Lectures and recitations. Three hours a week.

Genito-Urinary Diseases—Sixteen lectures.

CLINICS.

In addition to the above exercises, the students of the third year attend clinics, in sections, in the following subjects:—

---

* Clinical lectures are given at the hospitals connected with the school.

Clinical Medicine; Clinical Surgery; Obstetrics (each student is required to take charge of at least six cases of childbirth); Children's Diseases; Pulmonary Diseases; Ophthalmology; Laryngology.

The work in clinics averages twelve hours a week for the year.

Each student is required to serve one month as assistant at a clinic in the surgical department of an approved hospital.

Fourth Year.

The work of the fourth year is required. It is essentially clinical and largely in sections. The work includes a continuation of the clinical work in the general subjects of medicine and surgery, and a grounding in the essentials of those specialties which have not been studied in the third year.

Required Subjects.—Class Exercises.

Clinical Medicine (including Pulmonary Diseases)—Lectures and conferences at the School (two hours), and clinical lectures (three hours). Five hours a week, thirty weeks.

Clinical Surgery—Lectures and conferences at the School (two hours), and one clinical lecture and operations (two hours). Four hours a week, thirty weeks.

Orthopedic Surgery—Lectures, recitations, and demonstrations. Three hours a week, thirty weeks.

General Medicine—Lectures and recitations. Two hours a week, thirty weeks.

Neurology—One conference at the School and two clinical lectures each week. Three hours a week, sixteen weeks.

Psycho-Pathology—Lectures. Two hours a week (twelve weeks).

Children's Diseases—Lectures and conferences. One hour a week, thirty weeks.

Otology—Clinical lectures. Two hours a week (twelve weeks).

Rectal Diseases—Lectures. One hour a week (twelve weeks).

Operative Obstetrics—Eighteen hours.

Electro-Therapeutics—Lectures. One hour a week (twelve weeks).

Clinical Gynecology—*Clinics (in small sections) (twenty-five weeks). Conferences once a week (thirteen weeks).

Medical Jurisprudence—Lectures and demonstrations. One hour a week (twenty-five weeks).

Dermatology—*Clinical lectures. Two hours a week (eighteen weeks).

---

* Clinical lectures are given at the hospitals connected with the school.

Operative Surgery and Surgical Anatomy—This course is a subdivision of Clinical Surgery, and consists of lectures, demonstrations, and section work in operations on the cadaver. Three hours a week (twelve weeks).

Mental Diseases—Lectures and clinical visits at hospitals for the insane. Two hours a week (eighteen weeks).

Genito-Urinary Diseases—*Clinics in sections. (Twenty-four hours).

Clinical Work in Sections.

Eighteen hours a week are assigned to clinical work in sections throughout the school year.

This work is given as far as possible in close relation to the instruction in each subject.

GRADUATION.

Candidates for the degree of Doctor of Medicine must have fulfilled the following requirements:—

1. They must furnish certificates that they are twenty-one years of age.
2. The Faculty must be satisfied of their good moral character.
3. They must have attended four full courses of medical study at some accredited medical college, the last of which shall have been at this School as members of the fourth-year class, and no two courses in the same twelve months.
4. They must have passed all the required examinations, and have performed the required amount of laboratory and clinical work.

HONORS.

Students who have attended four full courses of lectures at this School, and have obtained an average of ninety per cent. in their examinations, shall be eligible to "summa cum laude"; and students who have obtained an average of eighty per cent. shall be eligible to "cum laude," in connection with the degree received.

FEES AND EXPENSES.

A matriculation fee of five dollars is payable each year.

A charge of one hundred and fifty dollars for tuition is payable in advance.

If desired, the tuition may be paid in instalments, in which case an additional charge of five dollars is made, and the fees are then paid as follows:—

---

* Clinical lectures are given at the hospitals connected with the school.

First Payment:—Five dollars for matriculation fee and seventy-five dollars on account of the tuition, a total of eighty dollars, payable at the beginning of the first semester.

Second payment:—Seventy-five dollars, the balance of the tuition, and five dollars, the additional charge, a total of eighty dollars, payable at the beginning of the second semester, or before February 1.

There is no charge for anatomical material or for laboratory supplies.

POST-GRADUATE FEES.

Post-graduate fee for graduates of other schools	$150.00
Single course	50.00
Post-graduate fee for graduates of this School	60.00
Single course	30.00
Anatomical material	at cost

There are no scholarships connected with the School.

FACULTY.

Administrative Officers.

Hermon Carey Bumpus, Ph.D., ScD., LL.D., President.
Charles Fairbank Painter, A. B., M. D., Dean.
Frank George Wheatley, A. M., M. D., Vice-Dean.
Frank Eugene Haskins, Ph.G., M. D., Secretary of the Faculty.

Professors.

John Lincoln Ames, A. B., M. D., Professor of the Theory and Practice of Medicine.
Alfred William Balch, Ph.G., M. D., Professor of Biological Chemistry and Toxicology.
George Andrew Bates, M. Sc., D. M. D., Professor of Histology.
Frederic Melancthon Briggs, A. B., M. D., Professor of Surgery, Emeritus.
Henry Beckles Chandler, C. M., M. D., Professor of Ophthalmology, Emeritus.
William Elisha Chenery, A. B., M. D., Professor of Laryngology.
William Merritt Conant, A. B., M. D., Professor of Clinical Surgery.
Ernest Watson Cushing, A. B., M. D., LL.D., Professor of Abdominal Surgery and Gynecology, Emeritus.
George Van Ness Dearborn, A. M., M. D., Ph.D., Professor of Physiology.

Elwood Tracy Easton, M. D., Professor of Ophthalmology.
William Robie Patten Emerson, A. B., M. D., Professor of Children's Diseases.
Leo Victor Friedman, A. B., M. D., Professor of Obstetrics.
John Lewis Hildreth, A. M., M. D., LL.D., Professor of Clinical Medicine (Emeritus).
George Warton Kaan, M. D., Professor of Clinical Gynecology.
Francis Joseph Keany, A. M., M. D., Professor of Dermatology.
Edward Binney Lane, A. B., M. D., Professor of Mental Diseases.
Timothy Leary, A. M., M. D., Professor of Pathology, Bacteriology and Medical Jurisprudence.
Edward Osgood Otis, A. B., M. D., Professor of Pulmonary Diseases and Climatology.
Charles Fairbank Painter, A. B., M. D., Professor of Orthopedic Surgery.
Edward Marwick Plummer, M. D., Professor of Otology.
Morton Prince, A. B., M. D., LL.D.,Professor of Neurology (Emeritus).
John Jenks Thomas, A. M., M. D., Professor of Neurology.
George Hamlin Washburn, A. B., M. D., Professor of Obstetrics (Emeritus).
Frank George Wheatley, A. M., M. D., Professor of Materia Medica and Therapeutics.
Charles Melville Whitney, M. D., Professor of Genito-Urinary Diseases.
Harold Williams, A. B., M. D., LL.D., Professor of the Theory and Practice of Medicine (Emeritus).

Associate Professors.

Edmund Wright Clap, A. B., M. D., Associate Professor of Ophthalmology.
Allen Greenwood, M. D., Associate Professor of Ophthalmology.
Stephen Rushmore, A. B., M. D., Associate Professor of Gynecology.

Assistant Professors.

Arthur Everett Austin, A. B., M. D., Assistant Professor of Clinical Medicine and Lecturer in Gastro-Intestinal Diseases.
Elmer Walter Barron, A. B., M. D., Assistant Professor of Children's Diseases.
Arthur Lambert Chute, M. D., Assistant Professor of Genito-Urinary Surgery.
Arthur Willard Fairbanks, M. D., Assistant Professor of Neurology.

Arial Wellington George, M. D., Assistant Professor of Roentgenology.

Harry Homer Germain, M. D., Assistant Professor of Anatomy.

Frank Eugene Haskins, Ph.G., M. D., Assistant Professor of Materia Medica and Therapeutics.

Arthur Ronald Kimpton, M. D., Assistant Professor of Surgery.

Charles Davison Knowlton, M. D., Assistant Professor of the Theory and Practice of Medicine.

Frank Howard Lahey, M. D., Assistant Professor of Clinical Surgery.

Olga Cushing-Leary, M. D., Assistant Professor of Pathology and Bacteriology.

Edward Norton Libby, A. B., M. D., Assistant Professor of Theory and Practice of Medicine.

Francis Henry McCrudden, B. S., M. D., Assistant Professor of Applied Therapeutics.

Cadis Phipps, A. B., M. D., Assistant Professor of Clinical Medicine.

Louis Mahlon Spear, A. B., M. D., Assistant Professor of Theory and Practice of Medicine.

Demonstrator.

Eugene Thayer, A. M., M. D., Demonstrator of Anatomy.

Instructors.

Robert Eaton Andrews, A. B., M. D., Instructor in Physiology.

Austin Brant, A. B., M. D., Instructor in Obstetrics.

Elmond Arthur Burnham, A. B., M. D., Instructor in Clinical Medicine.

Richard John Ridgway Caines, M. D., Instructor in Physical Therapeutics.

Franklin Edward Campbell, M. D., Instructor in Biological Chemistry and Toxicology.

Isador Henry Coriat, M. D., Instructor in Neurology.

Andrew Payne Cornwall, M. D., Instructor in Orthopedic Surgery.

William Pearce Coues, M. D., Instructor in Surgery.

James Francis Coupal, B. S., M. D., Instructor in Histology.

Arthur Hallam Crosbie, A. B., M. D., Instructor in Genito-Urinary Surgery.

Charles Balfour Darling, A. B., M. D., Instructor in Clinical Gynecology.

Herbert Seymour Gay, M. D., Instructor in Clinical Gynecology.

William Herbert Grant, M. D., Instructor in Clinical Gynecology.

James William Hinckley, M. D., Instructor in Clinical Gynecology.

Delbert Linscott Jackson, B. S., M. D., Instructor in Obstetrics.
Arthur Percy Janes, M. D., Instructor in Genito-Urinary Diseases.
Francis Joseph Keleher, A. M., M. D., Instructor in Medical Jurisprudence.
Bradford Kent, M. D., Instructor in Pulmonary Diseases.
Harry Linenthal, A. B., M. D., Instructor in Pulmonary Diseases.
Francis Patrick McCarthy, M. D., Instructor in Pathology and Bacteriology.
Walter Freeman Nolen, M. D., Instructor in Anatomy.
Thomas James O'Brien, Ph.G., M. D., Instructor in Clinical Medicine.
Alonzo Kingman Paine, M. D., Instructor in Obstetrics.
Luther Gordon Paul, M. D., Instructor in Surgery.
Arthur Cushing Pearce, M. D., Instructor in Genito-Urinary Diseases.
Edwin Hemphill Place, M. D., Instructor in Clinical Medicine.
Frederick Reis, M. D., Instructor in Biological Chemistry and Toxicology.
Solomon Hyman Rubin, M. D., Instructor in Histology and Biology.
Joseph Henry Saunders, A. B., M. D., Instructor in Clinical Medicine.
Thomas John Scanlan, M. D., Instructor in Clinical Gynecology.
Hollis Lester Seavey, M. D., Instructor in Clinical Medicine.
Albert Warren Stearns, M. D., Instructor in Neurology.
Frederick Winslow Stetson, A. B., M. D., Instructor in Clinical Medicine.
Edward Augustine Supple, A. B., M. D., Instructor in Clinical Surgery.
Walter Babcock Swift, A. B., S. B., M. D., Instructor in Neuropathology.
Townsend William Thorndike, M. D., Instructor in Dermatology.
Edward Eliphalet Thorpe, M. D., Instructor in Biological Chemistry and Toxicology.
Edward Lambert Twombly, A. B., M. D., Instructor in Clinical Gynecology.
Henry Fowler Ransford Watts, M. D., Instructor in Clinical Medicine and Instructor in Theory and Practice of Medicine.
Frank Percival Williams, M. D., Instructor in Rectal Diseases.

Assistants.

Letitia Douglas Adams, M. D., Assistant in Histology.
Williston Wright Barker, A. B., M. D., Assistant in Children's Diseases.

Roland Augustus Behrman, M. D., Assistant in Clinical Medicine.
John Henry Burke, M. D., Assistant in Pathology and Bacteriology.
Louis Raymond Burnett, M. D., Assistant Demonstrator of Anatomy.
Dana Warren Drury, M. D., Assistant in Otology.
Edward Keith Ellis, M. D., Assistant in Ophthalmology.
Albert Evans, M. D., Assistant in Clinical Medicine.
Erle D. Forrest, M. D., Assistant in Physiology.
Somers Fraser, A. B., M. D., Assistant in Surgery.
Wilfred Goldwin Funnell, M. D., Assistant in Materia Medica and Therapeutics.
Joseph Edward Hallisey, M. D., Assistant in Clinical Medicine.
Albert John Adams Hamilton, M. D., Assistant Demonstrator of Anatomy.
Joseph Gordon Hegarty, A. B., M. D., Assistant in Surgery.
Francis Freeman Henderson, M. D., Assistant Demonstrator of Anatomy.
James Joseph Hepburn, A. B., M. D., Assistant Demonstrator of Anatomy.
Otto John Hermann, A. B., M. D., Assistant Demonstrator of Anatomy.
Richard Henry Houghton, M. D., Assistant in Pulmonary Diseases.
James Joseph Lynch, M. D., Assistant in Clinical Medicine.
John Allen MacCormick, A. B., M. D., Assistant in Clinical Gynecology.
James Alexander MacKenzie, M. D., Assistant in Physiology.
Angus Daniel MacLennan, M. D., Assistant in Children's Diseases.
Edward Martin, M. D., Assistant in Clinical Medicine.
George Albert McEvoy, M. D., Assistant in Clinical Medicine.
George Francis McIntire, M. D., Assistant Demonstrator of Anatomy.
Hyman Morrison, A. B., M. D., Assistant in Clinical Medicine.
Leo Thomas Myles, M. D., Assistant in Clinical Medicine.
Dunlap Pearce Penhallow, S. B., M. D., Assistant Demonstrator of Anatomy.
Hale Powers, B. S., M. D., Assistant in Neurology.
William Emerson Preble, A. B., M. D., Assistant in Clinical Medicine.
Charles Allen Riley, M. D., Assistant in Pulmonary Diseases.
Mark Homer Rogers, M. D., Assistant in Orthopedic Surgery.
George Hale Ryder, Ph.B., M. D., Assistant in Ophthalmology.
Abraham Isidor Shain, A. B., M. D., Clinical Assistant in the Theory and Practice of Medicine.

Timothy Joseph Shanahan, A. B., M. D., Assistant in Laryngology.
Victor Isaiah Shapira, M. D., Assistant in Genito-Urinary Diseases.
Philip Edward Sheridan, A. B., M. D., Assistant Demonstrator of Anatomy.
Russell Bradford Sprague, M. D., Assistant in Histology.
Max Sturnick, M. D., Assistant in Children's Diseases.
Earle Edward Tilton, M. D., Assistant in Laryngology.
Joseph Patrick Tynan, M. D., Assistant Demonstrator of Anatomy.
George Louis Vogel, M. D., Assistant in Laryngology.
Frank Edward Wheatley, A. B., M. D., Assistant in Physiology.

Lecturers.

Louis Arkin, B. S., M. D., Lecturer in Laryngology.
Edward Alexander Ingham, B. S., Lecturer in Hygiene.
Walter Elmore Fernald, M. D., Clinical Lecturer in Mental Diseases.
Freeman Augustus Tower, A. B., M. D., Lecturer in Neuropathology.

MEDICAL LIBRARIES.

THE BOSTON CITY HOSPITAL LIBRARY.

This library building was opened March, 1892. It consists of a spacious reading room in which the Medical Staff holds its meetings, and examinations for Internes are held. There are about 3,600 bound volumes, made up of reference books and medical journals. The two other rooms contain the records,—the largest collection in Boston,—pamphlets and monographs.

It is a beautifully appointed library. Open to the Medical Staff and House Officers of the Boston City Hospital only. The arrangement of the records gives considerable credit to the Librarian,

Librarian in charge--Miss Power.

BOSTON MEDICAL LIBRARY.

Organized 1875. The object of this Association is to maintain a library of books, journals and pamphlets on medical and scientific subjects. All persons who may be approved by the committee on admissions are eligible to membership. The library is located at 8 Fenway, Boston. It is open daily, except Saturdays, Sundays and holidays, from 9.30 A. M. to 10 P. M. Saturdays until 6 P M., except during July, August and September, when it is open from 9.30 A. M. to 5 P. M. Saturdays until 12 noon.

President—George B. Shattuck, M. D.

Vice-Presidents—George H. Monks, M. D., Walter Channing, M. D., John W. Bartol, M. D.

Secretary—Walter L. Burrage, M. D.

Treasurer—Elisha Flagg, M. D.

Librarian—John W. Farlow, M. D.

Assistant Librarian—Mr. James F. Ballard.

Curator of Medical Medals—Malcolm Storer, M. D.

Library Curator—Edwin H. Brigham, M. D.

Committee on Library and Finance—The President, Secretary, Treasurer and Librarian, ex officiis; Robert B. Osgood, M. D., Richard G. Wadsworth, M. D., George S. Derby, M. D., Edward C. Streeter, M. D., John W. Cummin, M. D.

Committee on Medical and Social Meetings—William P.

Graves, M. D., Chairman; Channing Frothingham, Jr., M. D., Reginald Fitz, M. D.

Committee on Membership and Elections—Horace Binney, M. D., Chairman; John B. Hartwell, M. D., Channing C. Simmons, M. D., Theodore J. Eastman, M. D., Daniel F. Mahoney, M. D.

BOSTON PUBLIC LIBRARY.

Copley Square, Boston. It has about 30,000 medical books. The trustees have placed a deposit station at Boston Medical Library, and has transferred about 17,000 books (books not found at present in the Medical Library). Any physician can obtain these books on presenting a library card.

BOSTON UNIVERSITY SCHOOL OF MEDICINE.

The library of the school, upon the first floor of the new laboratory building, consists of the reading and book room, and the librarian's office. The former contains five thousand valuable volumes, including many important works of reference.

The reading room is supplied with the current numbers of from thirty to forty of the leading homeopathic and allopathic journals. Students have the use of the reading room during term time, from 9 A. M. until 5 P. M. daily. The librarian is in attendance every day except Saturday from 11 A. M. until 3.30 P. M. to loan books, and to assist the students in their work. There is a complete card catalogue of the books, and of a large number of valuable pamphlets and monographs.

The income of a legacy left by the late Dr. Harriet K. Hunt provides a number of text-books, some of which are loaned to women students by the term when desired.

HARVARD MEDICAL SCHOOL.

Medical School students who are engaged in research work may have access to the special libraries of the various departments on application to the persons in charge. These libraries are seven in number, consisting of three large combined departmental libraries in buildings B, C, and D, and four small separate departmental libraries in building E. The total number of books in all the libraries is 12,788, and of pamphlets 23,820. In addition 306 medical journals and society publications are taken, of which a few, however, are duplicates. The students have a small general medical library for their own use in their reading room in the Administration Building.

The College Library at Cambridge is open to the students of this School.

TREADWELL LIBRARY.

Massachusetts General Hospital. It contains 7,067 volumes, 3,706 pamphlets, and 77 periodicals, besides hospital records.

Grace W. Myers, Assistant Librarian.

TUFTS MEDICAL SCHOOL.

The library at the Medical School is open daily from 9.00 A. M. to 5.00 P. M., except Sundays and holidays. This library is intended to provide text-books for reference, and the latest editions of all text-books used in the school are furnished. These cannot be taken from the Reading Room. In addition, the library contains a large number of reference books in general medicine and general surgery, and in all special branches of each. These works are loaned to the student free of charge, and can be taken out. Complete files of various medical journals provide a valuable addition to the school library.

MEDICAL LABORATORIES.

BACTERIOLOGICAL LABORATORY OF THE BOSTON BOARD OF HEALTH.

Philip Castleman, M. D., Acting Director.

Examinations made. Any disease of a bacteriological nature and dangerous to public health will be examined free of charge.

Hours for Receiving Specimens.—Specimens are received at the laboratory daily throughout the year from 8.30 A. M. to 6 P. M., except Sundays and legal holidays, when the hours are from 8.30 A. M. to 10 A. M., and from 1.30 P. M. to 6 P. M. After these hours, and until 11 P. M., cultures may be sent, at the physician's expense, direct to Laboratory, and dropped through chute in the door into an incubator.

Transmission of Specimens.—Outfits for specimens for Tuberculosis, Diphtheria, Typhoid, Malaria and Ophthalmia Neanatorum are kept at certain drug stores appointed for the purpose, and known as "culture stations." The diphtheria outfit should be examined before leaving the culture station. If the serum is dry or liquified return the same as "not good," and ask for a fresh outfit. After the specimen is collected it may be taken or sent directly to the laboratory. If preferred, specimens from cases of Tuberculosis and Diphtheria may be returned to the station from which the outfits were obtained. They must not be mailed under any circumstances. If received at the culture station before its closing hour they are forwarded free to the laboratory the same day. Typhoid and Malaria specimens should not be left at the stations, but should be sent directly to the laboratory by mail. If special examinations are required the specimens should be sent by special messenger at the physician's expense, and the attention of the laboratory should be specifically called to the specimen at the time of its delivery.

Swab and Five-Hour Examinations in cases of Suspected Diphtheria.—When requested, the laboratory will examine during hours (9 A. M. to 5 P. M.; Saturdays, 9 A. M. to 12 M.; Sundays and holidays, 9 A. M. to 10 A. M.) the swabs from cases for diagnosis directly. In about 75 per cent. of the cases proving positive after the ordinary incubation, a positive diagnosis can be made from the swab without waiting for incubation, thus saving from fifteen to twenty-four hours. Cultures for diagnosis brought into the laboratory before 12 M. will, excepting on Saturdays, Sundays and holidays, be given a five-hour incubation, and if positive will be reported by telephone at about 5 P. M. In all cases the regular over-night incubation is made and the result reported.

Reports.—Early reports from the specimens submitted are of importance chiefly in the diphtheria diagnostic work. Everything else is subordinated to obtaining these results quickly. All positives for diagnosis, and all doubtful or unsatisfactory results where a second examination may be desirable, are reported to the physician by telephone when possible. Negative results for diagnosis, and cultures for release are not reported by telephone, except upon request. All results are reported to physicians by mail, whether telephoned or not.

The diphtheria results are usually available by 9.30 A. M., sputum and typhoid results by 11 A. M., and other examinations by 12 M. Telephone inquiries should not be made before these hours.

Persons Eligible for Examination.—Boston physicians may send specimens from patients resident within or outside of Boston. Physicians resident outside of Boston may send specimens from patients resident in Boston. When both physician and patient reside outside of Boston specimens should be sent to the State Board of Health, unless there is a local laboratory.

CULTURE STATIONS.

To insure free delivery at the laboratory the same day, specmens must reach the stations before the hours given below. After these hours, and until 11 P. M., cultures may be sent, at the physician's expense, direct to laboratory, and dropped through a chute in the door into an incubator.

City.

Laboratory, City Hall Annex, 11.00 P. M.
Boyajian's Pharmacy, 66 Harrison Avenue, 5.00 P. M.

Outfits for diphtheria, tuberculosis, typhoid, malaria and ophthalmia may be obtained at any of the above stations.

Diphtheria and tuberculosis specimens may be returned to the culture stations for transmisson to the laboratory. Typhoid, malaria and ophthalmia preparations must be forwarded by mail.

The stations in bold type are both City culture stations and (free) State antitoxin stations. The following are (free) antitoxin stations, but not culture stations.

Marvin, H. S., 2845 Washington Street, Roxbury; C. L. Brackett, Heath and Bromley Streets, Roxbury; K. J. Hart, 1100 and 1270 Dorchester Avenue, Dorchester; Sam'l Meadows, Washington and Bowdoin Streets, Dorchester; State Board of Health, 145 State House; R. Simpson, Hanover and Charter Streets, Boston.

NUTRITION LABORATORY OF THE CARNEGIE INSTITUTION OF WASHINGTON, D. C.

Vila Street, Boston. Tel. Brkl. 2035.
Director—Francis G. Benedict, Ph. D., D. Sc.

The researches are largely with normal individuals, studies being made of the fundamental laws of metabolism. Among the special researches have been an investigation on the metabolism of diabetics in co-operation with Dr. Elliott P. Joslin of Boston; an extensive study of the fasting metabolism with a subject who fasted for 31 days; and a research in co-operation with Dr. E. P. Cathcart of the University of Glasgow on the metabolism during muscular work with a professional bicyclist as subject riding a specially devised bicycle ergometer. Among other clinicians who have been interested in these researches are Dr. D. L. Edsall in respiration studies, Dr. F. B. Talbot on infant metabolism, Dr. J. H. Pratt on specific katabolic stimuli. Respiration studies in charge of Mr. T. M. Carpenter and Mr. H. L. Higgins have already given results of great clinical significance. The studies of the metabolism of diabetics and infants will probably be continued at nearby hospitals with respiration apparatus devised for the purpose in the Nutrition Laboratory.

◆

STATE BOARDS AND COMMISSIONS.

STATE BOARD OF CHARITY.

The following State institutions are under the supervision of the Board:—

The State Infirmary at Tewksbury; the State Farm at Bridgewater; The Lyman School for Boys at Westborough; The State Industrial School for Girls at Lancaster; The Mass. State Sanitorium at Rutland; and the Mass. Hospital School at Canton; Penikese Hospital (leper); Industrial School for Boys at Shirley; Rutland Sanatorium; Lakeville, North Reading and Westfield Hospitals for Tuberculosis; Norfolk State Hospital at Wrentham.

The Board, under a recent act, has to investigate all applications for new charitable corporations and report to the Secretary of State. It has also the right to inspect old charitable institutions and corporations.

Leontine Lincoln, Chairman; Miss Frances Greely Curtis, Charles H. Adams, David F. Tilley, Charles R. Johnson, Abraham C. Ratshesky, Jeffrey R. Brackett, Thomas Downey, Miss Mary A. Barr; Robert W. Kelso, Secretary; James E. Fee, Supt. State Minor Wards Division; Frank W. Goodhue, Supt. State Adult Poor Division.

MASSACHUSETTS STATE DEPARTMENT OF HEALTH.

Commissioner, Allan J. McLaughlin, M. D.

Division of Sanitary Engineering—Director, X. H. Goodnough.

Division of Communicable Diseases—Director, E. R. Kelley, M. D.

Division of Water and Sewage Laboratories—Director, H. W. Clark.

Division of Antitoxin and Vaccine Laboratories—Director and Pathologist, Milton J. Rosenau, M. D.

Division of Food and Drugs—Director, H. C. Lythgoe.

Public Health Council—Allan J. McLaughlin, M. D., Chairman; Wm. T. Sedgwick, Ph. D., George C. Whipple, Sc. B., Wm. J. Gallivan, M. D., David L. Edsall, M. D., Joseph E. Lamoureux, M. D.

Acts of 1914.

CHAPTER 792.

An Act to Create a State Department of Health and to Amend the Public Health Laws.

Be it enacted, etc., as follows:

Section 1. There is hereby created a State Department of Health which shall exercise all the powers and perform the duties now conferred and imposed by law upon the state board of health. The state department of health shall consist of a commissioner of health, and a public health council. There shall also be directors of divisions, district health officers and other employees as hereinafter provided.

Section 2. The commissioner of health shall be appointed by the governor, with the advice and consent of the council, and he shall be a physician skilled in sanitary science and experienced in public health administration. The term of office of the commissioner of health shall be five years. He shall receive an annual salary of seventy-five hundred dollars and shall devote his entire time to his official duties. The commissioner of health shall be the administrative head of the state department of health. His powers and duties shall be to administer the laws relative to health and sanitation and the regulations of the department; to prepare rules and regulations for the consideration of the public health council; and, with the approval of the public health council, to appoint and remove directors of divisions, district health officers, inspectors and other necessary employees, and to fix their compensation, subject to the approval of the governor and council, within the limitations of appropriations therefor. Directors of divisions and district health officers shall be exempt from civil service regulations. The commissioner of health shall submit annually to the public health council a report containing recommendations in regard to health legislation; and he shall perform all executive duties now required by law of the state board of health and such other duties as are incident to his position as chief executive officer. He may direct any executive officer or employee of the state department of health to assist in the study, suppression or prevention of disease in any part of the commonwealth.

Section 3. The public health council shall consist of the commissioner of health and six members, hereinafter called the appointive members, at least three of whom shall be physicians, and who shall be appointed by the governor, with the advice and consent of the council. Of the members first appointed, two shall hold office until the first day of May in the year nineteen hundred and fifteen, two until the first day of May in the year nineteen hundred and sixteen, and two until the first day of May in the year nineteen hundred and seventeen, and the terms of office of the said members thereafter appointed, except to fill vacancies, shall be three years. Vacancies shall be filled by appointment of the governor, with the advice and consent of the council, for the unexpired term. The public health council shall meet at least once in each month, and at such other times as they shall determine by their rules, or upon the request of any four members, or upon request of the commissioner of health. The appointive members shall receive ten dollars a day while in conference, and their necessary travelling expenses while in the performance of their official duties. It shall be the duty of the public health council to make and promulgate rules and regulations; to take evidence in appeals; to consider plans and appointments required by law; to hold hearings; to submit annually to the general court, through the governor, a report, including recommendations as to needed health legislation; and to discharge other duties required by law; but it shall have no administrative or executive functions.

Section 4. There shall be in the state department of health such divisions as the commissioner of health may, with the approval of the public health council, from time to time determine. The commissioner of health shall appoint and may remove, with the approval of the public health council, a director to take charge of each division, and shall prescribe the duties of such division. The compensation of directors of divisions shall be fixed by the commissioner of health, within the limits of appropriations therefor, and subject to the approval of the governor and council.

Section 5. The commissioner of health, with the approval of the public health council shall, from time to time, divide the state into eight health districts and shall appoint and may remove a district health officer for each district, with the approval of the public health council, at a compensation, subject to the approval of the governor and council, not exceeding thirty-five hundred dollars a year. The district health officers shall not engage in any other occupation and shall give their entire time to the performance of their duties. The commissioner of health may, from time to time, order two or more of said district health officers to work in one district in order to study, suppress or prevent disease. Each district health officer shall have all the powers and perform the duties now provided by law for inspectors of health, and further shall, under the direction of the commissioner of health, perform such duties as may be prescribed by, and shall act as the representative of the commissioner of health and under his directors shall secure the enforcement within his district of the public health laws and regulations. Said district health officers shall be graduates of an incorporated medical school admitted to practice in the commonwealth, or shall have had at least five years' experience in public health duties and sanitary science.

Section 6. For carrying out the purposes of this act there shall be appropriated for the purposes of the state department of health, over and above the amount already appropriated for the state board of health for the year nineteen hundred and fourteen, the sum of ten thousand dollars.

Section 7. Present employees shall be continued in office until their successors are appointed and qualified, or until removed by the commissioner; provided, however, that no employee shall be removed who was appointed, or is now employed, under the provisions of the civil service laws and regulations, other than for cause, except division heads and district health officers who shall be appointed as hereinbefore provided.

Section 8. Sections one, two and three of chapter seventy-five of the Revised Laws and all other acts and parts of acts inconsistent herewith are hereby repealed. [Approved July 7, 1914]

Pasteur Treatment.

Pasteur treatment is now administered in various parts of the State by physicians who are in the employ of the State Department of Health. The virus used is furnished by the Hygienic Laboratory of the United States Public Health Service, and is administered in accordance with their stipulations.

All cases of rabies are now required by law to be reported to the State Department of Health through the board of health of the city or town in which the case occurs, and every case of dog bite should be so reported for investigation.

If a dog or other animal shows suspicious symptoms of rabies, the fact should be reported immediately to the Department of Animal Industry so that an inspector of animals may be detailed to act promptly and effectively.

Circulars containing a description of the symptoms of rabies may be had upon application to the city or town clerk, to whom such circulars are supplied by the State Department of Health, as required by section 132 of chapter 102 of the Revised Laws.

When a dog or other animal shows symptoms of rabies it should be chloroformed or shot. If shot it should be done with a pistol and the bullet enter the forward part of the brain, or the heart; otherwise important regions for examination may be destroyed. The head should then be securely packed in sawdust and ice and shipped with all possible haste to a local laboratory for examination, or to the Department of Animal Industry, State House, Boston, Mass., and the said Department notified of such shipment. Avoid shipping so that the head will reach the State House on a Saturday afternoon or the afternoon before a holiday, and hold in cold storage.

Reportable Diseases.

The following diseases have been declared by the State Department of Health to be dangerous to the public health and so reportable by law. Householders and physicians must now give immediate notice to the local board of health of all cases of: Actinomycosis; Anterior Poliomyelitis; Anthrax; Asiatic Cholera; Cerebro-spinal Meningitis; Chicken Pox; Diphtheria; Dog-bite (requiring anti-rabic treatment); Dysentery (a) Amebic, (b) Bacillary; German Measles; Glanders; Hookworm Disease; Infectious Diseases of the Eye, (a) Ophthalmic Neonatorum, (b) Suppurative Conjunctivitis, (c) Trachoma; Leprosy; Malaria; Measles; Mumps; Pellagra; Plague; Rabies; Scarlet Fever; Septic Sore Throat; Smallpox; Tetanus; Trichinosis; Tuberculosis (all forms); Typhoid Fever; Typhus Fever; Whooping Cough; Yellow Fever.

STATE BOARD OF INSANITY OF MASSACHUSETTS.

Michael J. O'Meara, M. D., Chairman; L. Vernon Briggs, M. D., Secretary; Charles E. Ward, Treasurer; Lowell F. Wentworth, M. D., Deputy Executive Officer; William T. Hanson, M. D., Medical Inspector; A. Warren Stearns, M. D., Assistant; E. E. Southard, M. D., Pathologist; Myrtelle M. Canavan, M. D. Asst. Pathologist.

CHAPTER 762.

An Act Relative to the Organization and Powers of the State Board of Insanity.

Be it enacted, etc., as follows:

Section 1. The state board of insanity shall hereafter consist of three members, to be appointed by the governor, with the advice and consent of the council. Any member may be removed for cause in like manner. One member shall be designated by the governor as chairman, and one of the other two members shall be chosen by the board as secretary. All of the members of the board shall devote their whole time to the duties of the board. The chairman shall receive an annual salary of fifty-five hundred dollars, and each of the other members of the board shall receive an annual salary of five thousand dollars. At least one member of the board shall be an expert in all matters relating to insanity and to the care and treatment of the insane. Of the members of the board first appointed under this act one shall be appointed for a term of one year, one for a term of two years and one for a term of three years, and thereafter the members of the board shall be appointed for terms of three years. If a vacancy arises in the board it may be filled by the governor, with the advice and consent of the council, and the person so appointed shall hold office until the expiration of the term of the member whom he succeeded. The provisions of section twenty-one of chapter three of the Revised Laws shall not apply to appointments made hereunder. The powers and duties of the members of the present board, and their terms of office, shall cease upon the appointment and qualifications of the members herein provided for.

Section 2. The state board of insanity in addition to its present powers shall have the following powers and duties: It shall have charge of all insane, feeble-minded and epileptic persons and of persons addicted to the intemperate use of narcotics or stimulants, the care of whom is vested in the commonwealth by law, and of all institutions or buildings now or hereafter owned or maintained by the commonwealth for the care of such persons. But the board shall not have charge of the Norfolk State Hospital or of the Hospital Cottages for Children; and the powers and duties now pertaining to the state board of insanity in respect to the said two institutions shall hereinafter pertain to the state board of charity. The state board of insanity shall have supervision and control of any instituton which may hereafter be placed under its supervision and control by the governor with the advice and consent of the council. The board shall have the same powers relative to state charges in institutions or other places under its supervision and to their property as are vested in towns and overseers of the poor relative to paupers supported or relieved by towns.

Section 3. The board may appoint agents and subordinate officers, and may suspend or remove them, and fix their compensation: provided, that their compensation shall not exceed the appropriation made therefor by the general court; and provided, further, that no present officer or employee shall be suspended or removed except under the provisions of the civil service rules. The board shall make an annual report to the governor and council on or before the third Wednesday in January, the report being made up to and including the thirtieth day of November preceding. The report shall contain an accurate account of the receipts and expenditures for each separate institution, the market value of any products of any institution, and of the labor, if any, performed by the inmates; and it shall also contain an inventory of the property belonging to each institution on the said thirtieth day of November. The report shall also contain a classified and tabulated statement of the estimates of the board for the year ensuing, including the estimates for ordinary expenses and for any extraordinary expenses, and for the taking or purchase of any land, the construction, extension and repair of any buildings, and the improvement of any grounds. The report shall also contain a concise review of the work of the board for the year preceding, with such suggestions and recommendations and information relative to the said institutions and to the care of the persons therein as the board shall deem expedient. It shall also contain information embodying the experience of this country and other countries relative to the best and most successful methods of caring for such persons as come under the supervision of the board.

Section 4. If the board desires to apply to the general court for an appropriation exceeding two thousand dollars for any new building or for an addition to, or repairs of an existing building, or for the plumbing, heating, lighting, ventilating, furnishing or equipping of any building, it shall submit to the general court, not later than the third Wednesday in January, plans and specifications therefor and an estimate of the cost thereof. The expenses incurred for the preparation of working plans and specifications necessary to the preparation of such estimates shall be paid from the appropriations made by the general court. Should the general court fail to make an appropriation to carry out the purpose for which working plans and specifications were prepared, the expense of the same shall be paid from an appropriation made for the purpose. Nothing herein contained, however, shall be construed as relieving the board from complying with the provisions of section four of chapter seven hundred and nineteen of the acts of the year nineteen hundred and twelve. All work to be done by the inmates or by persons regularly employed at the institution shall be exempt from the provisions of this section. Any petition, bill or resolve presented to the general court for any such new construction or other expenditure as aforesaid at a later date than is above specified, or without compliance with the other provisions of this section, shall be referred to the next general court, unless it be admitted for immediate consideration under the rules governing new business after the expiration of the time limit for its introduction. If an appropriation is made by the general court for any such improvement as is above described at any institution under the control of the board, the board shall solicit bids for the performance of the work by advertising in such newspapers as the board may select and shall award the contract to the lowest responsible and eligible bidder; but no contract shall be awarded for a sum exceeding the appropriation available therefor.

Section 5. The board shall, subject to the approval of the governor and council, select the site of any new institution and any land to be taken or purchased by the commonwealth for the purposes of any new or existing institution under its supervision. The board shall have charge of the construction of any new building at any institution now or hereafter placed under its supervision, and shall determine the design thereof, and for this purpose may employ such architects and other experts or may hold such competitions for plans and designs as the board may deem expedient, unless the general court shall otherwise provide. In case any land or other property is taken or purchased by the board, title shall be taken in the name of the commonwealth.

Section 6. The trustees shall appoint a superintendent for each institution, with the approval of the board, who shall be a physician and who shall constantly reside at the institution. The trustees shall also appoint a treasurer for each institution, with the approval of the board, who shall give bond for the faithful performance of his duties. Assistant physicians, one of whom in each institution for the insane in which women are received as patients and in which more than two assistant physicians are employed shall be a woman, shall be appointed by the superintendent, subject to the approval of the board. The superintendent shall also appoint, subject to the approval of the board, such subordinate officers and may employ such other persons as may be necessary, with the approval of the board. The board shall make provision in its by-laws or otherwise for the appointment of such officers in each institution as it may deem necessary for the efficient, economical and humane management of the same, and shall determine, subject to the approval of the governor and council, the salaries of all the officers. The superintendent and assistant physicians at the Westborough state hospital shall belong to the homoeopathic school of medicine. The board shall also establish by-laws and regulations, with suitable penalties, for the government of the said institutions, and shall provide for a monthly inspection and trial of the fire apparatus belonging to the institutions and for the proper organization and monthly drill of the officers and employees in its use.

Section 7. The board shall have power to license private houses and hospitals for the care and treatment of the insane, epileptics, feeble-minded and persons addicted to the intemperate use of narcoties and stimulants, and may at any time revoke such a license. No such license shall be granted unless the board is satisfied that the person applying therefor is a duly qualified physician, as provided in section thirty-two of chapter five hundred and four of the acts of the year nineteen hundred and nine, and has had practical experience in the care and treatment of such patients. Any person owning or maintaining such a hospital or private house on the sixteenth day of June in the year nineteen hundred and nine shall be entitled to maintain the same under the provisions of law in force at that time, except that every such hospital or house shall be subject to the visitation and supervision of the board, its officers and agents. Any license granted heretofore under the provisions of section twenty-four of said chapter five hundred and four shall be valid, subject to revocation by the board. Licenses hereafter granted shall expire with the last day of the calendar year in which they are issued, but may be renewed. The board shall have power to fix reasonable fees for the said licenses and for renewals thereof. Whoever establishes or keeps such a hospital or private house without a license, unless otherwise authorized by law, shall forfeit a sum not exceeding five hundred dollars.

Section 8. The various boards of trustees established by general or special law for institutions maintained by the commonwealth for the care of the insane, feeble-minded, epileptics and dipsomaniacs, except the Norfolk State Hospital and the Hospital Cottages for Children, shall have the following powers and duties:—

a. They shall, except as is otherwise provided in this act, retain all powers and duties now conferred or imposed upon them by law, and shall maintain an effective and proper inspection of their respective institutions, and shall from time to time make suggestions to the state board of insanity as to improvements therein, and especially such improvements as will make the administration thereof more effective, economical and humane.

b. The trustees of each institution shall ascertain by actual examination and inquiry, and shall report to the state board of insanity, whether commitments to the institution are made according to law, and whether the affairs of the institution are conducted according to law and according to the rules and regulations established by the board.

c. There shall be thorough visitations of each institution by two of the trustees thereof at least once in two weeks, and by a majority of them quarterly, and by the whole board semi-annually; and after each of such visits a written account of the condition of the institution shall forthwith be transmitted to the state board of insanity.

d. They shall carefully inspect every part of the institution as a board or by committees at least once in two weeks with reference to cleanliness and sanitary condition, the number of persons in seclusion or restraint, dietary matters, and any other matters that may be considered worthy of observation.

e. The trustees shall investigate every sudden death, accident or injury, whether self-inflicted or otherwise, and send a report of the same to the board.

f. All trustees shall have free access to all books, records and accounts pertaining to their respective institutions, and shall be admitted at all times to the buildings and premises thereof.

g. They shall keep a record of their doings, and shall record their visits to the institution in a book kept at the institution for that purpose.

h. They shall personally hear and investigate the complaints and requests of any inmates, officers or employees of the institution, and shall, if they deem the matter of sufficient importance, make written reports to the state board of insanity of their determination of what, if anything, ought to be done in the matter.

i. They shall have power at any time to cause the superintendent or any officer or employee of the institution to appear before them and to answer any questions or to produce any books or documents relative to the institution.

j. The plans and specifications for the construction or substantial alteration of buildings, the site of any new building, the proposed taking or purchase of any new land, and plans for the grading of grounds or other substantial improvements at the institutions of which they are trustees shall be submitted to them, and they shall report thereon to the board within such reasonable time as the board shall fix, and no land shall be taken or purchased, no new buildings shall be constructed, and no substantial changes made in existing buildings or grounds until the opinion of the trustees thereon has been transmitted, as aforesaid, to the state board of insanity, or until the time fixed therefor, as above provided, shall have expired.

Section 9. Sections two, three, four, five, seven, eight, ten, eighteen, nineteen, twenty, twenty-four and twenty-five of chapter five hundred and four of the acts of the year nineteen hundred and nine, and so much of any other section of said act, or of any other act as is inconsistent herewith, are hereby repealed; but this repeal shall not affect any suit or other proceeding now pending. So much of chapter five hundred and twenty of the acts of the year nineteen hundred and seven and of any amendment thereof as relates to any institution under the direction of the state board of insanity is also hereby repealed.

Section 10. This act shall take effect on the first day of August in the current year. [Approved July 7, 1914.]

Training Course for the State Hospital Service.

A course for the training of physicians for State Hospital physicians has been arranged at the Psycopathic Department of the Boston State Hospital.

The training courses begin on the first week days of successive quarters,—October, January, April and July,—as well as at such irregular times as may be arranged.

Courses of briefer or longer duration may be arranged to fit the previous training of candidates.

Certificates of proficiency will be issued to those meeting requirements. The following is the outline of the course:

Special periods, six of a fortnight each.

First period—Admission of patients under direction; laws of the commonwealth touching insanity; ward notes on assigned patients; night service as assigned.

Second period—Admission of patients; clinical history-taking, house and out-patient service; intelligence-tests (Binet-Simon, Yerkes, etc.); general mental examinations.

Third period—Ophthalmoscopic work; clinicopathological work (blood, urine, feces, stomach contents, etc.); blood pressure; physiological tests (electric sensitivity, etc.).

Fourth period—Methods of laboratory diagnosis of organic disease; method of obtaining serum and cerebrospinal fluid;

principles of Wassermann method, colloidal gold test, etc.; cytology of cerebrospinal fluid. (The laboratory instruction will be given with a view to its value in routine hospital work.)

Fifth and sixth periods—Regular staff work.

The candidates for position of assistant physicians will be termed internes, and will be lodged and boarded free at the Psychopathic Hospital, so far as accommodations permit.

The Director of the Psychopathic Hospital may, with the consent and approval of the Board, terminate a candidate's training at any point.

Advanced Course for Partly Trained Physicians.

General—Attendance at daily staff-rounds, 8 to 9 A. M.; attendance at daily clinical conferences, 12 M. to 1 P. M.; attendance at weekly mental welfare conference.

Out-patient department—Attendance at autopsies; library work and journal reviewing, as assigned; notes on work of rounds, conferences and other exercises, as assigned.

The following named institutions are now open to both relatives and friends of patients and to the public on every day of the week:—

Danvers Hospital, Medfield Hospital, Gardner Colony, Foxborough Hospital, Monson Hospital.

The institutions named below are open to relatives and friends of patients every day of the week, and to the public on week days:—

Worcester Hospital, Taunton Hospital, Northampton Hospital, Boston Hospital, Worcester Asylum, State Infirmary, Bridgewater Hospital, Massachusetts School for the Feebleminded, Wrentham School.

In addition to the above, the Westborough Hospital is now open to relatives, friends and the public every week day, and visiting is allowed at the hospital on Sundays by obtaining written permission.

MASSACHUSETTS BOARD OF REGISTRATION IN MEDICINE.

Organized July, 1894. Office, 1 Beacon St., Boston.

Applicants are admitted to examinations by an "examination ticket," showing the date of the examination and the holder's number, which are issued when applications are filed. Rejected applicants entitled to a re-examination are given tickets if applied for not later than five days before the examination date. Examinations are conducted in the English language only.

In the examinations held this year the Board has made a beginning in conducting them along the lines of practical work in microscopy, in the laboratory and in demonstrations on the manikin. A mixed examination, written, oral and practical, is best calculated to insure an actual test of one's qualifications to enter upon the practice of medicine. Such an examination shows not only what one knows, but what he can do. It also brings to the front the weak points in medical schools which still cling principally to the old system of lecture-room instruction.

Examinations are held on the second Tuesday in March, July and November. Special examinations have been held this year in May and September, as in previous years.

The time devoted to each examination is three days. The questions are grouped in seven sets, and the answers are rated on a scale of 0 to 100. When general averages fall below 75 per centum, examinations are classed unsatisfactory.

The questions are intended to be practical, and to cover substantially the instruction in the high-grade medical schools in this country. The subjects on which the examinations are principally conducted are anatomy and histology, physiology and hygiene, pathology and bacteriology, surgery, obstetrics and gynaecology, diagnosis and therapeutics, and pediatrics and toxicology.

Applicants who furnish satisfactory evidence of having conducted a reputable practice for ten years or more are frequently admitted to an examanination largely oral. It is the opinion of the Board that such an examination for old practitioners is best adapted to meet the requirements of the law, and is far more likely to be just to them.

Until within a few years the Board admitted applicants who had received their medical training in foreign schools, and who could neither speak nor write the English language. Such applicants were allowed to write their papers in their own language, on condition that they would pay the cost of translations secured by the Board for the purpose of rating; but there being some doubt as to the legality of examinations conducted in this manner, the opinion of the Attorney-General of the Commonwealth was requested. His opinion being adverse to such procedure, only those who can speak and write English are admitted.

Law Relating to Registration of Physicians in Massachusetts.

(Revised Laws, Chapter 76, Sections 1-9.)

Section 1. There shall be a board of registration in medicine consisting of seven persons, residents of this commonwealth, who shall be graduates of a legally chartered medical college or university having the power to confer degrees in medicine, and who shall have been for ten years actively employed in the practice of their profession. No member of said board shall belong to the faculty of any medical college or university, and no more than three members thereof shall at one time be members of any one chartered state medical society. One member thereof shall annually in June be appointed by the governor, with the advice and consent of the council, for a term of seven years from the first day of July following.

Section 2. Said board shall hold regular meetings on the second Tuesday of March, July and November of each year, and additional meetings at such times and places as it may determine. At the regular meeting in July, it shall organize by the choice of a chairman and secretary who shall hold their offices for the term of one year. The secretary shall give a bond to the treasurer and receiver-general in the penal sum of five thousand dollars, with sufficient sureties to be approved by the governor and council, for the faithful performance of his official duties.

Section 3. Applications for registration shall be made upon blanks to be furnished by the board, and shall be signed and sworn to by the applicants. Each applicant for registration shall furnish satisfactory proof that he is twenty-one years of age or over and of good moral character and, upon payment of a fee of twenty dollars, shall be examined by said board. If he is found by four or more members thereof to be twenty-one years of age or over, of good moral character and qualified, he shall be registered as a qualified physician and shall receive a certificate thereof signed by the chairman and secretary. An applicant who fails to pass an examination satisfactory to the board, and is therefore refused registration, shall be entitled within one year after such refusal to a re-examination at a meeting of the board called for the examination of applicants, without the payment of an additional fee; but two such re-examinations shall exhaust his privilege under his original application. Said board, after hearing, may by unanimous vote revoke any certificate issued by it and cancel the registration of any physician who has been convicted of a felony or of any crime in the practice of his profession. All fees received by the board shall, once in each month, be paid by its secretary into the treasury of the commonwealth.

Section 6. The board shall investigate all complaints of the violation of the provisions of section eight, and report the same to the proper prosecuting officers.

Section 7. Examinations shall be wholly or in part in writing in the English language, and shall be of a scientific and practical character. They shall include the subjects of anatomy, surgery, physiology, pathology, obstetrics, gynaecology, practice of medicine and hygiene, and shall be sufficiently thorough to test the applicant's fitness to practise medicine.

Section 8. Whoever, not being lawfully authorized to practise medicine within this commonwealth and registered as aforesaid, holds himself out as a practitioner of medicine, or practises or attempts to practise medicine in any of its branches, or whoever practises medicine or surgery under a false or assumed name, or under a name other than that by which he is registered, or whoever personates another practitioner of a like or different name, shall, for each offence, be punished by a fine of not less than one hundred nor more than five hundred dollars, or by imprisonment for three months. or by both such fine and imprisonment. In a case in which a provision of this or the preceding section has been violated, the person who committed the violation shall not recover compensation for services rendered.

Section 9. The provisions of the preceeding sections shall not be held to discriminate against any particular school or system of medicine, to prohibit medical or surgical service in a case of emergency or to prohibit the domestic administration of family remedies. They shall not apply to a commissioned medical officer of the United States army, navy or marine hospital service in the performance of his official duty; to a physician or surgeon from another state who is a legal practitioner in the state in which he resides, when in actual consultation with a legal practitioner of this commonwealth; to a physician or surgeon residing in another state and legally qualified to practise therein, whose general practice extends into the border towns of this commonwealth, if such physician does not open an office or designate a place in such towns where he may meet patients or receive calls; to a physician authorized to practise medicine in another state when he is called as the family physician to attend a person temporarily abiding in this commonwealth; nor to registered pharmacists in prescribing gratuitously, osteopathists, pharmacists, clairvoyants, or persons practising hypnotism, magnetic healing, mind cure, massage, Christian science or cosmopathic method of healing, if they do not violate any of the provisions of section eight.

Officers.

Samuel H. Calderwood, M. D., Chairman; Walter P. Bowers, M. D., Secretary; Augustus L. Chase, M. D.; Charles H. Cook, M. D.; Matthew T. Mayes, M. D.; Nathaniel R. Perkins, M. D.; George L. Richards, M. D.

Surgical Board.

Consulting Ophthalmic Surgeons—H. Beckles Chandler, M. D., Myles Standish, M. D., Henry W. Bradford, M. D., B. Joy Jeffries, M. D., Edwin E. Jack, M. D.

Consulting Aural Surgeons—J. Orne Green, M. D., Clarence J. Blake, M. D., Edward M. Plummer, M. D.

Ophthalmic Chief of Service—Alexander Quackenboss, M. D.

Aural Chiefs of Service—Frederick L. Jack, M. D., Eugene A. Crockett, M. D.

Ophthalmic Surgeons—Henry H. Haskell, M. D., Fred M. Spalding, M. D., A. Gardner Morse, M. D., Frederick H. Verhoeff, M. D., Peter H. Thompson, M. D., George S. Derby, M. D.

Aural Surgeons—Philip Hammond, M. D., D. Harold Walker, M. D., Harris P. Mosher, M. D., William F. Knowles, M. D.

Assistant Ophthalmic Surgeons—Charles D. Jones, M. D., Samuel J. McDonald, M. D., W. Holbrook Lowell, M. D., George H. Ryder, M. D., Edward K. Ellis, M. D., P. Somers Smyth, M. D., William N. Soutter, M. D., Walter B. Lancaster, M. D.

Assistant Aural Surgeons—George H. Powers, Jr., M. D., George L. Tobey, Jr., M. D., Francis P. Emerson, M. D., Leon E. White, M. D., Calvin B. Faunce, Jr., M. D., Frederick L. Bogan, M. D., Dana W. Drury, M. D., John H. Blodgett, M. D.

Ophthalmic Clinical Assistants—Ralph A. Hatch, M. D., Henry Hawkins, M. D., Henry G. Carroll, M. D., Edward M. Murphy, M. D., William Liebman, M. D., Roland C. Mackenzie, M. D., Harold B. Chandler, M. D.

Aural Clinical Assistants—John L. Lougee, M. D., D. Campbell Smyth, M. D., Oliver A. Lothrop, M. D., Robert J. Kissock, M. D., Franklin Campbell, M. D., Harry P. Cahill, M. D., William Young.

Pathologist—Frederick H. Verhoeff, M. D.

Consulting Neurologist to Aural Department—George A. Waterman, M. D.

Consulting Surgeons—Samuel J. Mixter, M. D., Lincoln Davis, M. D.

Consulting Physicians—Theodore J. Eastman, M. D., Charles W. Townsend, M. D., Gerald Blake, M. D.

Visiting Physician to the Gardner Building—Richard S. Eustis, M. D.

Consulting Anaesthetist—Arthur M. Dodge, M. D.

Roentgenologist—William Liebman, M. D.

Refractionists—Roland C. Mackenzie, M. D., Harold B. Chandler, M. D.

Superintendent—F. A. Washburn, M. D.

House Staff.

Ophthalmic House Surgeons—Albert G. McAuley, M. D., Thomas F. Capeles, M. D., Armand A. Halliday, M. D.

Aural House Surgeons—Clifford B. Walker, M. D., Harold G. Tobey, M. D., Charles T. Porter, M. D.

THE MASSACHUSETTS GENERAL HOSPITAL.

Founded 1811. Blossom St., Boston. Tel., Haymarket 390. Capacity, 333 beds.

Admits persons of any race or creed suffering from acute non-contagious diseases. Only those unable to pay doctors' fee are taken in. Recent accidents are admitted at all hours.

Applications for cases not emergencies should be made in writing, accompanied by a full description of the case by the attending physician, with reason of the physician for thinking hospital treatment desirable, and when a free bed is needed, by a statement of the pecuniary condition of the patient. Always wait for a reply before sending the patient.

Patients in open ward pay $15.00 per week. There is a dressing fee for surgical cases. Private rooms are $28.00 to $42.00 per week.

Visiting hours are from 2 to 3 every day.

Trustees—Henry P. Walcott, M. D. (Chairman), Francis Henry Appleton, Charles H. W. Foster, Charles P. Greenough, David P. Kimball, George Wigglesworth, Moses Williams, John Lowell, Nathaniel T. Kidder, Joseph H. O'Neil, Mrs. Horatio N. Slater, Philip L. Saltonstall.

Resident Physician and Administrator—Frederic A. Washburn, M. D.

Assistant Dermatologists—E. Lawrence Oliver, M. D., John H. Bufford, M. D.

Assistant—J. Harper Blaisdell, M. D.

Neurological Department.

Chief of Service—Edward W. Taylor, M. D.

Neurologists—Walter E. Paul, M. D., George A. Waterman, M. D.

Assistant Neurologists—James B. Ayer, M. D., George Clymer, M. D.

Assistants—Frederic B. M. Cady, M. D., James S. Van Teslaar, M. D.

Psychologist—L. Eugene Emerson, Ph.D.

Laryngological Department.

Chief of Service—Algernon Coolidge, M. D.

Laryngologists—J. Payson Clark, M. D., Harris P. Mosher, M. D.

Associate Laryngologist—D. Crosby Greene, Jr., M. D.

Assistant Laryngologists—William F. Knowles, M. D., Harry A. Barnes, M. D., Chandler Robbins, M. D., Frederick E. Garland, M. D.

Dentist—George H. Wright, D. M. D.

Otologist—D. Harold Walker, M. D.

Assistant Otologist—Oliver A. Lothrop, M. D.

Ophthalmologist—Alexander Quackenboss, M. D.

Assistant Ophthalmologist—Robert G. Loring, M. D.

Obstetrician—Franklin S. Newell, M. D.

Pathological Department.

Pathologist—J. Homer Wright, M. D.

Surgical Pathologist—William F. Whitney, M. D.

Assistant Pathologist—Oscar Richardson, M. D.

Assistant Surgical Pathologist—Harry F. Hartwell, M. D.

Chemist—Otto Folin, Ph. D.

Assistant Chemist—Willey Denis, Ph.D.

Assistant in Clinical Bacteriology—Albert E. Steele, M. D.

Roentgenologist—Walter J. Dodd, M. D.

Assistant Roentgenologist—George W. Holmes, M. D.

Surgeon in Charge of Medico-Mechanical and Hydrotherapeutic Rooms—C. Hermann Bucholz, M. D.

Assistant to Surgeon in Charge Medico-Mechanical Room—Lewis P. Felch, M. D.

Dentist—Leroy M. S. Miner, M. D., D. M. D.

Assistant Dentists—Joseph A. Ring, D. M. D., John A. Breen, D. M. D.

Out-Patient Dentists—Henry J. Skinner, D. M. D., Edward M. Guthrie, D. M. D., Lawrence E. McGourty, D. M. D., Chester F. Wolfe, D. M. D., Charles W. Ringer, D. M. D., Tullio N. Bello, D. M. D.

The hospital has at its disposal two Dalton Scholarships, with an annual income of $500 each, devoted to investigation in the science of medicine.

Candidates are nominated to the Board of Trustees by a Committee with recommendations for the information of the Board.

They are either Internes of the General Hospital or male graduates of a regular American Medical College. The nature of the work in medical investigation proposed to be prosecuted by each candidate is designated.

The Out-Patient Department, in Fruit Street, is open daily, except Sundays and holidays, between 8.30 and 10 A. M., for the treatment of the poor only. If a physician has been employed, a letter from him is necessary.

"Ether Day" has been celebrated on the 16th of October for the last few years, and it will undoubtedly remain a fixed holiday of the institution.

There is a training school for nurses connected with the hospital.

Convalescent Hospital, Waverley.

Thirty-six beds. Superintendent, Frederic A. Washburn, M. D., Resident Physician Massachusetts General Hospital.

MASSACHUSETTS HOME AND LONGWOOD HOSPITAL.

Templeton Colony for the Feeble Minded is located in Templeton, three miles from Baldwinville.

MASSACHUSETTS STATE INFIRMARY.

Tewksbury, Mass.

Established in May, 1852, as the State Almshouse. On Act of the Legislature, to State Hospital. By the Acts of 1909 the name was again changed to State Infirmary.

The first Hospital for Consumptive Men was opened in 1900. Prior to this, the patients, with the exception of a few small wards, were all housed in very large wards and dormitories, containing fifty or more patients each, and the consumptives were separate as far as was possible, but yet were of necessity moving in and out around the other patients much of the time.

The management is vested in a Board of seven Trustees appointed by the Governor. The State Board of Charity and the State Board of Insanity have supervisory powers over their respective departments.

The function of the State Infirmary is to care for those indigent persons, sick, feeble or in distress, within its Commonwealth, who have no legal residence in any of its cities and towns.

It is supported by yearly appropriations by the State Legislature, and all expenses are paid by the State Treasurer. No charges for board or treatment are made by the Hospital.

The admission to the Hospital is obtained by application to the local Overseers of the Poor, who are empowered to issue permits for admission, or by the State Board of Charity, or by a transfer by the State Board of Insanity in cases of insane patients.

The patients in the State Infirmary are classified and cared for in departments as follows: Department for the Insane, capacity 700; General Hospital Department, capacity 600; House Department, capacity 800; Hospital for Consumptives, capacity 300; Total, 2400.

The visiting hours are from 10 o'clock until 4 o'clock every day except Sundays and holidays.

Trustees—John B. Tivnan (Chairman), Leonard Huntress, M. D., Mrs. Helen R. Smith, Galen L. Stone, Mrs. Nellie E. Talbot, (Secretary), Francis W. Anthony, M. D., Walter F. Dearborn, M. D.

Superintendent and Resident Physician—John H. Nichols, M. D.

Assistant Superintendent and Physician—George A. Peirce, M. D.

Assistant Physicians—Howard F. Holmes, M. D., Alfred J. Roach, M. D., Harry R. Coburn, M. D., Sherman Perry, M. D., Howard K. Tuttle, M. D., George McL. Waldie, M. D., Earl C.

Willoughby, M. D., John C. Lindsay, M. D., Hattie E. Chalmers, M. D., Charles W. DeWolf, M. D., Thomas H. Odeneal, M. D., C. Stanley Raymond, M. D., Mabel C. Raymond, M. D., Marie S. Lindsay, M. D.

Consulting Board of Physicians and Surgeons—James J. Putnam, M. D., Charles M. Green, M. D., John M. Gile, M. D., Joe V. Meigs, M. D., Hardy Phippen, M. D., Harvey P. Towle, M. D., Frederick E. Cheney, M. D., Walter E. Paul, M. D., Arthur K. Stone, M. D.

There is a training school for nurses at this Hospital and a regular course of study is followed.

MASSACHUSETTS WOMEN'S HOSPITAL.

Founded 1889. 53 Parker Hill Avenue, Roxbury. Tel. Brookline 179.

Hospital Staff—Dr. Charles Hare, Dr. Warren F. Gay, Dr. Sarah E. Palmer, Dr. Edith M. Brooks.

Consulting Surgeons—Dr. W. M. Conant, Dr. F. W. Johnson.

Consulting Physician—Dr. Horace D. Arnold.

Pathologist—Dr. T. Leary.

Resident Physician—Dr. Edith M. Brooks.

McCREIGHT HOME SANITARIUM.

Established 1900. 58 Bowdoin Ave., Dorchester. Tel. Dor. 83. Cares for aged people and chronic invalids. 25 beds. Terms from $10 to $25 per week. Special terms to persons of limited means. Visiting hours, 1.30 to 4.30 P. M. daily, except Fridays.

McLEAN HOSPITAL.

Founded 1818. Waverley, Mass. Tel. Belmont 105.

Its purpose is the care and treatment of the insane. Capacity, 220 beds.

The hospital is devoted to the care and treatment of insane. Cases of epilepsy, alcohol and drug habits are not admitted. The patients received are committed in the regular way by a Judge, or if their mental condition is such as to make it legal, they are received voluntarily upon their own request in writing.

The rates, based on the expense to the hospital, vary from $25 to $100 per week. A reduction from the lowest rate is often made by the Trustees for deserving cases.

The medical staff is a resident one and the patients are constantly under observation. Friends of patients are allowed to visit them on any week day between the hours for meals.

Medical Staff.

Medical Superintendent—George T. Tuttle, M. D.
First Assistant Physician—Frederic H. Packard, M. D.
Second Assistant Physician—Theodore A. Hoch, M. D.
Pathologist and Assistant Physician—E. S. Abbott, M. D.
Assistant in Pathological Psychology—F. Lyman Wells, Ph.D.
Assistant in Pathological Chemistry—Charles C. Erdmann, A. B.
Junior Assistant Physician—Clarence M. Kelly, M. D.

MEDFIELD STATE HOSPITAL.

Medfield, Mass. Post Office, Harding.

Trustees—Nellie B. Palmer, Walter Rapp (Chairman), David Kasanof, Sarah J. Rand (Secretary), Dr. George O. Clark, Dr. Albert Evans.

Superintendent—Edward French, M. D.

MEDICAL MISSION DISPENSARY.

Opened 1894. 36 Hull St., Boston.

Medical Staff—A. T. Dalrymple, M. D., A. W. Horr, M. D., A. G. Howard, M. D. (Chairman), C. E. Montague, M. D., A. H. Powers, M. D., T. M. Strong, M. D., D. G. Wilcox, M. D., S. H. Blodgett, M. D., G. C. Moore, M. D., J. MacMillan, M. D., Chas. Henkin, M. D., R. O. Dodge, M. D., J. J. Anderson, M. D.

MELROSE HOSPITAL.

Founded 1893. 75 Myrtle Street, Melrose. Tel. Melrose 45.

Its purpose is to maintain a hospital for the treatment and care of sick and disabled persons of both sexes. Thirty beds.

DR. MELLUS PRIVATE HOSPITAL.

419 Waverly Avenue, Newton. Tel. N. N. 1110-W. Private. For mental diseases.

Physicians—Edward Mellus, M. D., Florence H. Abbot, M. D.

THE METCALF HOSPITAL.

Fifteen beds. Surgical and Obstetrical. 174 Winthrop St., Winthrop. B. H. Metcalf, M. D., Surgeon-in-Chief.

THE MILTON CONVALESCENT HOME.

Organized 1905. 101 Edge Hill Road, East Milton. Nine beds.

Directors.—Rev. Roderick Stebbins, President; Miss Helen L. Jaques, Treasurer; Miss M. L. Richardson, Secretary; Dr. M. V. Pierce, Mrs. H. M. Russell, Miss Harriet Ware, Miss Susan Brockenshire, Mrs. Herbert M. Tucker, Mr. Nathaniel H. Stone, Mr. Thomas Nelson Perkins, Mr. Philip P. Chase; Miss Ellen J. O'Brien, Matron.

THE MILTON HOSPITAL.

Organized 1905. Edge Hill Road, Milton. Nine beds.

Staff Visiting Physicians.—M. V. Pierce, M. D., W. C. Kite, M. D., W. A. Lane, M. D.

MONSON STATE HOSPITAL.

Palmer, Mass.

Trustees—William N. Bullard, M. D. (Chairman), Boston; Mabel W. Stedman, Brookline; Henry P. Jaques, M. D., Lenox; Mary B. Townsley, Secretary, Springfield; John Bapst Blake, M. D., Boston; Michael I. Shea, M. D., Chicopee Falls; George A. Moore, M. D., Palmer.

Resident Officers—Everett Flood, M. D., Superintendent; Morgan B. Hodskins, M. D., Ransom A. Greene, M. D., George E. King, M. D., Donald J. MacLean, M. D., Erwin S. Bundy, M. D., Assistant Physicians; Helen Taft Cleaves, M. D., Assistant Physician in charge of Children's Colony; Douglas A. Thom, M. D., Assistant Physician and Pathologist.

MT. SINAI HOSPITAL.

Organized 1902. 17 Staniford Street, Boston. Tel. Haymarket 750.

It holds 16 clinics. Hrs. 9-11 A. M. daily, except Sundays and holidays. It is charitable and non-sectarian.

Resident Officers.

Superintendent—Irwin H. Neff, M. D.

Assistant Superintendent—Frank H. Carlisle, M. D.

Assistant Physician—Frederick P. Moore, M. D.

Out Patient Department, 3 Fayette St., Boston. Tel. Oxford 5541. Hrs. 9-12 daily except Monday. S. H. Rubin, M. D., in charge.

NORTHAMPTON STATE HOSPITAL.

Opened 1858. Northampton. For care of insane. Capacity, 900 patients. Visiting days, Tuesdays and Fridays.

Trustees—H. L. Williams, Chairman, Northampton; Charles S. Shattuck, Hatfield; Joseph W. Stevens, Secretary, Greenfield; Emily W. Newton, Holyoke; Caroline A. Yale, Northampton; Luke Corcoran, M. D., Springfield; John McQuaid, Pittsfield.

Superintendent—John A. Houston, M. D.

Assistant Physicians—Edward C. Greene, M. D., B. Angela Bober, M. D., Arthur N. Ball, M. D., Geraldine Oakley, M. D., Jean MacLean, M. D.

Physician to Out-Patient Department—Harriet M. Whitney, M. D.

PENIKESE HOSPITAL.

Superintendent—Frank H. Parker, M. D.

Resident Physician—James J. Honeij, M. D.

This hospital is under the supervision of the State Board of Charity, and is a Leper Island, for the treatment of lepers in the State of Massachusetts.

PRENDERGAST CAMP FOR MEN.

Corner of Harvard and Ashland Streets, Mattapan. Open to patients awaiting admission to a sanatorium. Arrested cases, whether working or not. Suitable surgical cases and other selected cases. A Boston residence is not necessary for admission.

The Prendergast Camp is in the Mattapan District of Boston. There are twenty acres of land with a southern exposure, well protected on the north. The Camp is reached by the Milton car in fifteen minutes from the Forest Hills Terminal. The fare from Boston is five cents. The buildings consist of an open shack with twelve cubicles, each containing a bed, a bureau, and a closet. There are toilet-rooms and shower-baths and a dining and sitting room, well warmed by steam heat and lighted by electricity.

The Association has fixed the price of board at $8.00 a week. There is no physician in attendance. Patients remain under the care of the hospital or physician referring the case to the Camp, going to Boston to consult the physician. Patients from outside of Boston can be placed under the care of some hospital or physician in Boston while at the Camp. An experienced physician in the neighborhood can be called for emergencies. All patients must be well enough to be up and dressed all day.

Applications for admission should be made by mail or in person to the Boston Association for the Relief and Control of Tuberculosis, Seymour H. Stone, Secretary, 4 Joy Street, Boston.

QUINCY CITY HOSPITAL.

Incorporated 1889. Quincy, Mass. Tel. Quincy 753.

It is intended for a free hospital. Inability to pay does not debar any resident of Quincy from its benefits. Patients able to pay are charged daily or weekly sum as determined by the Executive Committee.

When possible patients are treated by the school of medicine they prefer.

Patients may be visited by their friends daily between 3 and 4 P. M.

Medical Staff (Regular School)—D. A. Bruce, M. D., F. R. Burke, M. D., G. M. Sheahan, M. D., J. F. Welch, M. D., F. E. Jones. M. D., W. L. Sargent, M. D., D. B. Reardon, M. D., W. J. McCausland, M. D., T. J. Dion, M. D., N. S. Hunting, M. D.

Consulting Physician—Dr. J. F. Welch.

Consulting Surgeons—Dr. J. A. Gordon, Dr. N. S. Hunting.

Pathologist and Bacteriologist—Dr. George M. Sheahan.

Anaesthetist—Dr. D. B. Reardon.

Consulting Neurologist—Dr. J. J. Thomas.

Special Consulting Physician—Dr. Herman F. Vickery.

Special Consulting Surgeons—Dr. Fred B. Lund, Dr. Edward H. Nichols.

Consulting Specialist on Diseases of the Eye—Dr. George H. Ryder.

Consulting Specialist on Diseases of the Ear, Nose and Throat—Dr. George H. Powers, Jr.

Special Consulting Gynaecologist—Dr. Edward Garceau.

Special Consulting Radio-Therapeutist—S. Ellsworth, M. D.

Homeopathic School.

November, December, January—Dr. C. W. Garey.

May, June, July—Dr. F. S. Davis.

August, September, October—Dr. E. R. Johnson.

Consulting Physician—Dr. F. S. Davis.

Special Consulting Surgeon—Dr. W. F. Wesselhoeft.

REEDE HOSPITAL.

86 Elm St., Jamaica Plain. Private. 12 beds; for chronic cases. Charges, $12 per week and upwards.

RING SANATORIUM AND ARLINGTON HEALTH RESORT.

Arlington Heights. Arthur H. Ring, M. D., Barbara T. Ring, M. D.

RUTLAND STATE SANATORIUM.

Opened October 10, 1898, at Rutland. This institution was the first one of its kind in the United States. It admits Incipient Tuberculosis cases.

Superintendent—P. Challis Bartlett, M. D.

Physician—James A. Lyon, M. D.

Consulting Laryngologist—A. C. Getchell, M. D., Worcester.

The Rutland State Sanatorium for the treatment of Pulmonary Tuberculosis (Consumption of the Lungs) is located in Rutland, Mass., on the Central Massachusetts Railroad, eleven miles from Worcester, about twelve hundred feet above sea level. It is built on the pavilion plan and accommodates three hundred and fifty patients.

The primary object of the Institution is the arrest of the disease, and only such patients will be admitted as are deemed not too far advanced for reasonable hope of radical improvement. The Sanatorium is not a home for the hopelessly sick; the purpose being to give sanatorium treatment only.

Residents of Massachusetts only are admitted, preference being given to citizens of the United States.

Patients who do not improve after a stay in the Sanitorium sufficiently long to test the effects of treatment will be advised not to remain, and their friends will be expected to arrange their removal.

The charge for board and treatment will be uniform at the rate of four dollars ($4.00) per week. No private patients are received. Payment of board must be assured before applicants will be admitted.

In consideration of the nominal charge made for board and treatment all patients who are physically able are expected to do some work daily under medical supervision.

The classification of applicants is that adopted by the National Association for the Study and Prevention of Tuberculosis, viz.— Class I (Incipient, Favorable)—Class II (Moderately Advanced)—Class III (Far Advanced).

Applicants of the first class are usually admitted at once. Those of the second class are admitted if there are not enough of the first class applying to fill the beds, if in the judgment of the admitting physician the treatment at the Sanatorium will materially benefit them. Those of the third class are not admitted.

Patients admitted here may have their applications sent in by any registered physician of Massachusetts. Physicians can get these application blanks by applying to the Secretary of the

Board of Trustees, 3 Joy Street, Boston. All applications are sent to the office of the Trustees, and patients are placed on the waiting list of whichever Sanatorium seems most desirable.

The Sanatorium Station is Muschopauge, on the Central Massachusetts R. R. The Sanatorium carriage meets the train at Muschopauge that leaves Boston (Track 17, North Union Station), at 1.40 P. M. Public carriages meet all trains.

SCOBEY HOSPITAL.

Private. 68 Moreland St., Roxbury. Tel. Roxbury 419.

SIMPSON HOSPITAL.

Wellesley College Grounds. 15 beds.
Resident Physician—Katherine P. Raymond, M. D.
Consulting Physician—Edward E. Bancroft, M. D.

SMALLPOX HOSPITAL.

112 Southampton Street, Boston. 35-40 beds. In charge of the Boston Board of Health.

THE SOMERVILLE HOSPITAL.

Organized 1891. Crocker Street, Somerville. Tel. Somerville 128.

Applicants for admission must present to the Matron a permit signed by one of the admitting physicians, except in emergency cases, which may be admitted by the Matron at any time.

Rates determined by the Executive Committee. Contagious diseases not admitted. Visiting hours Monday, Wednesday and Friday, 2 to 4 and 7 to 8 P. M.

Medical Board—Giles W. Bryant, M. D., Frank L. Newton, M. D., Robert L. Lane, M. D., Thomas M. Durell, M. D.

Senior Staff—Horace P. Makechnie, M. D., Reuben Willis, M. D.

Medical Staff.

Fellows of the Massachusetts Medical Society—William A. Bell, M. D., Giles W. Bryant, M. D., Henry F. Curtis, M. D., George W. W. Whiting, M. D., George A. Miles, M. D., Charles E. Mongan, M. D.

Assistants—Allen H. Blake, M. D., Herbert Cholerton, M. D., Ralph L. Hodgdon, M. D., Charles F. Maguire, M. D., Eugene L. Maguire, M. D., Charles L. McCrossan, M. D., Loring H. Raymond, M. D., Chester A. C. Richardson, M. D., Warren D. Ruston,

M. D., Frederick G. Smith, M. D., Edgar F. Sewall, M. D., Harry A. Walker, M. D., Michael W. White, M. W.

Members of the Massachusetts Homoeopathic Medical Society—Robert L. Lane, M. D., Frank L. Newton, M. D.

Assistants—Anna B. Taylor-Cole, M. D., Mary A. Leavitt, M. D.

Roentgenologist—Arthur N. Makechnie, M. D.

Assistant—Michael W. White, M. D., Allen H. Blake, M. D.

Any regular graduate physician of good moral character, who is legally qualified to practise medicine in the state in which he resides, may be eligible to membership. Meetings on the second Wednesday of June and December.

President—C. T. Howard, M. D.
First Vice-President—E. E. Allen, M. D.
Second Vice-President—M. A. Leonard, M. D.
Secretary—H. J. Lee, M. D.
Associate Secretary—E. Jordan, M. D.
Treasurer—Caroline Y. Wentworth, M. D.
Auditor—George B. Rice, M. D.
Censors—N. H. Houghton, M. D., T. M. Strong, M. D., G. E. May, M. D.

MEDFORD MEDICAL SOCIETY.

Organized 1905. Meets every fourth Tuesday of the month.

President—L. F. Sise, M. D.
Vice-President—W. T. Burke, M. D.
Secretary and Treasurer—G. A. Wilkins, M. D.

MIDDLESEX EAST DISTRICT MEDICAL SOCIETY.

President—E. C. Fish, M. D.
Vice-President—H. A. Gale, M. D.
Secretary—A. E. Small, M. D.
Treasurer—Charles Dutton, M. D.
Librarian—E. W. Nickerson, M. D.
Councillors—Drs. E. C. Fish, C. J. Allen, E. S. Jack, W. H. Kelleher, E. D. Richmond.
Censors—Drs. W. H. Kelleher (Supervisor), C. E. Ordway, L. M. Crosby, R. D. Perley, R. R. Stratton.
Commissioner of Trials—Dr. M. A. Cummings.

MIDDLESEX SOUTH DISTRICT MEDICAL SOCIETY.

President—W. D. Swan, M. D.
Vice-President—G. T. Tuttle, M. D.
Secretary—L. S. Hapgood, M. D.
Treasurer—C. A. Dennett, M. D.
Councillors—Drs. W. D. Swan, Albert August, M. H. Bailey, H. T. Baldwin, S. O. Baldwin (Framingham), F. E. Bateman,

C. H. Cook (Natick), H. F. Curtis, E. A. Darling, G. W. Gay, C. M. Hutchinson, A. A. Jackson, J. B. Lyons, C. F. McKee, C. E. Mongan, C. E. Prior, Godfrey Ryder, Joseph Stanton, E. H. Stevens, J. O. Tilton, Julia Tolman, G. T. Tuttle, H. P. Walcott, C. T. Warner, Alfred Worcester.

Censors—Drs. Albert August (Supervisor), J. F. O'Brien, F. W. Rice, E. S. Abbott, C. E. Hills.

Commissioner of Trials—Dr. L. M. Palmer, Framingham.

the Massachusetts Medical Society of good moral character residing
within certain limits may be eligible to membership.
tering of social relations among its members. Any member of
Meetings on the second Friday of each month, October to April
inclusive, News Building, Jamaica Plain.

Meetings, first Tuesday of each month.

President—Hubert T. Holland, M. D.
Vice-President—E. B. Lane, M. D.
Secretary—F. P. McKenna, M. D.

WOBURN MEDICAL ASSOCIATION.

Founded 1851. Meets first Thursday of the month.

Organized 1909. Meets first Friday of every month.

President—T. E. Caulfield, M. D.
Secretary—C. G. Lane, M. D.

NATIONAL MEDICAL SOCIETIES.

AMERICAN MEDICAL ASSOCIATION.

Organized 1847. The object of this Association is to promote the science and art of Medicine. Contributing to this end, the association endeavors to unite into one compact organization the medical profession of the United States for the purpose of fostering the growth and the diffusion of medical knowledge, of promoting friendly intercourse among American physicians, of safeguarding the material interests of the medical profession, of elevating the standard of medical education, of securing the enactment and enforcement of just medical laws, of enlightening and directing public opinion in regard to the broad problems of hygiene and of representing to the world the practical accomplishments of scientific medicine.

The membership of this Association is open to members of the constituent associations and medical officers of the Army, of the Navy and of the U. S. Public Health and Marine-Hospital Service.

Those State and Territorial Medical Associations which have become organized in accordance with the general plan of organization of the American Medical Association and which have declared by resolution their allegiance to the said American Medical Association, and which agree with other State and Territorial Medical Associations to the formation and perpetuation of the House of Delegates of the American Medical Association, are recognized as Constituent Associations.

The business body is known as the House of Delegates of the American Medical Association. It consists of delegates elected by the Constituent Associations, by the scientific sections of the American Medical Association from the medical departments of the Army, and of the Navy, and from the United States Public Health and Marine-Hospital Service. It represents the delegated powers of the members of the American Medical Association, and is the national representative body of the Constituent Associations. It elects the general officers of the Association and a board of nine trustees, and transacts all the general business of the Association of a public, professional, scientific or other nature.

The total voting membership of the House of Delegates does not exceed 150.

President—Casper W. Sharples, Seattle. Secretary—C. H. Thomson, Walker Building, Seattle.

WEST VIRGINIA STATE MEDICAL ASSOCIATION.

President—H. P. Linsz, Wheeling. Secretary—J. Howard Anderson, Marytown.

STATE MEDICAL SOCIETY OF WISCONSIN.

President—Theodore J. Redelings, Marinette. Secretary—Rock Sleyster, Waupun.

WYOMING STATE MEDICAL SOCIETY.

Secretary—W. H. Roberts, Sheridan.

HOMEOPATHIC SOCIETIES.

AMERICAN INSTITUTE OF HOMOEOPATHY.

Organized 1844. President, Byron E. Miller, M. D., Portland, Oregon; Secretary, Sarah M. Hobson, M. D., 917 Marshall Field Building, Chicago.

INTERNATIONAL HAHNEMANNIAN ASSOCIATION.

Organized in 1880. President, Edwin T. Taylor, M. D., Chicago; Secretary, Frank W. Patch, M. D., Framingham, Mass.

NEW ENGLAND HAHNEMANNIAN ASSOCIATION.

Annual meeting, second Monday in January at Boston.

President, Edward P. Whitman; Secretary, Wesley T. Lee, M. D., 281 Broadway, Somerville.

BOSTON DISTRICT OF THE MASSACHUSETTS HOMEOPATHIC MEDICAL SOCIETY.

Organized 1873. President, O. R. Chadwell, M. D., Boston; Secretary, Conrad Wesselhoeft, 2nd, M. D., Cambridge.

Meetings, first Thursday in each month, October to June inclusive, at the Evans Memorial Building, East Concord St., Boston.

CONNECTICUT HOMOEOPATHIC MEDICAL SOCIETY.

Organized 1851. President, Frederick E. Wilcox, M. D., Willimantic; Secretary, Samuel Worcester, M. D., South Norwalk; Treasurer, H. P. Sage, M. D., New Haven.

MAINE HOMOEOPATHIC MEDICAL SOCIETY.

Organized 1866. President, H. H. Plumer, M. D., Union; Secretary, J. A. Hayward, M. D., Camden.

Meetings in June annually.

NEW HAMPSHIRE HOMOEOPATHIC MEDICAL SOCIETY.

Organized 1852. President, F. S. Eveleth. M. D., Concord; Secretary, B. C. Woodbury, Jr., M. D., Portsmouth.

Meetings in June annually.

RHODE ISLAND HOMOEOPATHIC SOCIETY.

Organized 1850. President, Martin S. Budlong, M. D., Providence; Vice-President, Ralph Hayman, M. D., Providence; Treasurer, Chas. H. Finch, M. D., Providence; Secretary, Martha B. Bates, M. D., Providence; Censors, Charles H. Finch, M. D., Providence; Gardner L. Miller, M. D., Providence; John Hillman Bennett, M. D., Pawtucket.

Quaterly Meetings, second Friday of January (annual), April, July, October.

VERMONT HOMOEOPATHIC MEDICAL SOCIETY.

Organized 1854. President, F. Hamilton, M. D., Brattleboro; Secretary, George I. Forbes, M. D., Burlington.

Meetings annually, third Wednesday in May; semi-annual, October.

REGISTRATION OF PHYSICIANS.

Text of the Act Passed by the Massachusetts General Court Relative to the Qualifications for Registration of Physicians in This State.

Section 1. Section three of chapter seventy-six of the Revised Laws, as amended by chapter three hundred and forty-six of the acts of the year nineteen hundred and thirteen, is hereby further amended by striking out all after the word "applicants," in the third line, down to and including the word "secretary," in the eleventh line, and inserting in place thereof the words:—Applicants for registration under this act, who shall furnish the board with satisfactory proof that they are twenty-one years of age or over, and of good moral character, and that they have received the degree of doctor of medicine, or its equivalent, from a legally chartered medical school having the power to confer degrees in medicine, shall, upon the payment of a fee of twenty dollars, be examined, and if found qualified by four or more members, shall be registered as qualified physicians, and shall be entitled to certificates in testimony thereof signed by the chairman and secretary,—so as to read as follows:—Section 3. Applications for registration shall be made upon blanks to be furnished by the board, and shall be signed and sworn to by the applicants. Applicants for registration under this act, who shall furnish the board with satisfactory proof that they are twenty-one years of age or over, and of good moral character, and that they have received the degree of doctor of medicine, or its equivalent, from a legally chartered medical school having the power to confer degrees in medicine, shall, upon the payment of a fee of twenty dollars, be examined, and if found qualified by four or more members, shall be registered as qualified physicians, and shall be entitled to certificates in testimony thereof signed by the chairman and secretary. An applicant who fails to pass an examination satisfactory to the board, and is therefore refused registration, shall be entitled within one year after such refusal to a re-examination at a meeting of the board called for the examination of applicants, without the payment of an additional fee; but two such re-examinations shall exhaust his privilege under his original application. Said board, after hearing, may by unanimous vote revoke any certificate issued by it and cancel the registration of any physician who has been convicted of a felony or of any crime in the practice of his profession. The board may subsequently, but not earlier than one year thereafter, by a unanimous vote, reissue any certificate formerly issued by it or issue a new certificate, and register anew any physician whose certificate was revoked and whose registration was cancelled by the board. All fees received by the board shall, once in each month, be paid by its secretary into the treasury of the Commonwealth.

Section 2. This act shall take effect upon its passage. (Approved May 28, 1915.)

HARRISON NARCOTIC LAW.

Synopsis of Rulings on Questions Relating to the Act of Congress Approved December 17, 1914, Known as the Harrison Narcotic Law.

Treasury Department,
Office of Commissioner of Internal Revenue,
Washington, D. C., March 9, 1915.

The following synopsis of rulings on questions relating to the narcotic law is published for the information of Internal Revenue officers and others concerned. All rulings or parts of rulings heretofore made which are in conflict herewith are hereby revoked:

Acceptance of Orders.—The words "accept" and "acceptance" as used in section 2 of the act are held to apply to the notice of acceptance of the purchase order, or, if such notice is not given, to the delivery or shipment of the goods to the purchaser. The date of such notice or shipment will be the "date of acceptance" in such cases.

Administration, External and Internal.—Liniments, ointments, or other preparations containing drugs not specifically exempt, used for oral, nasal, aural, ocular, rectal, urethral, or vaginal administration are not in such cases used externally and are therefore not exempt from the provisions of this law.

Attendance (Personal), Definition Of.—A physician, dentist, or veterinarian must actually be absent from his office and in personal attendance upon a patient in order to come within the exemption of section 2, paragraph A, of this law.

Analysis, Samples Of.—While no special provision is made in the act for the purchase by chemical laboratories of narcotic drugs to be used as test reagents in analytical work, or for the forwarding by physicians of samples for analysis, the purchase or disposal of such drugs for the purposes named would not be in violation of the act, provided the same are purchased or received by regularly established chemical or analytical laboratories, and the requirements as to registration and keeping of records, etc., are fully complied with. In either such case registration and payment of special tax will be necessary (sec. 1 of act), and the prescribed order blanks must be used as to all purchases of such drugs, as required by section 2 of the act.

Where such drugs are purchased for analytical work there should be kept, in addition to the duplicate order blanks, a record showing when such drugs were received, the kind and quantity received, and from whom received. This record should also show as to each kind the quantity used for analytical work and the quantity remaining unused at the close of each month.

Samples forwarded by physicians for analysis must be entered in their records (art. 10, Regulations 35), as where like drugs are dispensed or distributed other than directly to patients. Laboratories receiving such samples must also enter the same on their records, as in the case of purchases above referred to.

Branches, Registration Of.—Each separate branch of any firm, partnership, or corporation dispensing or distributing any of the drugs coming within the scope of this law will be required to register and pay the special tax. The name of the firm, partnership, or corporation should be indicated on the application for registry with the name of the manager in charge of the branch immediately beneath.

Charity Organizations.—Not supported solely by the State, county, or municipality must register and pay the special tax and keep a record of drugs dispensed or distributed.

City Hospitals, Status Of.—(See Exemptions from registration.)

Consumers Obtaining Drugs.—A consumer, as such, will not be permitted to register under this law and can only obtain a supply of such drugs through a duly registered physician, dentist, or veterinarian.

Containers.—It will not be necessary under the provisions of this act for net weights to be placed upon containers of tablets or other preparations, so long as the proportion of the inhibited drug to the ounce is indicated thereon. Such containers and contents, however, will be subject to the pure food and drugs act and regulations issued thereunder.

Containers Broken or Destroyed.—Where a container becomes broken or destroyed through accident in transportation or otherwise it will be necessary for the person registered to make affidavit as to the quantity and kind of drug lost or destroyed, and keep such affidavit on file with his order forms.

Containers, Use of Pasters on.—No objection to the use of pasters on containers already in stock and labeled to denote a reduction of narcotic drug to the exempted class indicated in section 6.

Dealers, Drugs Returned to.—Where any of the drugs or preparations coming within the scope of this law were in the hands of persons on March 1, 1915, and are to be returned to a registered manufacturer or dealer from whom the same were purchased, the person returning the same will attach to the inventory made by him March 1, 1915, a memorandum of the drugs or preparations returned, specifying the kind and quantity returned and the date of return. Upon the receipt of such drugs or preparations the manufacturer or dealer will attach to his inventory a like memorandum, giving also the name of the person from whom such drugs or preparations were received.

Department Stores Handling Drugs.—A general merchant who handles any of these drugs or preparations under authority of the State laws must register and pay the special tax required by the Federal law.

Diacetyl Morphine.—As this is the chemical name for "heroin" it will be classed as such.

Drugs, Exportation of.—Pending the issuing of regulations under the provisions of paragraph (c), section 2, of this act, narcotic drugs may be exported without a special permit. The order of the foreign consignee, together with a duplicate bill of lading or other shipping receipt covering the consignment should, however, be filed with the prescribed purchase orders on which like drugs are shipped to purchasers in the United States. Direct sales on personal application of a physician residing and practicing outside of the United States can under no circumstances be permitted, as such sales would not be regarded as an exportation within the meaning of the statute.

Drugs Dispensed, Record of.—A physician or dentist who administers minute quantities of drugs coming within the scope of this law in his office may keep a record of the date when a stock solution is made and the date when such stock solution is exhausted without keeping a record of the name and address of each patient to whom such drugs are administered. This plan will be allowed, however, only in cases of those physicians and dentists who use minute quantities of these drugs, such as oculists, aurists, and other specialists; but where a physician engaged in a general practice otherwise administers such drugs it will be necessary for him to keep a record of the name and address of the patient, of all drugs dispensed, distributed, or administered in his office, and of such drugs left with a patient to be taken in his absence. Only such drugs as are personally administered by a physician to a patient when away from his office are exempt from record.

Drugs Delivered, Receipts for.—A retail dealer in filling a prescription or order form calling for any of the drugs coming within the scope of this law is not required to demand a receipt therefor.

Druggists Engaged in More Than One Business.—A retailer having more than one place of business, or, if in any case, the retailer is engaged in more than one profession or business where any of the drugs coming within the scope of this law are made, stored, or dispensed should make application for registration in each such case.

Educational Institutions.—Any department of a university, college, or other educational institution using drugs coming within the scope of this law must register with the collector of internal revenue and pay the special tax. The dean of each department should sign the application for registry and the order blanks used to obtain a supply of these drugs. Such drugs used in a dental infirmary or laboratory should be recorded in a book kept for that purpose.

Employees of Registered Persons.—Persons registered under this law will be held responsible for the acts of their employees in dispensing or distributing any of the drugs coming within the scope of this law.

Exemption From Registration.—Under the act Government, State, county and municipal officers, lawfully engaged in purchasing drugs, etc., specified in the act for the various departments of the Army and Navy, the Public Health Service, and for Government, State, Territorial, district, county, municipal, or insular hospitals or prisons are held to be exempt under section 1 and paragraph (d) of section 2 from the provisions of the act relating to registry and special tax to purchase and use of such drugs and to the keeping of records of the same. Any such officers, however, engaged in private practice must register, pay special tax and keep the records, and comply with all the requirements of the law and regulations.

Exemption of Certain Preparations.—The exemptions provided in section 6 of this law are held to apply only to United States Pharmacopoeia standard preparations or to remedies prepared under private formula, such as are usually carried in stock by druggists and dispensed without prescriptions, and not to pseudo preparations or remedies prepared, prescribed, or sold on account of the narcotic drug contained therein.

Fraudulent Prescriptions.—A druggist, when receiving a prescription for any of the drugs coming within the scope of this law, should carefully scrutinize such prescriptions and where he has reason to believe that the same is forged or that the quantity of drug prescribed is unusually large, he should, before filling such prescription, satisfy himself that the same is genuine and properly prepared. Every druggist should know the signature of the reputable, legitimate physicians in his locality, and should he fill a fraudulent prescription he would be liable to prosecution.

Hospitals and Sanatoriums must keep a record of drugs dispensed, distributed, or administered therein.

Inventories must be retained on file by person making same and not sent to the collector of internal revenue or the Treasury Department. Such inventories must be sworn to.

Inventories.—Every person, firm, or company who commences business after March 1, 1915, of importing or manufacturing any of the drugs or preparations coming within the scope of this law, will, at the time of registering with the collector or as soon thereafter as such drugs or preparations are imported or manufactured make a sworn inventory of all such drugs and preparations in the manner prescribed in article 13 of Regulations No. 35.

Laboratories—Samples for Analysis. (See Analysis).

Manufacturer, Definition of.—The word "manufacturer" as used in this law is not construed to be applicable to druggists or apothecaries (retail dealers), as it is necessary for practically every pharmacist to manufacture certain preparations for use in compounding prescriptions; and this office holds that but one registration will be required of such retail dealer. Such retail dealer, if so using any narcotic drugs, should keep a record of the quantity used.

Manufacturing Exempted Preparations.—A dealer or manufacturer using any quantity of narcotic drugs mentioned in the law for manufacturing preparations which in their finished state are exempt should keep an accurate record of all such narcotic drugs used for this purpose.

Merchants, General, Handling Drugs.—(See Department stores.)

Name in Full—Meaning.—A physician may sign prescriptions calling for drugs coming within the scope of this law the same as he would sign a check or legal document, i. e., J. H. Smith, John H. Smith, or John Henry Smith.

Nurses, Status of.—Not allowed to register and can only have narcotic drugs in their possession under direction of registered physician. Can only obtain supplies of such drugs upon registered physician's prescription and only when nursing patient of such physician.

Ointment, Liniments, etc., for External Use Only containing more than the quantity of drugs specifically exempt under section 6 can be dispensed or distributed without complying with its provisions, only when such ointments, liniments, and other preparations contain ingredients rendering them unfit for internal administration—in other words, they must be denatured.

Opium, Definition of.—In making calculations upon the amount of opium present in any given preparation, this office will take the United States Pharmacopoeia standard for "opii pulvis" (powdered opium) containing 12 per cent. to 12.5 per cent. of morphine.

Orders, Date of Acceptance.—(See Acceptance of order forms.)

Order Forms, Filing of.—Order forms filed according to systems already in use, if readily accessible to an officer of the Government, will be considered as a substantial compliance with article 9 of Regulations No. 35.

Orders Incompletely Filled.—It will be necessary when a wholesale dealer is unable to completely fill a retail dealer's order for both the original and duplicate orders to have made thereon a notation as to the quantity or quantities supplied, and the date, and the subsequent filling of such order should also be indicated on both the original and duplicate order forms.

Order Forms, Lack of Space for Complete Order.—Where more drugs or preparations are to be ordered than the space on the order form will permit, it will be necessary to make use of additional order forms. The attaching of extra sheets to these forms is not permissible.

Order Forms Not to be Used as Prescription Blanks.—Original and duplicate order forms are only to be used for obtaining a supply of the drugs and preparations covered by this law and can, under no circumstances, be used as a prescription.

Paregoric, Status of.—Camphorated tincture of opium, prepared according to the United States Pharmacopeia standard, contains not quite two grains of powdered opium to the fluid ounce and is, therefore, exempt from the provisions of this law.

Partnerships of Physicians.—Where two or more physicians, dentists, or veterinary surgeons are in partnership, doing business under a firm name, it is necessary for the firm to be registered, the firm registry number to be indicated in ordering any of the drugs for use in the office practice of the members of the firm, each individual physician, dentist, or veterinary surgeon in such partnership should register and pay the special tax under his own name, if also engaged in private practice.

Personal Attendance, Definition of.—(See Attendance.)

Physicians, Dentists and Veterinarians Practicing in More Than One District.—If maintaining an office in more than one internal-revenue district must register in each district. If not maintaining more than one office registration in one district permits him to practice in any other district with but one registration.

Places of Business, More Than One.—(See Druggists engaged in more than one business.)

Prescription Blanks.—A physician, dentist, or veterinary surgeon can make use of any prescription blank, provided the same is properly dated and signed and has indicated thereon the physician's address, his registry number, and the name and address of the person for whom such prescription is written. The Government does not furnish a form upon which prescriptions may be written and the special order form can not be used for this purpose.

Prescriptions, Partial Filling of.—Original prescriptions only can be lawfully filled by druggists, and the partial filling of such prescriptions, from time to time, where large quantities of drugs have been prescribed, will, under no circumstances, be permitted.

Proprietary Preparations With an Exempted Amount of Narcotic Drug.—It will not be necessary for a registered physician, in order to secure patent or proprietary medicines containing less than amounts named in section 6 of this law, to furnish with such order a Government blank.

Proprietary Articles on Hand or in Course of Manufacture on March 1, where the same are in the hands of dealers, manufacturers, or persons not authorized to register, or in process of manufacture under like conditions. By the provisions of this law, unregistered persons, except those specifically exempt, are not authorized to manufacture, deal in, or have in possession, or control, any prohibited drugs. The law is mandatory and has provided no escape from its provisions from the date of its taking effect, March 1, 1915. The purpose of postponing the taking effect of the law for two and one-half months from the date of its passage, December 17, 1914, to March 1, 1915, was doubtless to give dealers and manufacturers time to dispose of the drugs which they could not otherwise handle after that date. If they failed to do this, the responsibility rests with them and they must immediately comply with the law by ridding themselves of the possession of the prohibited drugs in any and every form either by destruction or otherwise, i. e., manufacturers will be permitted to reduce the drugs to the allowed proportion of opium or coca leaves or their derivatives, and in the case of dealers where not prohibited by the transportation proviso, that is, where the unlawful compound can be immediately returned to the manufacturer, such manufacturer might act as agent for the dealer to reduce the opium or coca leaves or their derivatives contained therein to a legal basis. This, of course, could only be done within the State, as distinct prohibition extends across State lines. Conditions may also exist where the prohibited drug or preparation may be exported under the provisions of paragraph (c), section 2, of the law.

Receipts for Drugs Delivered.—(See Drugs delivered, receipts for.)

Reregistration.—A person properly registered under one line of business can not transfer his registry number to another line of business.

Refilling Prescriptions.—Only original prescriptions can be filled by druggists and apothecaries and can not be refilled without violating this law.

Registration, Who Eligible For.—The following persons legitimately engaged in the practice of their profession and dealers allowed by the State laws to handle narcotic drugs are eligible to registry under this law: Persons engaged in the practice of medicine and surgery, persons engaged in the practice of dentistry, persons engaged in the practice of veterinary medicine and surgery, persons engaged in the importation and sale of drugs, persons engaged in the manufacture and sale of drugs at wholesale, persons engaged in the manufacture and sale of drugs at retail.

An osteopath, therefore, or other person heretofore administering these drugs, if not classed as a physician in the State in which he resides, would not be permitted to register under this law.

Salesmen, Traveling.—Persons desiring to register under this law must have some fixed place of business where sales are made and where purchase orders received by them can be kept on file for the inspection of a Government officer. Traveling salesmen will not be able to comply with these requirements, but no objection is seen to such salesmen soliciting orders and forwarding the necessary purchase orders to their employers to be filled by them. Such purchase orders received from registered persons in any internal-revenue district may be filled by a firm in any other district, but the same when accepted should be filed according to their serial numbers as to district.

Sales, Accommodation.—A druggist making an accommodation sale to another druggist in an emergency will be regarded as a retail dealer.

State Laws.—This act in no way interferes with the operation of the laws of any State respecting the manufacture, sale, or use of narcotic drugs unless such laws are in direct conflict therewith.

Special-Tax Stamps.—Must be posted in a conspicuous place by every person registering under this law.

Third-Party Shipments.—Wholesale dealers or jobbers in narcotic drugs when unable to fill orders received from retail dealers may send their own purchase order to manufacturer with request that such drugs be shipped directly to retailer. In such cases orders so sent must give name of retailer and his registry number and number of his purchase order. There is no objection to having drugs invoiced to jobber when so requested by registered retailer in ordering directly from wholesale dealer.

Vessels, Supplies of Drugs for.—Registered physicians and veterinarians will be allowed to write prescriptions, if prepared according to regulations, for any quantity of drugs to be used on ocean-bound vessels or where such vessels will be beyond the reach of registered physicians and veterinarians. Such prescriptions must indicate the purpose for which intended.

MISCELLANEOUS INFORMATION.

THE HOSPITAL MUSIC FUND.

52 West Cedar Street, Boston. John Dixwell, M. D., Director and Treasurer. Gives concerts during the seven winter months in all the charitable homes and hospitals of Greater Boston, exclusive of penal institutions. A distinctly therapeutic effect is aimed at, and the music selected is especially adapted to that purpose. Only professional performers are employed. There are no salaried officers. Supported by annual subscriptions. Any further information supplied by the director or by Helen G. Powers, Secretary, 8 Louisburg Square, Boston.

INSTITUTION FOR PHYSICAL THERAPEUTICS.

Incorporated 1908. Farragut Building, 126 Massachusetts Ave., Boston, Mass.

Directors—J. J. Putnam, M. D., President; J. H. Pratt, M. D., Treasurer; H. D. Arnold, M. D., H. C. Baldwin, M. D., W. N. Bullard, M. D., A. T. Cabot, M. D., H. A. Christian, M. D., E. G. Cutler, M. D., R. W. Emmons, H. Gage, M. D., R. W. Lovett, M. D., F B. Percy, M. D., C. P. Putnam, M. D., W. L. Richardson, M. D., F. C. Shattuck, M. D., E. W. Taylor, M. D., H. F. Vickery, M. D., G. H. Washburn, M. D.

SOUTH END DIET KITCHEN.

Incorporated 1882. 21A Common Street, Boston. Branch, 73 A Street, South Boston. Open 11.45 A. M. to 1.00 P. M.

For the sick poor. Distributes diets of milk, eggs and broth among the sick poor on orders from Dispensary Doctors, District Nurses, Associated Charities and other responsible persons.

WARREN ANATOMICAL MUSEUM.

The Warren Anatomical Museum was founded in 1847 by John Collins Warren, of the College Class of 1797, Adjunct Professor of Anatomy and Surgery from 1809 to 1815, Hersey Professor of Anatomy and Surgery from 1815 to 1847, Professor Emeritus from 1847 to his death in 1856, son of John Warren, the first Hersey Professor of Anatomy and Surgery. This important Museum is open to students in the School, and its collections are used in demonstration of lectures. It occupies the upper three floors of the Administration Building. Its Curator is Dr. William Fiske Whitney.

The collection has about nine thousand specimens, illustrating both normal and pathological anatomy and materia medica. Students may have access to these specimens at any time upon application to the Curator.

Besides dissections and serial sections of many bones, the anatomical collection includes many corrosion preparations, plaster and papier mache models of bones, organs, and various parts of the body, and frozen sections.

The pathological collection is being constantly enlarged by the addition of numerous specimens, preserved in their natural colors by Kaiserling's method.

Francis H. Slack, M. D., Deputy Commissioner, in charge of Bacteriological Laboratory.

STATE DEPARTMENT OF HEALTH.

WASSERMANN LABORATORY.

Milton J. Rosenau, M. D., Director; William A. Hinton, M. D., Assistant Director.

On June 1, 1915, the following circular letter was sent to each of the institutions under the control of the State Board of Charity, the State Board of Insanity and the State Board of Prison Commissioners, also to each of the district health officers, announcing the opening of the State Wassermann Laboratory:—

The Commonwealth of Massachusetts.
State Department of Health, Wassermann Laboratory.
240 Longwood Avenue, Building D, Room 103,
Boston, June 1, 1915.

The State Department of Health has established a Wassermann laboratory which offers free service to State institutions, local boards of health and, under certain conditions, to private physicians when application is made through their district health officer. The laboratory requires that the label identifying the specimen and the blank accompaning the report be properly filled out in legible writing; otherwise examinations will not be made.

The following directions are given to insure reliable results:

1. Use only glassware furnished by this laboratory in its original condition. Mailing cases and the carbolic acid described below may be had upon application.

2. At least 5 cubic centimetres of blood, or 1.5 cubic centimetres of serum, and 3 cubic centimetres of spinal fluid are required.

3. The specimens of spinal fluid or blood should be placed in a refrigerator within two hours after collection, and brought to the laboratory on the same day by messenger. The time of collection should be so arranged that specimens reach the laboratory not later than 3 o'clock on week days except Saturday. No tests will be begun on Saturdays, Sundays or holidays. Ordinarily the report will be ready within twenty-four hours after the specimens are received, provided the directions are followed and no holiday intervenes.

4. Where no messenger is available the following is strongly recommended: Withdraw the serum which has separated from its clot (centrifuging to remove corpuscles if cloudy) and transfer to another tube which the laboratory will furnish on special

request. The transfer is most easily made by means of an ordinary medicine dropper, which should be sterilized by boiling in clean tap water and which should be completely washed out at least three times with sterile .85 per cent. salt solution before withdrawing the serum from any specimen of blood. To the separate specimens of serum thus obtained add 2 drops of a 2 per cent. carbolic acid solution in normal salt to approximately each 2 cubic centimetres of the serum. The separation of the serum may be facilitated by loosening the clot from the sides of the tube containing the blood with an ordinary bacteriologic platinum loop, and placing the tube in an incubator at 37° C. for thirty to forty minutes, but no longer than one hour. Spinal fluids are to be treated with 2 drops of the above described carbolic solution to approximately each 3 cubic centimetres of fluid. The specimens should be sent immediately to the laboratory by parcel post, special delivery, so that they will reach us not later than Friday of a given week for the reason above noted.

For further information address

WASSERMANN LABORATORY.

During the period from June 1 to July 24, 1,451 specimens have been examined from 12 of the 28 State institutions and from 3 private hsopitals. At the same time the Wassermann Laboratory has been completely equipped and the routine so well established that it is now able to extend its services to private, charitable and municipal hospitals and institutions. In addition to this the State Department of Health is now ready to offer the facilities of the Wassermann Laboratory to patients of private physicians.

The service for patients of private physicians may be obtained through two channels: (1) through district health officers and (2) through the laboratory directly. It is required in each instance that the patient be sent either to the district health officer or to the Wassermann Laboratory directly, with a letter from his physician stating the patient's name, residence and occupation. Specimens for examination* will be taken at the Wassermann Laboratory on Tuesdays and Thursdays, between 3 and 5 P. M., in Building D, Room 103, of the Harvard Medical School, where the Wassermann Laboratory is situated. It will be more convenient for patients living some distance from the Wassermann Laboratory to have the specimens for examination taken by the district health officer. The physician should make an appointment with the nearest district health officer and then refer the patient to him with a letter stating the patient's name, residence and occupation. No charge is made for taking the specimens or making the test.

---

* Lumbar puncture for spinal fluids is not made by the laboratory or district health officers because this procedure requires the facilities of a hospital or a private house with a trained attendant.

The importance of the Wassermann test as an aid in the diagnosis of disease is now well recognized, and physicians and institutions are invited to avail themselves of the opportunity to have the Wassermann test made as a routine examination on the blood of their patients and on spinal fluids where the facilities permit. In this way the diagnosis of syphilis may be definitely established in approximately 90 per cent. of the instances where it exists, and the proper treatment given. Such a procedure should decrease the incidence of those obstinate later manifestations of the disease which affect the heart, the blood vessels, the brain and the spinal cord, the results of which are usually serious and often incurable or may only be relieved after great suffering and expense to the patient. These late syphilitic manifestations are the most frequent causes of untimely death of otherwise strong and hearty persons.

Wassermann examinations have an important bearing upon eugenics. The incidence of congenital syphilis with its high infant mortality and a large number of the premature births due to syphilis are preventable if physicians or institutions in charge of pregnant women would have the Wassermann test made on every woman during the first months of pregnancy. Specific treatment could then be given promptly as a curative and preventive measure.

It is important to have a Wassermann test made on patients in whom tuberculosis or cancer is suspected; in the former event, with the idea of preventing unnecessary prolonged residence of syphilitics in the State sanatoria, which constitutes an unwarranted financial burden upon the community, and which exposes the syphilitic to infection with tuberculosis, and the tuberculous patient to infection with syphilis. In cases of suspected cancer or other obscure malady it is important to rule out syphilis by one or more Wassermann tests, a plan which is now followed in the large and efficient private and charitable hospitals.

The prompt recognition and treatment of syphilis is a public health problem of first importance. The State Department of Health desires to encourage the use of the Wassermann test as part of all routine medical examinations, and offers the facilities of its laboratory to the citizens of the Commonwealth.

(Copied from Public Health Bulletin.)

EARLY DIAGNOSIS OF PULMONARY TUBERCULOSIS IN ADULTS AND IN CHILDREN.

DIAGNOSIS IN ADULTS.

Do's.

Remember the following points:—

1. Take a careful history of your patient. Ask definite questions in a logical and regular sequence. Every patient should be asked whether during the years from fifteen to twenty-one he considered himself, or was considered by his parents, as of the strong and robust type, the thin and wiry type or of the delicate type. It is important to ask not, "When did you first feel sick?" but rather, "When did you last feel perfectly fell?"

2. Remember the paramount importance of constitutional signs and symptoms.

In most cases, except for a cough, which is usually present, the constitutional signs and symptoms are far more striking than local symptoms.

3. Remember that loss of weight must be satisfactorily explained.

Every patient should be asked, first, "What is your maximum weight?" second, "Your present weight?" third, "What do you consider good average weight in health?" fourth, if the patient has lost weight, "Over how long a period has this loss taken place, and how do you account for it?"

4. Inquire concerning loss of strength and energy.

5. Do not forget the importance of undue fatigue and ease of tire.

6. Continual or occasional evening fever must be explained.

The thermometer is not used anyway nearly as much as it should be. In the absence of other definite causes, if a patient is found to be running an afternoon or evening fever of 99° or over, a tentative diagnosis of some such infection or toxemia as tuberculosis is justifiable.

7. Remember the importance of a subnormal temperature accompanied by a high pulse.

This combination is an important one and is often caused by tuberculosis.

8. Remember that a hemorrhage is evidence of pulmonary tuberculosis until the contrary is proved.

Failure to observe this rule is causing many tragedies and unnecessary deaths.

9. Bear in mind that pulmonary syphilis is not so uncommon as it is supposed to be.

10. Remember that early cases of exophthalmic goitre may simulate early pulmonary tuberculosis in every way.

11. Depend more on your thermometer, your history and constitutional signs and symptoms than you do on percussion and auscultation.

12. Remember to use your common sense.

Bear in mind that it is a human being and not merely a pair of lungs that you are dealing with.

Don'ts.

Do not forget the following:—

1. Don't be in too much of a hurry.

2. Don't forget to strip the patient to the waist.

3. Do not expect to find marked signs in the lungs in every case.

4. Do not wait for a positive sputum.

Absence of proof is not proof of absence.

5. Don't forget that practically all pleurisies, wet or dry, of idiopathic origin, are tuberculous.

6. Don't forget to look elsewhere than the lungs.

Make your routine physical examination as thorough as possible.

7. Don't base your diagnosis on X-ray evidence alone.

The X-ray is a valuable adjunct to our means of physical examination; it should never take the place of our older, well-known methods.

8. In adults do not place any value on the skin tuberculin test, whether positive or negative.

9. Don't forget that chronic bronchitis, influenza, bronchiectasis, emphysema, asthma and other chronic and subacute lung conditions still exist and will continue to exist, and that they often resemble pulmonary tuberculosis.

10. Don't forget that the reverse of the above is also true.

11. Don't forget that people may be run down, tired, weak, etc., without having consumption.

DIAGNOSIS IN CHILDREN.

Do's.

Remember the following points:—

1. Remember the difference between tuberculous infection and tuberculous disease.

2. Remember the frequency of tuberculous infection.

3. Remember that in children tuberculosis is primarily a disease of the glandular system.

Whereas in infancy tuberculosis takes the form of a general septicaemia, and is rapidly fatal, in the years of childhood it primarily affects the glandular system all over the body. It is only when this first line of defence is broken through that the lungs or other organs are affected.

4. Remember the importance of exposure, and that bovine as well as human sources are of importance.

This is particularly important in the case of children. Tuberculosis in children is often due to tuberculous milk.

5. Remember that in children by the time the lungs themselves are involved the disease is far advanced.

In these real early cases one rarely finds signs at the apices. It is by means of a positive cutaneous tuberculin test, the X-ray, perhaps slight interscapular dullness, sometimes enlarged veins on the chest, frequently a positive d'Espine's sign, combined with constitutional signs and symptoms, on which the diagnosis is based.

6. Remember the importance of constitutional signs and symptoms.

The principal constitutional signs and symptoms are ease of tire, the loss of weight, pallor, malnutrition and debility.

7. Remember that while in adults there is no cough characteristic of tuberculosis, in children there may be present a cough which is more or less characteristic of bronchial gland enlargement. These bronchial glands are situated at the root of the lungs, and if they attain sufficient size may press on the trachea, the large bronchi or on nerves, and thereby cause a paroxysmal, strident, brassy cough, usually without sputum, often closely resembling whooping cough.

8. Remember that a positive skin tuberculin reaction is of infinitely greater importance in children than in adults, but that its value becomes less and less with increased age.

9. Remember that the X-ray in children may show enlarged bronchial glands, but that it does not prove these glands to be necessarily tuberculous.

Don'ts.

Don't forget the following points:—

1. Don't fail to realize the responsibility you are taking in stamping a child as tuberculous.

2. Do not forget in cases of doubt that it is possible, and far better, to institute proper treatment without casting the stigma of tuberculosis.

3. Don't make up your mind beforehand as to what you are going to find.

4. Don't forget that while a positive d'Espine sign is good evidence of enlarged mediastinal glands, it does not prove that they are tuberculous.

A positive d'Espine, or, in other words, bronchial whispered voice sounds, heard below the level of the fourth dorsal vertebra, is good evidence that the mediastinal glands are enlarged. It is not safe, however, from this sign alone to draw any further conclusions.

5. Do not expect to find marked signs in the lungs in every case of bronchial gland enlargement.

A type case is characteristic. Substernal dullness, interscapular dullness, enlarged veins on the chest, glands in the neck and paroxysmal, brassy cough make evident the underlying condition. In most instances, however, the diagnosis must be based on far less than this.

6. Don't forget that processes due to influenza, the pneumoccoccus and other organisms are common in children, and are often mistaken for tuberculosis.

Little patches of consolidation, due to either influenza or the pneumococcus, may simulate in every way one to tuberculosis. While the treatment is approximately the same, the prognosis is, of course, very different.

7. Don't forget that improper feeding, diseased tonsils and increased adenoid tissue, a chronic middle ear and other conditions, may simulate tuberculosis.

8. Don't forget that your diagnosis rests, not on one or two striking signs and symptoms, but on an accumulated mass of single details.

9. Do not forget to be frank and open with the parents, and to explain to them the exact situation.

PHYSICIANS REGISTERED, JULY, 1915,

By the Mass. Board of Registration in Medicine.

Allen, Arthur Wilburn, Mass. Gen. Hosp., Boston.
Allen, Edward Bartlett, Danvers State Hosp., Hathorne.
Alley. Leon Arthur, 12 Richmond St., Brockton.
Angier, Harlan Wesley, Waltham Hosp., Waltham.
Atwood, Eldridge DeLorica, 13 Lawrence St., Woburn.
Babington, Vernon Edgar, McLean Hosp., Waverley.
Barfield, James Jackson, 311 Beacon St., Boston.
Barstow, Myron Baker, Scotland, Conn.
Bearse, Carl, 193 Chambers St., Boston.
Beaudet, Elphege Aleime, Newmarket, N. H.
Birdsall, Clarence Harlow, Gen. Hosp., Lawrence, Mass.
Brown, George Percy, Barre, Mass.
Brown, James Edmund, 9 Hanover St., Providence, R. I.
Brown, Roy Farrington, Fall River City Hosp.
Burns, John Edward, Cambridge Hosp., Cambridge, Mass.
Butler, Alice Etta, East Concord St., Boston.
Butler, David Mathew, 51 Bay St., Brockton.
Clancy, Leo Joseph, Holliston, Mass.
Clark, Cecil Whitehouse, 80 East Concord St., Boston.
Clason, Freeman Pell, 19 Washington Ave., Gardiner, Maine.
Cleaves, Edwin Nelson, 3 Brooks St., West Medford.
Cleveland, Edward Horace, 20 East 127th St., New York City.
Colmes, Abraham, 4 Fayston St., Roxbury.
Cosby, Edwin Gordon, 32 Alaska St., Roxbury.
Crowell, Archie Durkee, 896 Mass. Ave., Cambridge.
Cunningham, Richard Eugustine, 102 Warren St., Lynn.
Dibble, Lula Mabel, 10 Shepard St., Cambridge.
Dolan, William Francis, Boston City Hosp.
Dutton, Frank Kingsley, Springfield Hosp., Springfield, Mass.
Dwinnell, George Francis, 117 Massabesic St., Manchester, N. H.
Eaton, Harold Burney, 574B Newbury St., Boston.
Fallon, Joseph David, St. Francis Hosp., Trenton, N. J.
Fein, Harry, Nutting's Park, Billerica.
Flagg, Charles Monroe, 21 Sacramento Place, Cambridge.
Fregeau, Aime Napoleon, St. Elizabeth's Hosp., Brighton.
Frost, Harold Putnam, Auburn, Maine.
Garrick, Nathan Henry, 80 East Concord St., Boston.
Genereux, Edmond Alfred, 18 Main St., Webster, Mass.
Gennert, Jacob, 158 Hart St., Brooklyn, N. Y.

Ghazarian, Garabed Sarkis, Memorial Hosp., Pawtucket, R. I.
Gibson, Edward Thomas, 74 Fenwood Road, Boston.
Golub, Jacob Joshua, 32 Poplar St., Boston.
Grabfield, Gustave Philip, 137 Peterborough St., Boston.
Granata, Tancredi Giovanni, St. Elizabeth's Hosp., Brighton.
Graves, Frances, 110 Main St., Greenfield, Mass.
Greaney, William Francis, 71 Lincoln St., Holyoke, Mass.
Grzebien, Thomas Walter, 259 So. Main St., Warren, R. I.
Guralnick, Rubin, 7 Morris St., E. Boston.
Harris, Ada Frances, Grafton State Hosp., Grafton, Mass.
Hart, Francis Denbroeder, 76 South St., Bridgewater, Mass.
Hartwell, Henry Edward, 9 Easton St., Lawrence, Mass.
Hodgkins, Edward Marshall, St. Elizabeth's Hosp., Brighton.
Holmes, Colin McLean, 926 McCulloh St., Baltimore, Md.
Hoy, Marmaduke, 242 East Tremont Ave., New York City.
Hyde, Harold Valmore, 15 Nichols St., Lynn.
Jackle, Arthur Frederick, 1083 Beacon St., Brookline.
Jackson, Arthur Morison, 512 Broadway, Everett.
Janney, James Craik, Peter Bent Brigham Hosp., Boston.
Jewett, Everett Porter, 356 Chestnut St., Gardner, Mass.
Johnson, Leighton Foster, 29 Morton St., Forest Hills, Mass.
Johnson, Mary, Grafton State Hosp., Grafton, Mass.
Kaitz, Harry, Mass. Homeop. Hosp., Boston.
Kane, William Vincent, 11 Bay View Ave., Lynn.
Karcher, Eduard Winslow, 5254 Washington St., West Roxbury.
Kibby, Sydney Vernon, McLean Hosp., Waverley, Mass.
Koplin, Harry, Windsor Locks, Conn.
Ladd, William Sargent, 260 W. 72d St., New York City.
Larimore, Louise Doddridge, 2137 North College Ave., Philadelphia, Pa.
Lawlor, John Charles, 8 Underhill Ave., Bellows Falls, Vt.
Leith, Richard Bliss, Malden Hosp., Malden, Mass.
Lindberg, David Oscar Nathaniel, 160 Elm St., Quincy, Mass.
Lowrey, Lawson Gentry, Danvers State Hosp., Hathorne, Mass.
McCarthy, Charles Daniel, Jr., 96 Summer St., Malden, Mass.
McClintock, Elsie, 45 Gardner St., Chelsea.
McClure, Charles Walter, Psycopathic Hosp., Boston.
McFadden, James Frederick, Foxboro State Hosp.
Mack, Frank Andrew, 1133 Commonwealth Ave., Boston.
Mahoney, John Francis, St. Elizabeth's Hosp., Brighton.
Manitoff, Anna Rachel, 28 Bryant St., Malden, Mass.
Mann, David Edwin, 330 Mt. Auburn St., Cambridge.
Mansfield, Burleigh Burton, Salem Hosp., Salem, Mass.
Margeson, Reginald Dimock, Boston City Hosp.
Meader, Emma Laura, East Wolfboro, N. H.

Mernin, Mary Towler, 28 Blake St., Cambridge, Mass.
Montgomery, James Blaine, Sea View Hotel, Oak Bluffs, Mass.
Morgan, Roy, State Sanatorium, Westfield.
Muldoon, Agnes Catharine, 40 Crescent St., Somerville.
Muldoon, Mary Theresa, 40 Crescent St., Somerville.
Murphy, Harold Alphonsus, St. Elizabeth's Hosp., Brighton.
Murray, George Aloysius, 29 Howell St., Dorchester.
Odeneal, Thomas Helm, State Infirmary, Tewksbury.
O'Donnell, John Joseph, 104 Byron St., East Boston.
Packard, Fabyan, 27 Brighton Ave., Allston.
Papavasiliou, Vasilios Konstantinos, St. Joseph's Hosp., Providence, R. I.
Parker, George Albert, Howard, R. I.
Parker, Mary C., Southwest Harbor, Maine.
Persky, Myer Arthur, House of Mercy Hosp., Pittsfield.
Pillsbury, Nahum Roy, Atlantic House, Nantasket Beach.
Pinckney, John Irving, State Sanatorium, Westfield.
Rafferty, Thomas Bernard, St. Elizabeth's Hosp., Brighton.
Randall, May Estelle, 604 Massachusetts Ave., Boston.
Richardson, Harlan Lewis, 58 Main St., Somerville, Mass.
Richardson, Henry Barber, Peter Bent Brigham Hosp., Boston.
Risley, John Norman, 2026 Locust St., Philadelphia, Pa.
Roderick, Anthony Joseph, 175 Grinnell St., New Bedford.
Rounsefell, Clifford George, McLean Hosp., Waverley.
Salerno, Louis Francis, Boston City Hosp.
Sandler, Frank Fishel, 69 Baker Ave., Revere.
Scanlon, Joseph Michael ,114 Elm St., Lawrence.
Sharry, Charles Francis, Frost General Hosp., Chelsea.
Silverman, Max, 21 Williams St., Brockton.
Sorn, Boris Joseph, Emerson Hosp., Jamaica Plain.
Spaulding, Marion Elisabeth, North Scituate, Mass.
Stern, Neuton Samuel, 14 Fessenden St., Jamaica Plain.
Sullivan, George Mortimer, Middleboro, Mass.
Taylor, William Joseph, 11 Union Ave., Everett, Mass.
Thaxter, Langdon Thom, Cushing's Island, Portland, Me.
Thomas, Albert Cox, Foxboro State Hosp.
Thompson, John James, 1478 Dundas St., Toronto, Canada.
Tingley, Helen Gertrude, 947 Massachusetts Ave., Cambridge.
Van de Velde, Honore, 524 Massachusetts Ave., Boston.
Waite, Anna Jeannette, 770 Franklin St., Worcester.
Walker, Melvin Harvey, Jr., Westboro, Mass.
Walsh, Patrick Henry, St. Luke's Hosp., New Bedford.
Whitcomb, Clarence Adelbert, 9 Mills St., Malden.
Wright, Willard Lyman, Springfield Hosp., Springfield, Mass.
Young, Annie Roberts, 106 Pine St., Lewiston, Maine.

COLLEGE OF PHYSICIANS AND SURGEONS.

Graduates, 1915.

SYNONYMS OF COMON DRUGS AND PREPARATIONS.

Synonyms.	English Names.
Acetanilid	Antifebrin.
Allspice	Pimenta.
American hellebore, Poke root	Veratrum viride.
American wormseed	Chenopodium.
Aqua fortis	Nitric acid.
Aqua regia	Nitromuriatic acid.
Baking powder	Sodium bicarbonate.
Balsam of fir	Canada turpentine.
Basham's mixture	Solution of iron and ammonium acetate.
Basilicon ointment	Resin cerate.
Bearberry	Uva ursi.
Biniodide of mercury	Red mercuric iodide.
Bittersweet	Dulcamara.
Black draught	Compound infusion of senna.
Black drop	Vinegar of opium.
Black wash	A mixture of calomel and lime-water.
Blancard's pill	Pill of ferrous iodide.
Blaud's pill	Pill of carbonate of iron.
Bleaching powder	Chlorinated lime.
Blistering cerate	Cantharidal cerate.
Blistering collodion	Cantharidal collodion.
Blood root	Sanguinaria.
Blue cohosh	Caulophyllum.
Blue flag	Iris.
Blue mass	Mass of mercury.
Blue ointment	Mercurial ointment.
Blue pill	Mass of mercury.
Blue stone, Blue vitriol	Copper sulphate.
Boneset, Thoroughwort	Eupatorium.
Brayera	Kusso.
Broom	Scoparius.
Brown mixture	Compound mixture of glycyrrhiza,

Synonyms.	English Names.
Buckthorn	Frangula.
Burnett's fluid	Solution of zinc chloride.
Cacao butter	Oil of theobroma.
Calabar bean	Physostigma.
Calomel	Mild mercurous chloride.
Camomile	Anthemis.
Canadian hemp	Apocynum.
Carron oil	Lime liniment.
Cetraria	Iceland moss.
Citrine ointment	Ointment of mercuric nitrate.
Clemen's solution	Solution of arsenic bromide.
Cold cream	Ointment of rose-water.
Copperas	Green vitriol—Ferous sulphate.
Corrosive sublimate	Bichloride of mercury—Corrosive mercuric chloride.
Couch-grass	Triticum.
Court-plaster	Isinglass plaster.
Coxe's hive syrup	Compound syrup of squill.
Cramp-bark	Viburnum opulus.
Crane's bill root	Geranium.
Cream of tartar	Potassium bicarbonate.
Culver's root	Leptandra.
Dandelion	Taraxacum.
Deadly nightshade	Belladonna.
Diachylon ointment	Ointment of lead plaster.
Diachylon plaster	Lead plaster.
Dinner pill	Pill of aloes and mastic.
Dog button	Nux vomica.
Donovan's solution	Solution of arsenic and mercuric iodide.
Dover's powder	Powder of ipecac and opium.
Elixir of vitriol	Aromatic sulphur acid.
Epsom salts	Magnesium sulphate.
Eserine	Physostigmine.
Felix mas, Male fern	Aspidium.
Fleming's tincture	A strong unofficial tincture of aconite.
Fowler's solution	Solution of potasium arsenite.
Foxglove	Digitalis.
Friar's balsam, Turlington balsam	Compound tincture of benzoin.
German camomile	Matricaria.
Glauber's salt	Sodium sulphate.
Glusidum	Saccharin.

Synonyms.	English Names.
Goulard's cerate	Cerate of lead subacetate.
Goulard's extract	Solution of lead subacetate.
Gray powder	Mercury with chalk.
Green iodide of mercury	Protoiodide of mercury—Yellow mercurous iodide.
Green vitriol	Ferous sulphate—Copperas.
Gregory's powder	Compound powder of rhubarb.
Griffith's mixture	Compound iron mixture.
Gum arabic	Acacia.
Gypsum, Plaster of Paris	Dried calcium sulphate.
Hartshorn	Ammonium hydrate.
Hemlock	Conium.
Henbane	Hyoscyamus.
Hoffman's anodyne	Compound spirit of ether.
Horehound	Marrubium.
Husband's magnesia, Calcined magnesia	Magnesia.
Huxham's tincture	Compound tincture of cinchona.
Iceland moss	Cetraria.
Indian hemp	Cannabis indica.
Indian tobacco	Lobelia.
Irish moss	Chondrus.
Iron by hydrogen, Quevenne's iron	Reduced iron.
Jaborandi	Pilocarpus.
James' powder	Antimonial powder.
Jamestown weed	Stramonium.
Kermes-mineral	Sulphurated antimony.
Labarraque's solution	Solution of chlorinated soda.
Lac sulphur	Precipitated sulphur.
Ladies' slipper	Cypripedium.
Lady Webster dinner pill	Pill of aloes and mastic.
Lanolin	Hydrated wool-fat.
Laudanum	Tincture of opium.
Lead-water	Dilute solution of lead subacetate.
Levant wormseed	Santonica.
Licorice powder	Compound powder of glycyrrhiza.
Lily of the valley	Convallaria.
Litharge	Lead oxide.
Logwood	Hematoxylon.
Lugol's solution	Compound solution of iodine.

Synonyms.	English Names.
Lunar caustic	Moulded silver nitrate.
Magendie's solution	An unofficial aqueous solution of morphine sulphate.
Male fern, Felix mas	Aspidium.
Mandrake root, May-apple	Podophyllum.
Marigold	Calendula.
Marshmallow	Altheae.
Meadow saffron	Colchicum.
Mica panis	Bread-crumb.
Milk of asafetida	Emulsion of asafetida.
Mitigated caustic	Diluted silver nitrate.
Monkshood	Aconite.
Monsel's salt	Ferric subsulphate.
Monsel's solution	Solution of ferric tersulphate.
Muriatic acid	Hydrochloric acid.
Nitre	Saltpetre — Potassium nitrate.
Nitroglycerine, Trinitrin	Glonoin.
Norwood's tincture	A strong unofficial tincture of viratrum viride.
Oil of vitriol	Sulphuric acid.
Paregoric	Camphorated tincture of opium
Pearson's solution	Solution of sodium arsenate.
Pennyroyal	Hedroma.
Peroxide of hydrogen	Solution of hydrogen dioxide.
Peruvian bark, Jesuits' bark	Cinchona.
Phenazone	Antipyrin.
Pink root	Spigelia.
Plaster of Paris	Dried calcium sulphate.
Plummer's pill	Compound pill of antimony.
Poison ivy	Rhus toxicodendron.
Poke-berry	Phytolacca.
Pomegranate	Granatum.
Protoiodide of mercury, Green iodide of mercury	Yellow mercurous iodide
Prussic acid	Hydrocyanic acid.
Pulvis purgans	Compound jalap powder.
Queen's root	Stillingia.
Quevenne's iron, Iron by hydrogen	Reduced iron.
Quicksilver	Mercury.
Red precipitate	Red mercuric oxide.
Rhatany	Krameria.
Rottlera	Kamala.

Synonyms.	English Names.
Rochelle salt	Potassium and sodium tartrate.
Sacred bark	Cascara sagrada.
Sal aeratus	Potassium bicarbonate.
Sal ammoniac	Ammonium chloride.
Sal prunella	Fused potassium nitrate.
Sal soda	Sodium carbonate.
Sal tartar	Potassium carbonate.
Sal volatile	Ammonium carbonate.
Sea onion	Squill.
Seidlitz powder	Compound effervescent powder.
Soluble glass	Solution of sodium silicate.
Spanish fly	Cantharis.
Spirit of mindererus	Solution of ammonium acetate.
Spirit of nitroglycerin	Spirit of glonoin.
Strengthening plaster	Iron plaster.
Sugar of lead	Lead acetate.
Sweet flag	Calamus.
Sweet spirit of nitre	Spirit of nitrous ether.
Sydenham's laudanum	Wine of opium.
Tartar emetic	Antimony or potassium tartrate.
Tincture of green soap	Liniment of soft soap.
Tully's powder	Compound powder of morphine.
Turpeth mineral	Yellow mercuric subsulphate.
Vallet's mass	Mass of ferrous carbonate.
Vienna paste	Potassa with lime.
Vinum portense	Port wine.
Vinum xericum	Sherry wine.
Virginia snakeroot	Serpentaria.
Volatile liniment	Liniment of ammonia.
Wahoo	Euconymus.
Warming plaster	Cantharidal pitch plaster.
Washing soda	Sodium carbonate.
White lead	Lead carbonate.
White precipitate	Ammoniated mercury.
Wild cherry	Prunus Virginiana.
Wintergreen	Gaultheria.
Witchhazel	Hamamelis.
Wormwood	Absinthium.
Yellow jasmine	Gelsemium.
Yellow prussiate of potash	Potassium ferro-cyanide.
Yellow wash	Corrosive sublimate and lime-water.

Boston University School of Medicine

44th Year, 1915-16 **Begins Oct. 7, 1915**

High standards, thorough work, a broad and comprehensive curriculum affording a liberal medical education, including Homœopathic materia medica and therapeutics; superior clinical advantages. Hospital appointments. Co-educational.

Four-years graded course leading to the degree M. D.

Also offers six-years combination course in connection with the College of Liberal Arts of Boston University. The first two years of this course are spent in the College of Liberal Arts, pursuing a curriculum especially designed to meet the requirements of the course; the remaining four years are spent in the Medical School. At the end of the second year in the Medical School, during which time the fundamental medical sciences have formed the chief studies, students may come up for the degree of S. B. Two years more of study, completing the medical curriculum, will fulfill the four-years requirement for the degree of M. D.

Besides the Doctorate in Medicine, Boston University School of Medicine awards the M. B and Ch. B. at the end of the third year for high rank in the entire work of the first, second and third years.

Degree Doctor of Philosophy

Graduates of the Boston University School of Medicine who hold the degree of A. B. or S B. and meet the regular requirements for admission to the Graduate School, may, if they have an average record of not less than eighty per cent. on all work done in the School of Medicine, and are recommended by the Medical Faculty, be admitted to the Graduate School. If admitted, their status relative to the work required for the degree of Doctor of Philosophy shall be the same as that of a candidate who has received the degree of A. M. from Boston University, and the minimum amount of work shall be two full years in the Graduate School. The Doctorate in Philosophy may be taken in the following medical sciences: Anatomy, Bacteriology, Chemistry, Pathology, Physiology.

In addition to its regular courses, Boston University School of Medicine offers

Summer Postgraduate Courses

in fourteen subjects, as follows:

Dermatology
Diseases of the Digestive Tract
Gynecology
Homœopathy
Neurology
Nose and Throat Diseases
Obstetrics
Ophthalmology
Orthopedics
Otology
Pathology
Physical Economics
Physiology, Experimental
Surgery

These courses are given during the month of May and run until about the middle of June.

Dear Doctor:

When you have looked through this Directory and feel more or less satisfied with its make-up, make up your mind to patronize the shop that can and will give you good goods at right prices.

We claim that our house is better fitted to fill your many professional wants than any other of its kind in the East. You can prove or disprove our claim by calling or sending in your orders.

Emergency or night calls may be made to Back Bay 5264-W, Cambridge 773-M, and Cambridge 1935-W.

Yours for a square deal,
F. H. THOMAS COMPANY.

We give to physicians every opportunity to know definitely the composition of Mellin's Food.

We give to physicians every opportunity to know definitely the composition of all milk mixtures resulting from the

**Mellin's Food
Method
of Milk
Modification**

This information, so readily obtained, places the matter of "food mixtures" directly and completely in physicians' hands to advise and adjust as the needs of the individual infant dictate.

There is nothing obscure, there is nothing to surmise, in the use of this clearly defined method.

Physicians referring patients to the Medical Baths have only to indicate the condition for which treatment is desired, and the proper procedures will be given, or, if they prefer, they may send a detailed prescription, which will be exactly followed. A list of hydrotherapeutic prescriptions will be furnished on request.

HARRY A. JOHNSON, Mgr.

DIMAZON

Extensive clinical investigations in many of the leading hospitals of Europe, and the more recent observations in this country, have established the position of DIMAZON as a dependable remedy in the treatment of many intractable lesions, such as the following:

INDOLENT VARICOSE ULCERS
ULCERATING SYPHILIDES
TUBERCULOUS and DIABETIC ULCERS
SLUGGISH or NON-GRANULATING WOUNDS
ECZEMA, BURNS, HERPES, Etc.

DIMAZON is put up in Ointment, Powder and Oil forms

For free samples and clinical reports apply to

Heilkraft Medical Co., Boston, Mass.

WHITING'S MILK PRODUCTS

MILK (Our general supply, 9 cents quart). This milk is from dairies regularly inspected and is finally safeguarded by scientific pasteurization at 145° F. for 30 minutes.

CROWN BRAND MILK (11 cents quart). From superior dairies and pasteurized (by the perfected method) after being bottled. Capped with Crown Seals.

INSPECTED or BLUE LABEL MILK (13 cents quart). From very high-grade dairies with tuberculin-tested cows and pasteurized after being bottled. Capped with Crown Seals.

CERTIFIED MILK (16 cents quart). Produced under the supervision of the Medical Milk Commission of Boston in the ideal dairy of the Massachusetts Agricultural College.

BUTTERMILK (7 cents quart). The product of churning carefully ripened pasteurized cream.

CREAM—LIGHT (8 cents); **MEDIUM** (10 cents); **HEAVY** (15 cents per half-pint jar). Safe-guarded by pasteurization in the bottle, and by metal seals.

BUTTER. Made in our factory by sanitary methods, in print or solid forms.

MODIFIED MILK (20 cents quart). Any formula delivered on order of physicians.

SUGAR-FREE MILK. Prepared for use by diabetic patients. 25 cents per 8-ounce bottle, $1.25 per case of half-dozen bottles; double strength and to be diluted with an equal quantity of water.

WAVENEY FARM

A Model Dairy Farm

Situated on the border line between Framingham and Southborough

The dairy barns have concrete walls and floors, and at the junction of all walls and floors the concrete is curved so that no dirt can collect. The cows stand on cork brick instead of rotting timber, and are bedded with fresh, clean sawdust, which enables the stalls to be kept continually clean and sweet. Improved metal stanchions which insure absolute cleanliness are used to fasten the cows instead of the old wooden slats.

The walls of the barn are painted with "Ripolin" enamel paint, and these as well as the floors of the barns and the mangers in front of the cows are thoroughly washed each day. All windows and doors are screened throughout.

The cows are carefully groomed each day, and in winter, when the hair is long, are kept clipped, so that no dust or dirt can collect.

Several isolation stalls are provided, so that should at any time a cow be ill, or even appear ill, she is immediately isolated and her milk is not sold while she is in the isolation stall.

A shower bath with hot and cold water is provided for the men. All men who milk are required to dress in clean white milking suits and caps, and to use the facilities at hand to keep themselves thoroughly sanitary. Rigid rules in regard to handling the milk are strictly enforced.

As soon as a cow is milked, the milk is carried to the dairy room and poured from the outside of the room into the aerator, where it is at once chilled, filtering through separate gauze filters. From the aerator it passes into the bottling machine and is immediately automatically bottled. The bottles are then sealed automatically, and the milk does not come in contact with anything but sterilized utensils from the time it leaves the cow until the bottle is opened in the consumer's home. Even the men who milk do not enter the dairy room itself. All utensils are thoroughly sterilized with live steam in a special room reserved for that purpose.

The Waveney herd is tuberculin tested twice each year, so that every precaution is taken to guard against tuberculosis, to which cows are most susceptible.

The following notice is posted in a conspicuous place in each barn and rigidly enforced:—

> "If any man feels ill or has illness in his family, he shall report the fact immediately to the superintendent, and unless otherwise directed by him, shall not milk thereafter until ordered to do so."

The herd is composed of Jerseys, Ayreshires, Guernseys and Holsteins.

Five Passenger Touring Car

Model 83

35 horsepower motor
High-tension magneto ignition
Electric starting and lighting
Left-hand drive, center control
Tires, 33 by 4 inches, non-skid in rear
Demountable rims (one extra rim)
Full streamline body
Deep divan upholstery

$750 **F. O. B. Detroit**

This is the largest four-cylinder Overland that will be produced this year.

The long, low streamline body is unmarred by angles or projections. From the rounded edge of the radiator to the full curved back, there is not a break in the lines. The hood slopes gently upward and blends into the beautifully curved cowl. The doors are flush, with hinges concealed and handles inside. The fenders are long and sweeping in their curves, with gracefully rounded surfaces. The running boards are clean and free from obstructions, the storage battery concealed, the tire-carriers placed at the rear. The windshield is built-in, and conforms to the curve of the cowl—a part of the car itself, not an apparent afterthought.

The car is superbly finished in a rich, deep Brewster green, delicately striped with pure ivory white, and set off in pleasing contrast by black enameled radiator, fenders and running board shield.

Model 83 touring car is a beautiful car. It asks no odds of any car at any price—it is at home in any company.

Natural Line Corset

Reasons Why It Prolongs Life

1—It conforms to the normal line of the perfect form.

2—It maintains exact body equlibrium.

3—It holds every organ in its natural position.

4—It forms a perfect abdominal support.

5—It relieves the heavy strain on the back.

6—It makes it possible for a woman to walk without fatigue.

7—It prevents pressure on the pelvic organs.

8—It anticipates female diseases.

9—It precludes an inactive bowel.

10—It secures absolute comfort during and after pregnancy.

11—It is used by surgeons after abdominal operations.

12—It gives the perfect form, because it was modeled from the Venus de Milo.

A natural line which is but grace attracts much more than a handsome face.

BOARD OF CONSULTATION

WM. M. CONANT, M. D., Boston   GEO. M. GARLAND, M. D., Boston
WILLIAM O. FAXON, M. D., Stoughton

THIS mechanical apparatus is manufactured for the use of members of the medical profession in the treatment of flat foot; varicose veins; hyperidrosis; certain forms of sciatica, rheumatism and neuritis; various kinds of paralysis; chilblains, and disorders that are caused by derangements of the bones of the foot.

These different diseases have been cured by this apparatus, and the doctor may rest assured that as the apparatus is mechanical it will continue to benefit all similar cases.

The apparatus (cut of which is shown on the opposite page) requires a space of 3x6 feet. The machine and chair are adjustable, so that the patient may be placed in a relaxed position, according to the necessities of the disorder, and for the same reason the machine is placed upon a track, that it may be adjustable to short and long limbs.

We place our apparatus in the doctor's office on the co-operative plan, sharing the profits received from treatments, or by lease.

We believe the important things which enter into this treatment are: First, that the suffering public should have an opportunity of being cured and enjoying the blessings of good health; second, the doctor, who is the medium through which this is accomplished, should be compensated for his services, knowledge, skill and interest; third, that the Company is entitled to a profit for the large capital invested in this enterprise and the attendant expense in maintaining the ethics of the profession.

Water During Pregnancy

Doubtless those physicians who advise free drinking of water during Pregnancy as an aid to the elimination of metabolic waste products do not wish their patients to drink hard or heavily mineralized water.

Ballardvale Spring Water

contains only $\frac{1}{500}$ of 1% mineral. It is therefore almost as soft as distilled water, but we believe it to be more wholesome than distilled water because it is entirely natural. Nor do we believe that aerated distilled water is as wholesome as BALLARDVALE.

BALLARDVALE SPRINGS COMPANY

BOSTON, MASSACHUSETTS

HYDROTHERAPY

DEAR DOCTOR:

Hydrotherapy is as much an art as Surgery or any other branch of medicine. We have an entire building devoted to this science, equipped with the latest hydrotherapy apparatus, including a swimming pool, rest, massage and sleeping rooms. Patients are received all day and night. Our attendants are expert masseurs and masseuses.

The attending physician will be glad to confer with you and see that your directions are carried out, and reports made to you on the progress of your patients.

We cordially invite your inspection of these Baths, and ask for your hearty co-operation.

MASSACHUSETTS BATHS
